Arguing with Aseneth Jill Hicks-Keeton,2018-09-14 *Arguing with Aseneth* shows how the ancient Jewish romance known as Joseph and Aseneth moves a minor character in Genesis from obscurity to renown weaving a new story whose main purpose was to intervene in ancient Jewish debates surrounding gentile access to Israel s God Written in Greco Roman Egypt around the turn of the era Joseph and Aseneth combines the genre of the ancient Greek novel with scriptural characters from the story of Joseph as it retells Israel s mythic past to negotiate communal boundaries in its own present With attention to the ways in

which Aseneth's tale remixes Genesis wrestles with Deuteronomic theology and adopts prophetic visions of the future. Arguing with Aseneth demonstrates that this ancient novel inscribes into Israel's sacred narrative a precedent for gentile inclusion in the people belonging to Israel's God. Aseneth is transformed from material mother of the sons of Joseph to a mediator of God's mercy and life to future penitents Jew and gentile alike. Yet not all Jewish thinkers in antiquity drew boundary lines the same way or in the same place. Arguing with Aseneth traces then not only the way in which Joseph and Aseneth affirms the possibility of gentile incorporation but also ways in which other ancient Jewish thinkers including the apostle Paul would have argued back contesting Joseph and Aseneth's very conclusions or offering alternative competing strategies of inclusion. With its use of a female protagonist Joseph and Aseneth offers a distinctive model of gentile incorporation one that eschews lines of patrilineal descent and undermines ethnicity and genealogy as necessary markers of belonging. Such a reading of this narrative shows us that we need to rethink our accounts of how ancient Jewish thinkers including our earliest example from the Jesus Movement negotiated who was in and who was out when it came to the people of Israel's God.

History of Passaic and Its Environs ... William Winfield Scott, 1922

The Historical Jesus in Context
Amy-Jill Levine, Dale C. Allison, John Dominic Crossan, 2024-11-01. This anthology presents a broad range of primary sources and expert commentary that contextualize the historical Jesus in his world. This landmark volume places the gospel narratives in their full literary, social, and archaeological context. More than twenty-five internationally recognized experts offer new translations and descriptions of texts that shed new light on the Jesus of history, including pagan prayers and private inscriptions, miracle tales and martyrdoms, parables and fables, divorce decrees and imperial propaganda. The translated materials from Christian, Coptic, and Jewish as well as Greek, Roman, and Egyptian texts extend beyond single phrases to encompass the full context, thus allowing readers to locate Jesus in a broader cultural setting than is usually made available. This book demonstrates that only by knowing the world in which Jesus lived and taught can we fully understand him, his message, and the spread of the Gospel. Gathering material that was previously available only in disparate sources, this formidable book provides innovative insight into matters no less grand than first-century Jewish and Gentile life, the composition of the Gospels, and Jesus himself.

De grandes familles seigneuriales du Languedoc y firent domicile par le passé : la famille des Seigneurs de Termes, la famille de Grave, la famille Darse, la famille Daucères. Quelques années avant la Révolution, le seigneur de l'époque fort endetté choisit de marier une de ses filles à l'héritier d'une famille roturière de Bugarach, Jean Barthe. Ce dernier ne pourra accéder à la noblesse, la Révolution ayant fait son œuvre. Jean Barthe tait mon ancêtre. C'est ainsi que fut transmis dans notre famille de génération en génération l'imposant Fonds des seigneurs de Lanet couvrant la période XIII^{ème} - XIX^{ème} siècles. C'est partir des documents contenus dans ce fonds que nous vous proposons cette histoire de Lanet, version modifiée, augmentée et restructurée d'un
