**Marcel Duchamp-- "Tu M"** Karl Gerstner, 2003 Essay by Karl Gerstner      **Chromatic Modernity** Sarah Street, Joshua Yumibe, 2019-04-02 The era of silent film long seen as black and white has been revealed in recent scholarship as bursting with color Yet the 1920s remain thought of as a transitional decade between early cinema and the rise of Technicolor despite the fact that new color technologies used in film advertising fashion and industry reshaped cinema and consumer culture In *Chromatic Modernity* Sarah Street and Joshua Yumibe provide a revelatory history of how the use of color in film during the 1920s played a key role in creating a chromatically vibrant culture Focusing on the final decade of silent film Street and Yumibe portray the 1920s as a pivotal and profoundly chromatic period of cosmopolitan exchange collaboration and experimentation in and around cinema *Chromatic Modernity* explores contemporary debates over color s artistic scientific philosophical and educational significance It examines a wide range of European and American films including *Opus 1* 1921 *L'Inhumaine* 1923 *Die Nibelungen* 1924 *The Phantom of the Opera* 1925 *The Lodger* 1927 *Napol on* 1927 and *Dracula* 1932 A comprehensive comparative study that situates film among developments in art color science and industry *Chromatic Modernity* reveals the role of color cinema in forging new ways of looking at and experiencing the modern world      *Color Chart* Ann Temkin, 2008 *Color Chart* celebrates a paradox the lush beauty that results when contemporary artists assign colour decisions to chance readymade source or arbitrary system Midway through the 20th century long held convictions regarding the spiritual truth or scientific validity of particular colours gave way to an excitement about colour as a mass produced and standardized commercial product The Romantic quest for personal expression instead became Andy Warhol s I want to be a machine the artistry of mixing pigments was eclipsed by Frank Stella s Straight out of the can it can t get better than that This book and the exhibition it accompanies is the first devoted to this pivotal transformation and features work by some forty artists ranging from Ellsworth Kelly and Gerhard Richter to Sherrie Levine and Damien Hirst      **Marcel Duchamp** Caroline Cros, 2013-06-01 A revealing account of an artist whose enduring obsession with chance and coincidence shaped both his life and work Marcel Duchamp illuminates one of the most important and influential figures in all of modern art Drawing on the artist s own correspondence as well as interviews Paris based curator and art critic Caroline Cros explores the creative processes behind Duchamp s works including his famous anti sculptures the Readymades the enigmatic *Grand Verre* and the seductive disturbing *Etant Donn s* as well as the often hostile reception he encountered in Paris and around the world Cros also examines Duchamp s work after he abandoned his art at the age of thirty six Notoriously Duchamp claimed that he would dedicate the remainder of his life to chess but here we learn of his ongoing contributions to the art world including his intense involvement in museums foundations and surrealist publications With two major Dada exhibitions planned for 2006 at the National Gallery of Art in Washington D C and the Museum of Modern Art in New York *Marcel Duchamp* will be this year s ultimate guide to the master of the movment      **Marcel Duchamp** Giannēs
