Marching With Pipes And Drums:

Marching with Pipes and Drums , , Marching to the Drums John Norris,2012-02-29 Military drummers have played a crucial role in warfare throughout history Soldiers marched to battle to the sound of the drums and used the beat to regulate the loading and re loading of their weapons during the battle Drummers were also used to raise morale during the fight This is the first work to chart the rise of drums in military use and how they came to be used on the battlefield as a means of signalling This use was to last for almost 4 000 years when modern warfare with communications rendered them obsolete Even so drummers continued to serve in the armies of the world and performed many acts of heroism as the served as stretcher bearers to rescue the wounded from the battlefield From ancient China Egypt and the Mongol hordes of Genghis Khan the drum was used on the battlefield The 12th century Crusaders helped re introduce the drum to Europe and during the Napoleonic Wars of the 18th and 19th centuries the drum was to be heard resonating across Europe Drummers had to flog their comrades and beat their drums on drill parade Today they are ceremonial but this work tells how they had to face enemies across the battlefield with only their drum Musical Colours Ian Pearson,Jack Kopstein,2022-01-31 On the cover of the 1970 record THE VANISHING REGIMENTS Colonel CH Jaeger OBE made an interesting observation Be it true or not that old soldiers never die but only fade away it is absolutely certain that the music connected with soldiering never does in fact Many famous Regiments in the last few years have passed off the scene others have been amalgamated Much of the music of former Regiments is still in use though the names of the Regiments concerned have vanished perhaps forever Regimental colours are the symbolic spirit of the regiment their marches are the musical spirit Their histories are sometimes older than the regiments themselves and very much guarded and cherished by them When you hear a regimental band play a march why that march This book is an attempt to cover the fascinating histories of military marches how and why regiments adopted them even those that have faded into history It will appeal to those interested in Regimental Marches of Canadian and United Kingdom Armed Forces Over 500 marches are covered with many band photos from across the centuries Also included are narratives of the composers Victoria Cross musicians and even words to many marches So get out the records crank up the volume and listen to the bands play their MUSICAL COLOURS while reading all bout them Helping Stop Hitler's Luftwaffe Arthur McDonald,2020-12-28 An RAF pilot recounts his vital role in the development of Britain s WWII air defense system in this fascinating military memoir During the 1930s the UK had no realistic defense against fast flying bomber planes That was before radar technology proved capable of detecting an aircraft before it even reached British soil This was shown in dramatic fashion during the Biggin Hill Experiment when a young Arthur McDonald led three biplanes all directed by radar sets on the ground to intercept incoming aircraft McDonald was told the whole future of this country depends on the results which you obtain His success led to a new military strategy focused on modern fighter planes using a newly developed radar network all of which proved crucial during the Battle of Britain For his work McDonald received the

McLauchlan,2025-04-24 In the early second century CE someone was described as playing a pipe with a bag tucked under his armpit That man the first named piper in history was the Roman Emperor Nero Since then this improbable conflation of bag and sticks has become one of the most beloved and contested instruments of all time When another piping emperor Tsar Peter the Great watched his pet bear take its last breath he decided the creature would live on as a bagpipe This rich and vivid history tells the story of an instrument boasting over 130 varieties yet commonly associated with just one form and one country Scotland and its familiar Great Highland Bagpipe In fact the pipes are played across the globe and their story is a highly diverse one which illuminates society in remarkable unexpected ways Richard McLauchlan charts the rise of women pipers investigates how class privilege and capitalism have shaped the world of piping and explores how the meaning of a national instrument can shift with the currents of a people s identity The vibrancy and inventiveness characterising today s pipers still speak to the potency of this fabled and once feared instrument to which McLauchlan is our surefooted guide

Prophets and Preachers ,2016-04-01 In February 1534 a radical group of Anabaptists gripped with apocalyptic fervor seized the city of M nster and established an idealistic communal government that quickly deteriorated into extreme inequality and theocratic totalitarianism In response troops hired by the city s prince bishop laid siege to the city Fifteen months later the besieged inhabitants were starving and in the dead of the night five men slipped out Separated from his fellow escapees Henry Gresbeck gambled with his life by approaching enemy troops Taken prisoner he collaborated with the

enemy to devise a plan to recapture Münster and later recorded the only eyewitness account of the Anabaptist kingdom of Münster. Gresbeck's account, which attempts to explain his role in the bizarre events, disappeared into the archives and was largely ignored for centuries. Before now, Gresbeck's account was only available in a heavily edited German copy adapted from inferior manuscripts. Christopher S. Mackay, who previously produced the only modern translation of the main Latin account of these events, has adhered closely to Gresbeck's own words to produce the first complete and accurate English translation of this important primary source.
