Broadcasting and Public Life John Horgan, 2004 News and current affairs have been at the core of RTE's activity ever since its foundation but more particularly since the inauguration of Irish television in 1961 This book focuses on the pressures the programmes and the presenters in this controversial area It is a story that touches on the most significant events in the political history of 20th century Ireland particularly the Northern crisis and explores the responses and the responsibilities of a national public service broadcasting organization in an era of conflict and dramatic social change

Books Ireland, 2005 **It's Part of What We Are - Volumes 1 and 2 - Volume 1: Richard Boyle (1566-1643) to John Tyndall (1820-1893); Volume 2: Samuel Haughton (18210-1897) to John Stewart Bell (1928-1990)** Charles Mollan, 2007-11-15 Biographies of more than 100 Irish scientists or those with strong Irish connections in the disciplines of Chemistry and Physics including Astronomy Mathematics etc describing them in their Irish and international scientific social educational and political context Written in an attractive informal style for the hypothetical educated layman who does not need to have studied science Well received in Irish and international reviews **The Broadcaster, Electrical & Wireless**

Retailer, 1929 The Wireless World and Radio Review, 1929 **Media, Technology and Society** Brian Winston, 2002-09-11 Challenging the popular myth of a present day information revolution Media Technology and Society is essential reading for anyone interested in the social impact of technological change Winston argues that the development of new media forms from the telegraph and the telephone to computers satellite and virtual reality is the product of a constant play off between social necessity and suppression the unwritten law by which new technologies are introduced into society only insofar as their disruptive potential is limited *The Wireless World and Radio Review*, 1937 Syren and Shipping Illustrated, 1925 The Musical Times & Singing-class Circular, 1926 Screening Ireland Lance Pettitt, 2000 Analysing historical and contemporary examples this book offers a thematically informed synthesis of influential research on Irish audio visual culture **Thunderstruck** Erik Larson, 2006-10-24 A true story of love murder and the end of the world's great hush In Thunderstruck Erik Larson tells the interwoven stories of two men Hawley Crippen a very unlikely murderer and Guglielmo Marconi the obsessive creator of a seemingly supernatural means of communication whose lives intersect during one of the greatest criminal chases of all time Set in Edwardian London and on the stormy coasts of Cornwall Cape Cod and

Nova Scotia Thunderstruck evokes the dynamism of those years when great shipping companies competed to build the biggest fastest ocean liners scientific advances dazzled the public with visions of a world transformed and the rich outdid one another with ostentatious displays of wealth Against this background Marconi races against incredible odds and relentless skepticism to perfect his invention the wireless a prime catalyst for the emergence of the world we know today Meanwhile Crippen the kindest of men nearly commits the perfect murder With his unparalleled narrative skills Erik Larson guides us through a relentlessly suspenseful chase over the waters of the North Atlantic Along the way he tells of a sad and tragic love affair that was described on the front pages of newspapers around the world a chief inspector who found himself strangely sympathetic to the killer and his lover and a driven and compelling inventor who transformed the way we communicate

Guglielmo Marconi e l'omicidio di Cora Crippen Erik Larson,2014-02-26T00:00:00+01:00 Nuova edizione di uno dei libri di maggior successo di Erik Larson il libro apparve col Titolo La fabbrica dei lampi Guglielmo Marconi e l'omicidio di Cora Crippen una grande storia di delitti e invenzioni Los Angeles Times che conduce il lettore nel cuore della turbo lenta effervescente Londra edoardiana **Wireless World** ,1928 **From the Bog to the Cloud** Patrick Bresnihan,Patrick Brodie,2025-10-24 The green digital transition is underway But what does this transition look like when dictated by the energy and resource demands of monopoly tech How has this situation come to be And where is it being resisted This provocative book uncovers the hidden intersections of land resource extraction and climate policy in the transition to greener and smarter economies Challenging eco modern and techno solutionist approaches the book links narratives of sustainability with colonial histories and uneven development arguing that tech driven transitions replicate exploitative patterns of imperial capitalism Using Ireland as a focal point the authors show how the history and depth of the country's postcolonial dependency on multinational investment especially US technology companies comes into friction with disparate land based struggles Thinking with these movements the book offers a critique of dependent models of development and proposes an anti imperialist approach to environmental politics **Ireland Within the Union 1800-1921** Desmond Keenan,2008-08-18 This book represents a summary of my five previous books on Ireland within the Union with Great Britain The traditional distortions of nationalist propaganda are weeded out a complete re examination was made of the original sources and conclusions broadly in line with recent scholarship drawn from them The Electrician ,1923 The Electrical Journal ,1923 *Irish statistical bulletin* ,1925
