Naked Emperors:

Naked Emperors Garrett Hardin, 1982 Naked Emperors Scot M. Faulkner, 2008 *Naked Emperors* explains in sharp detail how the historic congressional election of 1994 utterly failed to live up to the promise of the Republican Revolution and its Contract for America and what citizens can do to make government more accountable **The Emperor is Naked** Hamid Dabashi, 2020-04-15 The invention of the nation state was the crowning achievement of the Sykes Picot Agreement between the United Kingdom and France in 1916 As a geostrategic move to divide defeat and dismantle the Ottoman Empire during World War I it was a great success and the modern colonial borders of the Arab nation states eventually emerged in the course of World War II Today as nations are reconceiving their own postcolonial interpolated histories Arab and Muslim states are becoming total states on the model of ISIS with Iran Syria Turkey and Egypt among others violently manufacturing their legitimacy And yet simultaneously examples such as the Nobel Peace Prize winning formation of a civil society Quartet in Tunisia allude to a growing transnational public sphere across the Arab and Muslim world In *The Emperor is Naked* Hamid Dabashi boldly argues that the category of nation state has failed to produce a legitimate and enduring unit of post colonial polity Considering what this liberation of nations and denial of legitimacy to ruling states will actually unfurl Dabashi asks What will replace the nation state what are the implications of this deconstruction on global politics and crucially what is the meaning of the post colonial subject within this moment *InfoWorld* , 1995-05-22 *InfoWorld* is targeted to Senior IT professionals Content is segmented into Channels and Topic Centers *InfoWorld* also celebrates people companies and projects *God's Naked Gardener* Andreas Rydland, 2015-09-18 This book was written with the idea of taking a nonconfrontational approach to challenge what I perceive as a dogmatic status quo in many churches today My wish is that my efforts can serve as a launch pad for a discussion that will question why we do the things we do and move us towards a Christ centric community of faith Allegorical language is used to bring out the point that some traditions we hold dear have become at best counterproductive and accomplish nothing in reaching out to a lost and dying world This book tries to show Gods plan and desire for humanity in contrast to what we continually do in order to get back into the garden The essence of the text is Gods love towards us and that is what we need to reflect to the world Naked Statues, Fat Gladiators, and War Elephants Garrett Ryan, 2021-09-01 Why didn't the ancient Greeks or Romans wear pants How did they shave How likely were they to drink fine wine use birth control or survive surgery In a series of short and humorous essays *Naked Statues Fat Gladiators and War Elephants* explores some of the questions about the Greeks and Romans that ancient historian Garrett Ryan has answered in the classroom and online Unlike most books on the classical world the focus is not on famous figures or events but on the fascinating details of daily life Learn the answers to How tall were the ancient Greeks and Romans How long did they live What kind of pets did they have How dangerous were their cities Did they believe their myths Did they believe in ghosts monsters and or aliens Did they jog or lift weights How did they capture animals for the Colosseum Were

there secret police spies or assassins What happened to the city of Rome after the Empire collapsed Can any families trace their ancestry back to the Greeks or Romans **The Emperor's New Clothes** Susanna Davidson,2015-05-01 The emperor loves clothes and his new clothes are the best yet What s more they re invisible to anyone stupid So the emperor is a little worried that he can t actually see them himself Part of the Usborne Reading Programme developed with reading experts at the University of Roehampton specially written for children just starting to read alone Irresistible for children learning to read Child Education Plus **Dope Double Agent** Michael Agar,2006 Dope Double Agent is a war on drugs story one that starts in the 60s and only ends with the last lines of the book More than this it is the story of a young Berkeley student and occasional drug user who turns into an insider expert in the drug war with a personal agenda to subvert and correct it He checks in as a heroin patient works the streets of New York dips into worlds of PCP and LSD and seeks the sources of crack heroin and ecstasy The delusions of the experts the public and the politicians amaze him and make him think the double agent job will be easy Instead it is impossible He fails spectacularly so on such hallowed ground as the National Academy of Sciences and the National Institutes of Health Come behind the scenes and watch the drug policy emperor march along for decades thinking he wears a new suit of clothes

Behavioral Risk Management Hersh Shefrin,2016-04-29 The psychological dimension of managing risk is of crucial importance and its study has led to the identification of specific do s and don ts Those with an understanding of the psychology underlying risk and the skills to recognize its manifestation in practice have the opportunity to develop frameworks that embody the do s and don ts thereby producing sound judgments and good decisions Those lacking the understanding and the skills are destined to be more hit and miss in their approach to risk management doing the don ts and not doing the do s Virtually every major risk management catastrophe in the last fifteen years has psychological pitfalls at its root The list of catastrophes includes the 2008 bankruptcy of Lehman Brothers and subsequent global financial crisis the 2010 explosion at BP s Macondo well in the Gulf of Mexico and the 2011 nuclear meltdown at the Fukushima Daiichi power plant A critical lesson from psychological studies for those involved in risk management is that people s judgments and decisions about risk vary with type of circumstance In Behavioral Risk Management readers will learn that there are specific actions that organizations can undertake to incorporate understanding recognition and behavioral interventions into the practice of risk management There are many examples throughout the book that illustrate doing the don ts The chapters in the first part of the book introduce the main ideas and the chapters in the latter part provide insight into how to apply those ideas to the practical world in which risk managers operate *Political Interventions* Pierre Bourdieu,2008-02-17 Pierre Bourdieu one of the most influential critical social theorists of the second half of the twentieth century once described sociology as a combat sport This comprehensive collection of his writings on politics and social science from early 1960s articles on the Algerian War of Independence to the last text he published before his death proves that this vision was enduring throughout his life as well as a serious scholar Bourdieu was always an

outspoken public intellectual Political Interventions includes many texts hitherto unavailable in English and placing them in their historical context reconstructs Bourdieu's vision of academic study and political activism as two sides of the same process the decoding and critique of social reality in order to transform it **Writing the South African San** Lara Atkin, 2022-01-01 This book offers an innovative new framework for reading British and settler representations of Indigenous peoples in the nineteenth century Taking the representation of the Southern African San as its case study it uses methodologies drawn from critical anthropology imperial history and literary studies to show the role that literary representations of Indigenous peoples played in popularising the hierarchical view of racial difference The study identifies an ethnographic poetics in which the claims of scientific discourse blend with a consciously literary preference for metaphor and analogy This created a set of mobile figures that could be disseminated to different reading publics in both Britain and the colonies through a variety of literary genres and textual media It advances research on race and imperial history by focusing on the importance of literature from newspapers and periodicals to popular novels in shaping discourses of national and racial belonging in Britain and the Cape Colony Coevolutionary Pragmatism Xiaoyang Tang, 2021-01-21 Decades long field research investigate Chinese approach in Africa's development reinterpret classics on industrial capitalism and reveal effects of non linear synergism A Comedian's Guide to Theology Thor Ramsey, 2008-03-03 Thor Ramsey known as the Jon Stewart of the theological world defends the essentials of the Christian faith in this volume of comedy for the thinking person Armed with only a laptop and a rapier wit he defends the inspiration of the Bible all Scripture is inspired by God in other words when you tell someone off quote the Bible the doctrine of total depravity calling someone out for their sins is a tricky business especially if you don't know how to operate a bullhorn and the supremacy of Christ or why Thor's God is bigger than your god along with a host of other essential doctrines of the Christian faith Packed with funny stories and hard hitting truths this comprehensive collection of biblical insights and personal anecdotes will surprise readers destroy their misconceptions and leave them wanting more For readers looking alternatives to the conversation of traditional faith or those who have a taste for fearless and hilarious honesty A Comedian's Guide to Theology will permanently change how we all look at Christianity or at least offer a good hearted shove out of the box or back in the box if that's where you need to be **The Re-Emergence of the Single State Solution in Palestine/Israel** Cherine Hussein, 2015-02-11 Providing the first in depth intellectual and organizational mapping of the single state idea's recent resurgence in Palestine Israel this book enquires into its nature as a phenomenon of resistance as well as into its potential as a counterhegemonic force in the making against the processes of Zionism Reconstructing this moment of re emergence through primary material and interviews with diverse influential intellectuals its analysis highlights their self understandings worldviews strategies and perceptions of the phenomenon in which they are involved while questioning whether the single state idea has the potential to become a Gramscian inspired movement of resistance against Zionism In presenting this rare insight into a resistance movement in the

making this book resurrects an empowering image of Antonio Gramsci infused with the writings of Edward Said This it does in an effort to both problematize the dominant interpretations of Gramsci's writings in International Relations and to decolonise the abstract way in which resistance and counter hegemony are often studied in the discipline Contributing a mapping of a silenced alternative and hopeful way forward in the context of escalating violence this book is essential reading for those studying the Arab Israeli conflict Middle East Politics and International Relations *People First Economics* David Ransom, Vanessa Baird, 2010 Toxic debt rising job losses collapsing commodity prices and expanding poverty How can these beasts unleashed by the free market economy be reined in Taking a hard look at the mess of global capitalism this new edition shifts the focus back to the needs of people and the environment With contributions from leading activists and thinkers including Noam Chomsky Naomi Klein and Joseph Stiglitz it buzzes with inspiration and action advocating a classless alternative to capitalism *The Routledge Handbook to Global Political Economy* Ernesto Vivares, 2020-04-16 The Routledge Handbook to Global Political Economy provides a comprehensive guide to how Global Political Economy GPE is conceptualized and researched around the world Including contributions that range from traditional International Political Economy IPE to GPE approaches the Handbook gathers the investigations varying perspectives and innovative research of more than sixty scholars from all over the world Providing undergraduates postgraduates teachers and researchers with a complete set of traditional contending and regional perspectives the book explores current issues conceptual tools key research debates and different methodological approaches taken Structured in five parts methodologically correlated the book presents GPE as a field of global regional and national research historical waves and diverse ontological axes major theoretical perspectives beyond traditional perspectives regional inquiries research arenas Carefully selected contributions from both established and upcoming scholars ensure that this is an eclectic pluralist and multidisciplinary work and an essential resource for all those with an interest in this complex and rapidly evolving field of study *Twilight of the Elites* Chris Hayes, 2013-06-11 A powerful and original argument that traces the roots of our present crisis of authority to an unlikely source the meritocracy Over the past decade Americans watched in bafflement and rage as one institution after another from Wall Street to Congress the Catholic Church to corporate America even Major League Baseball imploded under the weight of corruption and incompetence In the wake of the Fail Decade Americans have historically low levels of trust in their institutions the social contract between ordinary citizens and elites lies in tatters How did we get here With *Twilight of the Elites* Christopher Hayes offers a radically novel answer Since the 1960s as the meritocracy elevated a more diverse group of men and women into power they learned to embrace the accelerating inequality that had placed them near the very top Their ascension heightened social distance and spawned a new American elite one more prone to failure and corruption than any that came before it Mixing deft political analysis timely social commentary and deep historical understanding *Twilight of the Elites* describes how the society we have come to inhabit utterly forgiving at the top and relentlessly punitive

at the bottom produces leaders who are out of touch with the people they have been trusted to govern Hayes argues that the public's failure to trust the federal government corporate America and the media has led to a crisis of authority that threatens to engulf not just our politics but our day to day lives Upending well worn ideological and partisan categories Hayes entirely reorients our perspective on our times Twilight of the Elites is the defining work of social criticism for the post bailout age
