Natural Law And The Ethics Of Love A New Synthesis:

Natural Law and the Ethics of Love William Atwell Spurrier, 1974-01-01 Justice Henry Fielding's Influence on Law and Literature Claudine L Maria-Julia Boros, Dr, Claudine L. Maria-Julia Boros, 2010-07 This book presents and analyzes Magistrate Justice of the Peace Henry Fielding's impact on law and literature through his pamphlets periodicals and novels in the context of laws legal affairs legal administration and the social economic political and legal environment present in 18th century England I demonstrate and argue that among novels of all time the most extensive and diversified coverage of laws Justices of Peace lawyers crimes and the socio economic environment particularly rural 18th century England Of all the noteworthy 18th century novelists or fiction writers Justice Henry Fielding is the only one who was also a jurist This book is also focused on demonstrating how extensively Fielding was consumed throughout his life and the area of law from his early age to his death but with a far broader spectrum education and experience than anyone except perhaps Lord High Chancellor Hardwicke and Sir William Blackstone Justice Henry Fielding traveled a long and diversified path in the legal arena to reach the level of expertise which he deployed in providing his public with Tom Jones Amelia and Joseph Andrews as well as his journals and political pamphlets **Catalog of Copyright Entries. A Quest for Humanity Menno Boldt, 2011-01-01 In *A Quest for Humanity* Menno Boldt presents a persuasive new framework for achieving a human social order in the global age Boldt explores the concept of the good society as a world in which every person can realize their potential for humanity through liberty social justice and equal human dignity *A Quest for Humanity* innovatively positions globalization as a deterministic phenomenon of expanding interdependence and shared knowledge resulting in ever larger economic and political jurisdictions but also creating social and psychological links between peoples across the world Boldt challenges mainstream certainty that Western democracy and constitutional human rights are the exemplary doctrines for the global good society With a fresh vision designed to inspire a universal acknowledgement of human dignity *A Quest for Humanity* powerfully affirms the value of each human being

To Liberate and Redeem Edward LeRoy Long, 2009-12-01 In *To Liberate and Redeem* scholar Edward LeRoy Long Jr surveys the full biblical narrative setting the context by beginning with the oppression of Israel's enslavement and the Exodus liberation then looking back to the Creation and forward to Christ Paul and the early church This original approach demonstrates how the unfolding drama of the Bible is marked by those who need liberation because they are trapped in oppressive structures and those who once freed must faithfully construct communities of redemption so as not to become oppressors themselves From this basis Long explores how present day moral decisions can be informed by studying the ways in which our biblical forebears wrestled with concerns similar to our own while standing in faithful responsiveness to God

Aquinas, Natural Law, and Social Ontology Ana Marta González, 2025-07-22 This volume explores the connections between Thomas Aquinas doctrine of natural law and contemporary social thought It aims to make explicit the basic notions

of Thomas Aquinas social ontology and to show how key concepts from sociology economics and political science relate to his ethics and social thought Social ontology is a growing area of contemporary social theory Scholars in this area reflect on the ontological status of society and the various realities that make up the social realm However Aquinas scholars rarely use the term social ontology instead resorting to his natural law to examine social life This volume argues that the social thought of Thomas Aquinas including his natural law theory implies a social ontology Aquinas adopts a clear position on the ontological uniqueness of human beings the intentional structure of human action and the existence of informal social relations and institutional realities that shape human society This volume shows how these views can be reconstructed into a coherent social ontology Its chapters are divided into five thematic parts Part 1 offers conceptual elements to bridge the gap between Aquinas and contemporary social theory Part 2 considers the metaphysics and theology implicit in Aquinas social ontology Part 3 focuses on the way this ontology is at work in his account of the common good and his approach to natural law Part 4 expands this reflection to economics Finally Part 5 addresses legal and political issues such as political polarization family law and the ethics of war Aquinas Natural Law and Social Ontology will appeal to scholars and graduate students interested in the thought of Thomas Aquinas social and political philosophy contemporary social theory Catholic theology and the social sciences

Theological Studies ,1975 **Natural Law and Religious Freedom** J. Daryl Charles,2017-07-20 Every successive generation finds fresh reasons for the study of natural law Current interest in the natural law may well be due to a pervasive moral pessimism in the Western cultural context and wider contemporary geopolitical challenges Those geopolitical challenges result from two significant and worrisome global developments unprecedented violent persecution of religious minorities on several continents and a growing climate of secular hostility toward religious faith in Western societies Natural Law and Religious Freedom aims to address what is relatively absent from the literature by demonstrating the importance of natural law ethics in both establishing and preserving basic human rights of which religious freedom has pride of place Probing contemporary challenges to natural law thinking that are both internal and external to religious faith and examining the character and constitution of natural law ethics Natural Law and Religious Freedom will be of interest to theologians ethicists and philosophers as well as policy analysts politicians and activists who are concerned to anchor religious freedom and human rights policy considerations in an enduring way

The Disciple ,1975 From Teilhard to Omega Ilia Delio,2014-01-09 Thirteen scholars including John F Haught Ursula King and John C Haughey SJ take off from where Teilhard de Chardin left off opening new windows to the divine mystery to the evolving person and to the new energies of love needed for the forward movement of life

Biblical Natural Law Matthew Levering,2008-03-20 An introduction to natural law theory and a challenge to re think current biblical scholarship on the topic Levering establishes the relevance of a biblical worldview to the contemporary pursuit of a moral life and locates his argument in the context of the philosophical development of natural law theory from Cicero to Nietzsche

Evolution of Altruism and the Ordering of Love Stephen J. Pope, 1995-04-01 In this book Stephen J Pope argues that contemporary scientifically based theories of the evolution of altruism provide important insights into one of the fundamental moral problems of Christian ethics the natural basis of love and its ordering He explores the contributions evolutionary theory makes to our understanding of the biological foundations of kin preference and reciprocal care the limits of love and the need for an ordering of love issues relevant to any ethic that accords a central role to the deeply natural affections found in friendship marriage and the family He proposes that understanding human nature in its broader evolutionary context brings to ethics a needed balance between the personal and biological dimensions of human nature In the context of Catholic ethics Pope points out functional similarities between Thomas Aquinas's use of then available scientific theories in his interpretation of the natural basis of primary relationships and Pope's own efforts to avoid the deficiencies that characterize contemporary Catholic interpretations of love based on personalism and existentialism He concludes with a call for a multidimensional interpretation of love one that incorporates scientifically based theories about human nature together with an appreciation of the significance of motives intentions and freedom for the ordering of human affections and moral responsibility This book will be of interest to moral theologians especially those concerned with the topics of love justice and natural law ethics

Ethics Harry J. Gensler, 2011 **Fagothey's Right & Reason** Austin Fagothey, Milton A. Gonsalves, 1989 This book is designed for undergraduate courses in ethics *Choice*, 1974 *Trans Life and the Catholic Church Today* Nicolette Burbach, Lisa Sowle Cahill, 2024-08-22 While transgender and non binary identities are increasingly visible too many Christians have either maintained a fearful silence or have attacked transgenderism as a threat to Christian faith and practice More serious theological reflection is needed not least of all in the Roman Catholic tradition Moreover the Catholic context presents particular challenges that are relevant beyond the Catholic world due to the Church's widespread involvement in healthcare provision and education and its traditions of thought around these activities This volume considers the various questions to do with trans people in the life of the Church from an interdisciplinary Catholic ecumenical perspective reaching out to academics clergy and educated lay readers It brings together perspectives from a variety of disciplines to provide a rigorous wide ranging engagement with these pressing issues and includes a number of trans contributors making their voices present in these discussions which are about them but from which they are often excluded The first three chapters illustrate the development of Catholic thinking on transgender issues in recent decades The second section of the book considers transgender identity from multiple perspectives canon legal legal sociological clinical bioethical and educational The last two chapters of the second section shift the focus in the direction of theology and pastoral practice themes that are explored by emerging theological scholars in the third section of the book Evolution and the Foundations

of Ethics John Mizzoni, 2017-02-03 If human biological evolution is part of our worldview then how do commonplace notions of ethics fit in To ask the question what does evolution imply about ethics we must first be clear about what we mean by evolution Evolution and the Foundations of Ethics discusses four models of evolution represented by Darwin Dawkins Gould and Haught We must also be clear about what we mean by ethics Do we mean metaethics If so which variety With metaethical theories such as Error Theory Expressivism Moral Relativism and Moral Realism theorists are attempting to explain the general nature status and origins of ethics In the first four chapters of this book Part I John Mizzoni examines how metaethical theories fit with evolution Next in asking about the implications of evolution for ethics do we mean normative ethics Theorists who work with normative ethical theories such as Virtue Ethics Natural Law Ethics Social Contract Ethics Utilitarian Ethics Deontological Ethics and Ethics of Care articulate and defend a normative ethics that people can and do use in a practical way when deliberating about specific actions rules and policies The next six chapters Part II look at how normative ethical theories fit with evolution A full reckoning of ethics and evolution demands that we consider the range of ethical elements both metaethical and normative Thus this book looks at what several different models of evolution imply about four metaethical theories and six normative ethical theories This book will be of interest to scholars interested in the intersection of evolutionary theory and ethical theory **Self-love, Egoism and the Selfish Hypothesis** Christian Maurer, 2019-03-21 Do people only act out of self interest Or is there a less pessimistic explanation for human behaviour Maurer delves into early Enlightenment debates on self love from both famous and lesser known A01s including Lord Shaftesbury Bernard Mandeville Francis Hutcheson Joseph Butler Archibald Campbell David Hume and Adam Smith
