Glow From Within While Saving Money and Learning to Work With Nature What does beauty mean to you For many it means layering their face in makeup and trying to disguise their natural appearance Got spots Cover them up Eyes not big enough Color them in Meanwhile they ll be using all kinds of chemicals that sound like something from a science fiction movie in a bid to try and burn away their spots to rub off dead skin and to block oily pores Does that sound like a healthy strategy to you No didn t think so And if you currently still suffer with acne with dry skin or with a dull complexion then this probably isn t helping matters The unfortunate irony is that the more you try and fix the problem with expensive modern products the angrier and more damaged your skin will become So what is the actual solution The Answer Is To Go Organic What does this mean Well organic means from the Earth or derived from living matter In other words organic products are those that are derived from wholly natural ingredients and that have gone through minimal changes before reaching your face In other words no weird hormones and no ZXTT73 Alph Q Instead you ll be using shea butter you ll be using coconut oil and you ll be using oregano What s the difference The difference is that instead of burning away layers of skin you ll instead be helping to support your skin to act the way that nature intended Instead of layering grease on top of oil you ll be nourishing and rejuvenating your skin from within Look we evolved in the wild Our bodies are adapted to thrive on natural ingredients These processes are just too complex for us to try and hack and as such attempts to do so normally backfire Are you using an expensive acne cream to treat your spots Chances are it s damaging your skin messing with your hormones or destroying the layer of oil that actually helps to strengthen your skin that s called the skin barrier Anything that kills bacteria will also kill GOOD bacteria That s why so many people find that simply switching to water instead of soap or skin products can often be the one change they need to completely cure their problem Who knew it could be so simple And that s why using organic
