*Democratisation in the 21st Century* Mohammad-Mahmoud Ould Mohamedou, Timothy D. Sisk, 2016-10-04 The 2010 s was a critical period in the continuing established trend of the spread of

democracy worldwide from the Arab Spring countries of Tunisia Libya Egypt and Yemen to the unfolding turmoil of Myanmar and Ukraine by way of the upheavals in Burkina Faso Senegal and Ivory Coast social mobilisation against autocratic corrupt or military regimes has precipitated political transitions that are characteristic of democratisation This book examines the state of democratisation theory and practice that reopens and revives the democratic transition debate exploring the factors that lead to the demise of autocracy the pathways and processes of change and the choice for an eventual consolidation of democracy For all its insights and shortcomings the framework of transitology a body of literature that has comparatively and through case study analysis examined common patterns sequences crises and outcomes of transitional periods has been largely eschewed The essays written by international democratisation specialists tackle the series of questions raised by a body of literature that remains highly useful to understand contemporary political turbulence and transformation considering numerous crucial issues This work will be of key interest to scholars students and practitioners of governance

democratisation comparative politics international relations political science and more broadly history **Land**

**Stewardship in the 21st Century**, 2000 **Power in the 21st Century** Enrico Fels, Jan-Frederik Kremer, Katharina Kronenberg, 2012-04-10 The study of power is the nucleus of political science and international relations As a shift of power from traditional industrial countries to emerging powers has been perceived since the turn of the century this book aims to present innovative theoretical and empirical approaches that can increase our understanding of this transition Scholars from the fields of international relations international political economy economics and security studies not only explore current theoretical debates on power and power shifts among entities but also provide fresh insights into relevant aspects of international power in the 21st century With a particular focus on aspects of international security trade and production new methods of identifying power and its sources are presented and their potential implications and challenges are discussed

*The 21st Century Singularity and Global Futures* Andrey V. Korotayev, David J. LePoire, 2020-01-02 This book introduces a Big History perspective to understand the acceleration of social technological and economic trends towards a near term singularity marking a radical turning point in the evolution of our planet It traces the emergence of accelerating innovation rates through global history and highlights major historical transformations throughout the evolution of life humans and civilization The authors pursue an interdisciplinary approach also drawing on concepts from physics and evolutionary biology to offer potential models of the underlying mechanisms driving this acceleration along with potential clues on how it might progress The contributions gathered here are divided into five parts the first of which studies historical mega trends in relation to a variety of aspects including technology population energy and information The second part is dedicated to a variety of models that can help understand the potential mechanisms and support extrapolation In turn the third part explores various potential future scenarios along with the paths and decisions that are required The fourth part presents philosophical perspectives on the potential deeper meaning and implications of the trend towards singularity while the fifth

and last part discusses the implications of the Search for Extraterrestrial Intelligence SETI Given its scope the book will appeal to scholars from various disciplines interested in historical trends technological change and evolutionary processes

**Extension Review** ,1988      **Extension Service Review** United States. Federal Extension Service,1988      *Sustainable Agricultural Chemistry in the 21st Century* William Nelson,2023-05-31 Agriculture is one of the oldest and most global human enterprises and as the world struggles with sustainable practices and policies agricultural chemistry has a clear role to play This book highlights the ways in which science in agriculture is helping to achieve global sustainability in the twenty first century and demonstrates that this science can and should be a leading contributor in discussions on environmental science and chemistry The four drivers of this subject are presented those being economic environmental regulatory and scientific and help showcase agricultural chemistry as a dynamic subject that is contributing to this necessity of global sustainability in the twenty first century Features Explains the necessary role of agricultural chemistry in the sustainability of the world in the 21st century Recognizes past practices and future potential guided by global demand and the four drivers economic scientific regulatory and environmental Presents a much needed multi dimensional approach to the subject Demonstrates that agricultural chemistries can and should be leading contributors in discussion on environmental science and chemistry Highlights new products processes applications and developments in green chemistry which demonstrates how agriculture is adapting in the new age      **NATURAL resources in the 21st century** ,1997      **Turkey's Foreign Policy and Security Perspectives in the 21st Century** Sertif Demir,2016-04-23 This books aims at analyzing Turkish foreign and security policies in the 21st century Turkey s foreign and security policies have become the focus of academic discussions since Turkey is located in the middle of the most unstable region in the world Turkey s self assured foreign policy has similarly attracted the attention of academicians worldwide Meanwhile Turkey s security policy has also been the subject of discussions as the country has been struggling with ethnic terrorism for 35 years Furthermore the US invasion of Iraq and the recent Syrian civil war along with other factors have caused religious radicalism to expand its power throughout the Middle East which has heavily impacted on Turkey s security Turkey s longstanding problems with its neighbors have also affected the general characteristics of its foreign policy particularly leading to its securitization      *Development and the State in the 21st Century* Erica Frantz,Natasha M. Ezrow,Andrea Kendall-Taylor,2015-10-26 Development and the State in the 21st Century provides a comprehensive analysis of the state s role in contemporary development The book examines the challenges that states face in the developing world from lasting poverty and political instability to disease and natural disasters and explores the ways in which states can build capacity to surmount these challenges It takes seriously the role that state institutions can play in development while also looking at what institutional reform entails and why this reform is critical for policy recommendations to work This analysis is set in the context of the evolution of both development practice and development theory Chapters are organized around the key issues in the field and deploy a wide range of examples from

different countries A range of case studies throughout the text demonstrate the variety of problems development practitioners face and the key theoretical debates surrounding the subject This text will be particularly useful to students of development and politics who wish to understand how governance and state building can improve countries economic performance and end cycles of poverty

**Toward Sustainable Agricultural Systems in the 21st Century** National Research Council, Division on Earth and Life Studies, Board on Agriculture and Natural Resources, Committee on Twenty-First Century Systems Agriculture, 2010-07-25 In the last 20 years there has been a remarkable emergence of innovations and technological advances that are generating promising changes and opportunities for sustainable agriculture yet at the same time the agricultural sector worldwide faces numerous daunting challenges Not only is the agricultural sector expected to produce adequate food fiber and feed and contribute to biofuels to meet the needs of a rising global population it is expected to do so under increasingly scarce natural resources and climate change Growing awareness of the unintended impacts associated with some agricultural production practices has led to heightened societal expectations for improved environmental community labor and animal welfare standards in agriculture

*Toward Sustainable Agricultural Systems in the 21st Century* assesses the scientific evidence for the strengths and weaknesses of different production marketing and policy approaches for improving and reducing the costs and unintended consequences of agricultural production It discusses the principles underlying farming systems and practices that could improve the sustainability It also explores how those lessons learned could be applied to agriculture in different regional and international settings with an emphasis on sub Saharan Africa By focusing on a systems approach to improving the sustainability of U S agriculture this book can have a profound impact on the development and implementation of sustainable farming systems

*Toward Sustainable Agricultural Systems in the 21st Century* serves as a valuable resource for policy makers farmers experts in food production and agribusiness and federal regulatory agencies

*Earth at Risk in the 21st Century: Rethinking Peace, Environment, Gender, and Human, Water, Health, Food, Energy Security, and Migration* Úrsula Oswald Spring, 2020-04-03 *Earth at Risk in the 21st Century* offers critical interdisciplinary reflections on peace security gender relations migration and the environment all of which are threatened by climate change with women and children affected most Deep rooted gender discrimination is also a result of the destructive exploitation of natural resources and the pollution of soils water biota and air In the Anthropocene the management of human society and global resources has become unsustainable and has created multiple conflicts by increasing survival threats primarily for poor people in the Global South Alternative approaches to peace and security focusing from bottom up on an engendered peace with sustainability may help society and the environment to be managed in the highly fragile natural conditions of a hothouse Earth Thus the book explores systemic alternatives based on indigenous wisdom gift economy and the economy of solidarity in which an alternative cosmovision fosters mutual care between humankind and nature Special analysis of risks to the survival of humankind in the 21st century Interdisciplinary studies on

peace security gender and environment related to global environmental and climate change Critical reflections on gender relations peace security migration and the environment Systematic analysis of food water health energy security and its nexus Alternative proposals from the Global South with indigenous wisdom for saving Mother Earth
