ranging from the economic phenomenon of labour division to providing emotional support to others Under these circumstances the capacity to track social connections within and between groups has great adaptive value in managing everyday life We may understand the importance and adaptive value of tracking the scope of culturally shared knowledge if we consider the importance of cultural norms in guiding behaviour To become a competent member of their cultural group one must be able to conform to the group's specific behavioural norms and to accumulate culturally shared knowledge Acquiring this knowledge is essential for successful social interactions In contrast to current dominant explanatory theories emphasizing that social category formation is simply rooted in humans' need to belong and affiliate with a group the aim of this e-book is to provide evidence that in addition to its affiliative role children form social categories for epistemic purposes We show that children use specific cues like kinship patterns of resource allocation and consensus to understand group cohesion Section 1 Once children figured out who is in group and who is out group they show a significant in-group bias in attention acting and learning Section 2 Yet this in-group bias can be attenuated by induced synchronous behavior Section 3

Troubling Children Joel Best, Increasingly sociologists have turned their attention to the social problems of children in particular of younger children This collection reflects those recent interests While most researchers have focused on social problems involving adolescents this volume offers instead original case studies of problems concerning preadolescent children The papers that Best has gathered here represent different theoretical and methodological approaches They report on social issues in Albania Kenya and Japan as well as in the United States The range of social problems they address is a wide one from broad societal crises to decision making within families Topics include the effects of economic and social crises in Africa and Eastern Europe concerns about crack use and other forms of fetal endangerment parental decisions about spanking toy choices and letting children listen to rock music schooling in day care and elementary and junior high schools and children's perceptions of environmental crises Troubling Children adds a new dimension to courses in social problems It also offers a different set of perspectives for those concerned with sociology of preadolescent children and their discontents Ideology and Curriculum Michael W. Apple, 1990 With the current conservative emphasis on cultural literacy this revised paperback edition of a path-breaking statement serves as a reminder that our educational practices and policies are never neutral

Play-based Interventions for Children and Adolescents with Autism Spectrum Disorders Loretta Gallo-Lopez, Lawrence C. Rubin, 2012 Through careful integration of theory with real-world clinical case application each chapter in Play Based Interventions for Children and Adolescents with Autism Spectrum Disorders shows clinicians how to make a diverse array of treatment approaches viable and effective
