**Kenneth R. Himes**

## **Natural Law Modernized:**

Natural Law Modernized David Braybrooke, 2003-01-01 Braybrooke challenges received scholarly opinion by arguing that canonical theorists Hobbes Locke Hume and Rousseau took St Thomas Aquinas as their point of reference reinforcing rather than departing from his natural law theory      **Modern Catholic Social Teaching** Kenneth R. Himes, 2018-01-02 Including contributions from twenty two leading moral theologians this volume is the most thorough assessment of modern Roman Catholic social teaching available In addition to interrogations of the major documents it provides insight into the biblical and philosophical foundations of Catholic social teaching addresses the doctrinal issues that arise in such a context and explores the social thought leading up to the modern era which is generally accepted as beginning in 1891 with the publication of Pope Leo XIII s *Rerum Novarum* The book also includes a review of how Catholic social teaching has been received in the United States and offers an informed look at the shortcomings and questions that future generations must address This second edition includes revised and updated essays as well as two new commentaries one on Pope Benedict XVI s encyclical *Caritas in Veritate* and one on Pope Francis s encyclical *Laudato Si* An outstanding reference work for anyone interested in studying and understanding the key documents that make up the central corpus of modern Catholic social teaching      The Structure of Political Thought Charles N. R. McCoy, 2017-07-05 Originally published in 1963 this classic book is a rethinking of the history of Western political philosophy Charles N R McCoy contrasts classical medieval principles against the hypotheses at the root of modern liberalism and modern conservatism In Part I The Classical Christian Tradition from Plato to Aquinas the author lays the foundation for a philosophical structure capable of producing constitutional liberty Part II The Modern Theory of Politics from Machiavelli to Marx attempts to show beginning with Machiavelli the reversal and destruction of the pre modern structure postulated in Part I McCoy stresses the great contributions of Aristotle to political thought found in his more familiar *Ethics* and *Politics* but also includes key insights drawn from *Metaphysics* and *Physics* These contributions are developed and perfected McCoy argues by Augustine and Aquinas Two other important features include McCoy s epistemological insights into Plato s work that will be new to many readers and the author s juxtaposition of traditional natural law with the modernized theory of natural law The modern account of autonomous natural law in McCoy s view helps explain the totalitarian direction of key aspects of modern political thought This classic volume on the origins of modern philosophical thought remains a standard in the field      Political Civilization And Modernization In China: The Political Context Of China's Transformation Yang Zhong, Shiping Hua, 2006-02-06 This volume is the first comprehensive study of China s political civilization since the term was introduced by then Party Secretary Jiang Zemin in 2002 Selected among about 200 papers delivered at an international conference in Beijing in 2004 this collection of ten essays discusses the relations between political civilization and political reform in China from the different perspectives of institution building political culture political theory intra party democracy political participation judiciary reform legislative reform and media

reform While the contributors are aware of the enormous difficulties China faces in reforming its political system and political culture most are optimistic about the prospect of reform Through theoretical discussions the institutional analysis and other empirical methods in the book contribute to our understanding of Chinese politics in unique ways **China's Modernization I** Georg Peter, Reuß-Markus Krauß, 2015-09-09 The idea of only one way leading to a modern society seems to be hardly tenable But even if we agree to this our theories and terms describing modernization are gained on our own Western history So social science has to reconsider its basic terms to describe China's modernization and maybe even the understanding of modernization itself The first of two volumes on China's modernization collects articles by leading Chinese and Western scientists focusing on the main conflicts and differences this process involves In a first section Changing China Dealing with Diversity Björn Alperman analyses the terms Class Citizenship and Individualization in China's Modernization Andrew Kipnis analyses the Chinese Nation Building as Instead of and Before Globalization while John R Gibbins examines Principles for Cosmopolitan Societies Values for Cosmopolitan Places On Modernization Law Business and Economy in China the second section deals with Modernizing Chinese Law The Protection of Private Property in China by Sanzhu Zhu Chinese Organizations as Groups of People Towards a Chinese Business Administration by Peter J Peverelli and Income Gaps in Economic Development Differences among Regions Occupational Groups and Ethnic Groups by Ma Rong The last section Thinking Differentiations Chinese Origin and the Western Culture concentrates on the role of religion with articles by Richard Madsen Christianity and Hybrid Modernity in China and Thorsten Botz Bornstein Confucianism Puritanism and the Transcendental China and America Jeffrey N Wasserstrom argues that Nathan Sharansky's test for free nations should take regional variations into account in China and the Town Square Test In Metaphor Poetry and Cultural Implicature Ying Zhang examines if the Western understanding of metaphor can be transferred to Chinese language and culture The additional rubric On Contemporary Philosophy involves three articles about the question Can Science Change our Notion of Existence by Jody Azzouni The Epistemological Significance of Practices by Alan Millar and On Cappelen and Hawthorne's Relativism and Monadic Truth by J Adam Carter Content and abstracts [www.protosociology.de](http://www.protosociology.de) Modernity: Modernization Malcolm Waters, 1999 V 1 Modernization V 2 Cultural modernity V 3 Modern system V 4 After modernity **Translation and Modernization in East Asia in the Nineteenth and Early Twentieth Centuries** Wong Lawrence Wangchi, 2018-03-15 This book discusses how Western ideas knowledge concepts and practices were imported adapted and even transformed into varied contexts in East Asia In particular authors in this rich volume focus on the role translation played in the processes of modernization in China Japan and Korea in the 19th and early 20th centuries **The Origins and Nature of Sociality** Robert W. Sussman, 2017-07-05 Scientific developments have increasingly been transforming our understanding of the place of human beings in nature The contributors to this book focus on the current status of research on sociality and the evolution of cooperative and altruistic behaviour in non human and human primates They examine questions related to the evolution

cultural viability and hormonal underpinnings of human sociality in specific detail and describe patterns of sociality that shed light on human social behaviour      Trade Law Modernization Act United States. Congress. House. Committee on Energy and Commerce. Subcommittee on Commerce, Transportation, and Tourism,1986      American Catholic Philosophical Quarterly ,2007      Dictionary Of Modern American Philosophers John R. Shook,2005-05-15 The Dictionary of Modern American Philosophers includes both academic and non academic philosophers and a large number of female and minority thinkers whose work has been neglected It includes those intellectuals involved in the development of psychology pedagogy sociology anthropology education theology political science and several other fields before these disciplines came to be considered distinct from philosophy in the late nineteenth century Each entry contains a short biography of the writer an exposition and analysis of his or her doctrines and ideas a bibliography of writings and suggestions for further reading While all the major post Civil War philosophers are present the most valuable feature of this dictionary is its coverage of a huge range of less well known writers including hundreds of presently obscure thinkers In many cases the Dictionary of Modern American Philosophers offers the first scholarly treatment of the life and work of certain writers This book will be an indispensable reference work for scholars working on almost any aspect of modern American thought      **Law, State, and Society in Modern Iran** H. Enayat,2013-07-17 Using a Historical Institutional approach this book sheds light on a relatively understudied dimension of state building in early twentieth century Iran namely the quest for judicial reform and the rule of law from the 1906 Constitutional Revolution to the end of Reza Shah s rule in 1941      **The Sherman Law: an Anchor -- to Yesterday, a Plea for Its Modernization in the Interest of "self-government in Business", with Particular Reference to Trade Associations** Hugh Farrell,1922      *Mind* ,2002 Issues for 1896 1900 contain papers of the Aristotelian Society      **Marriage and Modernization** Don S. Browning,2003-03-20 The processes of modernization and globalization promise more wealth and health for many people But they are also a threat to the stability and quality of marriage and family life This new book at once sobering and constructive looks at the impact of these processes on marriage and asks what Christianity in cooperation with other religions can do to strengthen married life today Among the deleterious effects of modernization and globalization on marriage are a worldwide drift of men away from the responsibility of parenthood and the tendency of mothers too readily to take on the task of childrearing alone After looking at recent research on these and other problems Don Browning suggests that the cure for modern marital disruption entails reforming and reconstructing the institution of marriage while also nurturing relevant forms of social support Yet the effort to initiate a world marriage revival requires a complex cultural work and Browning explores the key contributions that the religions of the world must make for such an effort to be successful      *A Historical and Legal Comparison between Tianxia Wei Gong and Quod Omnes Tangit* Yifan Shang,2023-11-16 This book explores the historical and legal importance of two principles Quod Omnes Tangit and Tianxia Wei Gong which have played significant roles in European and Chinese political and legal

history While Quod Omnes Tangit has been thoroughly researched Tianxia Wei Gong has not been systematically examined This thesis fills this void and connects these two principles for the first time Quod Omnes Tangit was initially introduced in Justinian s Codex Civil while Tianxia Wei Gong originated from Liji one of the books in a key series of works by Confucius Liji is comparable to the Thora in the Old Testament and is considered as important as law in Chinese legal history Both principles have undergone comparable developmental processes with scholars contributing to their reinterpretation This book thoroughly examines the interpretations of individual scholars with particular attention given to Liang Qichao who is the only one to have mentioned both Tianxia Wei Gong and Quod Omnes Tangit The book also provides an explanation for the original discrepancies in their concepts particularly their methodologies in distributing and legitimizing rights This research will be of interest to legal philosophers and historians in both the Western and Eastern worlds legal practitioners and policymakers and researchers seeking to explain current events and explore fundamental differences between the East and West

Rousseau's Social Contract David Lay Williams,2014-01-13 If the greatness of a philosophical work can be measured by the volume and vehemence of the public response there is little question that Rousseau s Social Contract stands out as a masterpiece Within a week of its publication in 1762 it was banished from France Soon thereafter Rousseau fled to Geneva where he saw the book burned in public At the same time many of his contemporaries such as Kant considered Rousseau to be the Newton of the moral world as he was the first philosopher to draw attention to the basic dignity of human nature The Social Contract has never ceased to be read and debated in the 250 years since its publication Rousseau s Social Contract An Introduction offers a thorough and systematic tour of this notoriously paradoxical and challenging text David Lay Williams offers readers a chapter by chapter reading of the Social Contract squarely confronting these interpretive obstacles The book also features a special extended appendix dedicated to outlining Rousseau s famous conception of the general will which has been the object of controversy since the Social Contract s publication in 1762

Mencius, Hume and the Foundations of Ethics Xiusheng Liu,2017-05-15 What is the most distinctive feature of human nature Does human nature play any significant role in explaining ethical objectivity How do we arrive at moral judgments What is the relationship between moral judgments and moral motivation In answering these questions this book defends a naturalist realist and internalist theory of the foundations of ethics This theory grounded on a particular concept of humanity combines insights from Mencius and David Hume The views of each show how important features left underdeveloped by the other can be supplemented and refined The unified theory that results is a robust contender among current ethical theories This illuminating book relating Chinese and Western philosophical traditions presents a unique account of the unity of the virtues in Mencius breaks new ground in Hume studies through its discussion of the concept of sympathy in Hume s theory and brings combined insights to bear on contemporary analytical theories of ethics

*Political Development in Modern Japan* Robert E. Ward,2015-03-08 Contents I Introduction Robert E Ward II A Monarch for Modern Japan John Whitney Hall III Political Modernization and the

Meiji Genro Roger F Hackett IV Fukuzawa Yukichi The Philosophical Foundations of Meiji Nationalism Albert M Craig V Modernization and Foreign Policy in Meiji Japan Marius B Jansen VI War and Modernization Nobutaka Ike VII Popular Political Participation and Political Development in Japan The Rural Level Kurt Steiner VIII Elections and Political Modernization in Prewar Japan Robert A Scalapino IX The Development of Interest Groups and the Pattern of Political Modernization in Japan Takeshi Ishida X Structural and Functional Differentiation in the Political Modernization of Japan Bernard S Silberman XI Law and Political Modernization in Japan Dan Fenno Henderson XII Decision Making in the Japanese Government A Study of Ringisei Kiyoaki Tsuji XIII Reflections on the Allied Occupation and Planned Political Change in Japan Robert E Ward XIV The Politics of Japan s Modernization The Autonomy of Choice Ardath W Burks XV Epilogue Robert E Ward Index Originally published in 1968 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905     *Analytical Political Philosophy* David Braybrooke, Centennial Chair in the Liberal Arts David Braybrooke, 2006-01-01 In *Analytical Political Philosophy* From Discourse Edification distinguished Canadian philosopher David Braybrooke explores this movement by bringing together some of his earlier free standing studies of the concepts of needs rights and rules
