Platten, 2016-07-19 The Art of Connecting With Nature emerged from Mark's desire to have others experience the living presence of the natural world Within these pages you will discover 22 co-authors who have established a relationship with nature that reclaims what indigenous people worldwide express as kinship centeredness and the ability to make decisions through the eyes of future generations The book is divided into four experiential themes physical mental emotional and spiritual We invite you to open to whatever chapter calls to you

since each stands on its own At the end of each section we've provided tools rituals and practices to help you develop or enhance your own relationship with nature These are activities that have helped us but in the end we each have our own journey that cannot be defined by another's Visit our Facebook page [www.facebook.com/TheArtofConnectingWithNature](http://www.facebook.com/TheArtofConnectingWithNature) to share your experiences ask questions or interact with the artists professors musicians authors ministers and others who've contributed to this collection

**Consecrating Science** Lisa H. Sideris, 2017-08-15 Debunking myths behind what is known collectively as the new cosmology a grand overlapping set of narratives that claim to bring science and spirituality together Lisa H Sideris offers a searing critique of the movement's anthropocentric vision of the world In *Consecrating Science* Sideris argues that instead of cultivating an ethic of respect for nature the new cosmology encourages human arrogance uncritical reverence for science and indifference to nonhuman life Exploring moral sensibilities rooted in experience of the natural world Sideris shows how a sense of wonder can foster environmental attitudes that will protect our planet from ecological collapse for years to come

**Connecting Ecologies** Patrick Riordan, Gavin Flood, 2024-06-03 *Connecting Ecologies* focuses on the environmental aspects of Pope Francis' encyclical *Laudato Si* and the challenge to care for our common home It considers how best to devise and implement the new societal models needed to tackle the ecological problems facing the world today The book addresses the need for and complexity of an integral ecology one that looks not only at physical and biological processes but also allows for the contributions of theology philosophy spirituality and psychology including the implications for the human and social sciences The contributions document four categories of resonances resources requirements and responses evoked by a reading of *Laudato Si* and include consideration of other faith traditions They reflect on how care for our common home motivates people in different places cultures and professions to cooperate for myriad goods in common The volume is particularly relevant for scholars working in religious studies and theology with an interest in ecology the environment and the Anthropocene

*Pilgrimage to the National Parks* Lynn Ross-Bryant, 2013 National Parks America's Best Idea were from the first seen as sacred sites embodying the God given specialness of American people and American land and from the first they were also marked as tourist attractions The inherent tensions between these two realities ensured the parks would be stages where the country's conflicting values would be performed and contested As pilgrimage sites embody the values and beliefs of those who are drawn to them so Americans could travel to these sacred places to honor experience and be restored by the powers that had created the American land and the American enterprise This book explores the importance of the discourse of nature in American culture arguing that the attributes and symbolic power that had first been associated with the new world and then the frontier were embodied in the National Parks Author Ross Bryant focuses on National Parks as pilgrimage sites around which a discourse of nature developed and argues the centrality of religion in understanding the dynamics of both the language and the ritual manifestations related to National Parks Beyond the specific contribution to a richer analysis of the National Parks and their role in understanding nature and religion in the U S this volume contributes to the emerging field of religion and the environment larger issues in the study of religion e.g. cultural events and the spatial element in meaning making and the study of non institutional religion

*Connecting Leadership to the Brain* Michael H. Dickmann, Nancy Stanford-Blair, 2002 Finally a book that translates what we know about brain functioning into practical guidelines for leadership I recommend this book to leaders in a variety of situations Robert J Marzano Educational Consultant and Author of *Designing a New Taxonomy of Educational Objectives* CORWIN PRESS 2000 This is an excellent book Scientifically credible thoughtful thought provoking well written and practical A very accessible useful book for educators who wish to lead Robert Sylwester Emeritus

Professor of Education University of Oregon Author of A Biological Brain in a Cultural Classroom CORWIN PRESS 2000 Carefully researched and documented yet filled with practical immediately usable strategies this book is a must read for anyone seeking to understand and influence human Pat Wolfe Educational Consultant Mind Matters Inc Connecting Leadership to the Brain intends to facilitate the formulation of new leadership perceptions and behaviour In attempting to do so this book does not present prescriptive formulae recipes or list directives Rather it presents a framework for constructing personal understanding of the implications of emerging knowledge about human intelligence for leadership practice Specifically it presents a framework designed to advance leadership that is mindful rather than mindless of the nature and nurture of intelligence In essence it is a framework for aligning leadership behavior to the advancement of collective capacity of individuals in the organization to think learn and achieve purpose This framework is motivated by three assumptions a new day requires new perspective a framework for reflection facilitates perceptual shift there is no universal prescription for leadership

Divine Providence H.M. Hyra, 2020-05-21 When asked if I am a Democrat Republican or an Independent my response is that I am a Roman Catholic I have maintained that the message of the Catholic faith does not always reflect the activities of the messengers In America the scripture saying Seek first the kingdom of God is playing second best to a secular society dependence upon the power of man to solve problems Without the one true God as presented by the Church established by our Lord and Savior Jesus Christ some two thousand years ago things are headed from bad to worse The people of secular persuasion know nothing of Satan and his followers Evil has been diagnosed as good A secular government with the use of reason science and manufactured evidence has done what nonbelievers in the past have done made Man the measure of all things The Catholic Church teaches that humanity has a fallen nature and is capable of using reason in way that produces evil results With the US government as the chief source for determining right from wrong confusion reigns and violence isn't far behind The world is in dire need of help from the God of creation Governments from all over the world seek an advantage based on corruption and fraud America has made treaties and agreements with countries out to destroy our way of life I believe American was founded as a Christian nation where unity and not diversity ought to be our common bond God is impartial so people of diverse beliefs who seek common perspectives which stress the dignity of all life from conception until natural death A woman does not have right that demean life producing inequality between women men and children including children in the womb of its mother In the United States Constitution life liberty and other benefits are being taken to extremes The meaning of life is to be protected not brought to finality by devious means Livery is more than license to do what one pleases Liberty as understood by our forefathers is more than the pursuit of pleasure but ought to see truth and goodness which is reflected in the mandates of the Christian faith Divine Providence will investigate God's will where basic tenants of faith blend with nine components that are instrumental in the understanding needed to begin the faith based journey The Catholic faith's paramount concern is the salvation of all of humanity Let us read this text with optimism

for a proper outcome      Connecting Jesus to Social Justice Thomas Hughson,2013-10-10 Many Christians see the societal dimension of their faith as a matter of biblical and social ethics Returning to classical Christology Connecting Jesus to Social Justice explores messianic potential in the Council of Chalcedon on the divine identity of Christ Who Jesus is makes all the difference to Christian entrance into the public sphere on behalf of a just society The Messiah s divinity bears on social mission directed toward a just social order Theological appropriation of Chalcedon overcomes a gap between the professing the Creed and interpreting social existence in light of a just social order Connecting Jesus to Social Justice argues a doctrinally traditional orthodox basis for Christian participation in the public sphere on behalf of social justice The book addresses a situation internal to churches in the U S from a Catholic perspective yet not without analogies in other churches and Christian movements Applying traditional Christology to contemporary social mission solidifies an answer to adversarial queries on the appropriateness of a social agenda Implications in the classical Christology also confirm churches and discipleship in commitment to social justice promoted through a subaltern counter public and then by word and deed in the public sphere      *Secrets of Connecting Leadership and Learning With Humor* Peter M. Jonas,2004-08-11 Here is a researched based book in which author Peter Jonas explores how humor can enhance both leadership performance and improve the learning environment Jonas attempts to use research and brain based concepts to build a theoretical foundation and then provides practical components for connecting leadership learning and humor Individuals need to understand the theoretical nature of leadership before they can translate the concepts into practice on a daily basis The same is true for humor The main theme of the book is that the proper use of humor will not only increase learning comprehension but it can be used as an important tool for leaders to enhance their effectiveness Throughout the book Jonas has interjected humorous jokes stories puns exercises activities expressions etc in order to show specific examples to provide the reader with material that can be used in leadership situations and the classroom The materials in the book can be learned saved for later or copied for immediate use Moreover each chapter is fun to read and contains practical points and examples of how to integrate humor into daily leadership activities and lesson plans For teachers and leaders or anyone in the field of education
