the rise of ecocritical scholarship in Anglophone literary studies Latin American literary ecocriticism has been slower to take root This volume of eleven essays seeks to advance the ecocritical conversation among Latin Americanists furthering insight into the relationship between humans and their environments The essays address regions as diverse as Patagonia and the Chihuahua Desert

A Minimalist Ontology of the Natural World Michael Esfeld, Dirk-Andre Deckert, 2017-10-25 This book seeks to work out which commitments are minimally sufficient to obtain an ontology of the natural world that matches all of today's well established physical theories We propose an ontology of the natural world that is defined only by two axioms 1 There are distance relations that individuate simple objects namely matter points 2 The matter points are permanent with the distances between them changing Everything else comes in as a means to represent the change in the distance relations in a manner that is both as simple and as informative as possible The book works this minimalist ontology out in philosophical as well as mathematical terms and shows how one can understand classical mechanics quantum field theory and relativistic physics on the basis of this ontology Along the way we seek to achieve four subsidiary aims a to make a case for a holistic individuation of the basic objects ontic structural realism b to work out a new version of Humeanism dubbed Super Humeanism that does without natural properties c to set out an ontology of quantum physics that is an alternative to quantum state realism and that avoids any ontological dualism of particles and fields d to vindicate a relationalist ontology based on point objects also in the domain of relativistic physics

Thermodynamics and the Natural World Essays to My Daughter on Our Relationship With the Natural World Steven Simpson, 2022-10-15 What do fishing with an otter sitting atop a mountain at dawn with eighty Taiwanese backpackers and

driving home from Aldo Leopold's *Shack* have to say about the evolution of a personal environmental philosophy. *Essays to My Daughter on Our Relationship With the Natural World* provides a series of reflections by an environmental educator about lessons learned from time spent in nature. Originally conceived as personal letters to the author's daughter, this collection presents ethical questions outdoor enthusiasts regularly face as they work and play in the natural world. The essays in this book explore environmentalism in a modern day context with topics including sustainability education, the current relevance of environmental writers from the past, and the uncertainty of what is meant by words like naturalist, solitude, and wilderness. There is no attempt to direct readers to any particular environmental philosophy. Instead, Simpson encourages readers to articulate their own perspective based on personal experiences in nature. Though *Essays to My Daughter* is written by a father to his daughter, the insights within the volume and the questions they provoke are valuable to all members of the next generation as they grapple with their own relationship to the natural world.

### **The Natural World and Science**

**Education in the United States** Ajay Sharma, Cory Buxton, 2018-04-04 This book focuses on the representation of nature in science education in schools in the United States. Given the importance of our relationship with the nonhuman world for the fate of our planet, this work gives special attention to the representation, instruction, and understanding of the relationship between the social and the natural world. It also proposes an alternative sustainability science-based conceptual framework for ecology and environmental science topics in science education which is compatible with the current social ecological understanding of life in the Anthropocene epoch.

Human Interaction with the Natural World in Wisdom Literature and Beyond Mordechai Cogan, Katharine J. Dell, David A. Glatt-Gilad, 2023-05-04 Created in honor of the work of Professor Tova Forti, this collection considers the natural world in key wisdom books: Proverbs, Job, and Qoheleth. Ecclesiastes, Ben Sira, and Song of Songs. Solomon, and also examines particular animal and plant imagery in other texts in the Hebrew Bible. It crucially involves ancient Near Eastern parallels and like texts from the classical world but also draws on rabbinic tradition and broader interpretative works as well as different textual traditions such as the LXX and Qumran scrolls. Whilst the natural world, notably plants and animals, is a key uniting element, the human aspect is also crucial. To explore this, contributors also treat the wider concerns within wisdom literature on human beings in relation to their social context and in comparison with neighbouring nations. They emphasize that the human, animal, and plant worlds act together in synthesis, all enhanced and imbued by the world view of wisdom literature.

**Art, Science, and the Natural World in the Ancient Mediterranean, 300 BC to AD 100** Joshua J. Thomas, 2021 A study on the intersection of art, science, and the natural world in Hellenistic and Roman times.

**Everyday Nature: Knowledge of the Natural World in Colonial New York**, 2007 In *Everyday Nature*, Sara Gronim shows how scientific advances were received in the early modern world from the time Europeans settled in America until just before the American Revolution. Settlers approached a wide range of innovations such as smallpox inoculation, maps, and surveys, Copernican cosmology, and Ben Franklin's experiments with electricity with great skepticism.

New Yorkers in particular were distrustful because of the chronic political and religious factionalism in the colony Those discoveries that could be easily reconciled with existing beliefs about healing the sick agricultural practices and the revolution of the planets were more readily embraced *The Natural World and God* Denis Edwards,2017-12-31 How are we to think about the natural world around us in relation to the God of Jesus Astronomers cosmologists and evolutionary biologists have opened wonderfully new ways of seeing the community of life on Earth and its place in the universe At the same time we are facing an extreme crisis of life on our planet Both of these realities demand that we rethink our theology of animals plants ecosystems as well as galaxies and stars In this book Denis Edwards collects together a series of explorations into this kind of theology *Academic Encounters: The Natural World Student's Book* Jennifer Wharton,2009-04-27 A content based reading study skills and writing book that introduces students to topics in Earth science and biology relevant to life today from cover Faulkner and the Natural World Donald M. Kartiganer,Ann J. Abadie,1999 Although he belonged to an American generation of writers deeply influenced by the high modernist revolt against nature and against the self imposed limits of realism to a palpable world William Faulkner reveals throughout his work an abiding sensitivity to the natural world He writes of the big woods of animals and of the human body as a ground of being that art and culture can neither transcend nor completely control The eleven essays that make up this volume including a paper written by the acclaimed novelist William Kennedy explore the place of the unbuilt world in Faulkner s fiction They give particular attention to the social mythic and economic significance of nature to the complexity of racial identity and to the inevitable clash of gender and sexuality These essays were presented in 1996 as papers at the Faulkner and Yoknapatawpha Conference held annually at the University of Mississippi Included are the following Lawrence Buell s Faulkner and the Claims of the Natural World Thomas L McHaney s Oversexing the Natural World Theresa M Towner s Color Race and Identity in Faulkner s Fiction Jay Watson s The Art of the Literal in Light in August Mary Joanne Dondlinger s The Matter of Race and Gender in Faulkner s Light in August Louise Westling s Sutpen s Marriage to the Dark Body of the Land Myra Jehlen s Faulkner and the Unnatural Diane Roberts s Eula Linda and the Death of Nature David H Evans s The Bear and the Incarnation of America Wiley C Prewitt Jr s Hunting and Habitat in Yoknapatawpha and William Kennedy s Learning from Faulkner The Obituary of Fear Donald M Kartiganer Howry Chair of Faulkner Studies in the Department of English and Ann J Abadie Associate Director of the Center for the Study of Southern Culture teach at the University of Mississippi *Virginia Woolf and the Natural World* Kristin Czarnecki,Carrie Rohman,2011-06-01 Edited collection from acclaimed contemporary Woolf scholars exploring Virginia Woolf s complex engagement with the natural world an engagement that was as political as it was aesthetic
