Bibliography of Natural History Travel Narratives Anne S. Troelstra, 2017-06-01 Anne Troelstra's fine bibliography is an outstanding and ground breaking work He has provided the academic world with a long needed bibliographical record of human endeavour in the field of the natural sciences The travel narratives listed here encompass all aspects of the natural world in every part of the globe but are especially concerned with its fauna flora and fossil remains Such eyewitness accounts have always fascinated their readers but they were never written solely for entertainment fragmentary though they often are these narratives of travel and exploration are of immense importance for our scientific understanding of life on earth providing us with a window on an

ever changing and often vanishing natural world Without such records of the past we could not track document or understand the significance of changes that are so important for the study of zoogeography With this book Troelstra gives us a superb overview of natural history travel narratives The well over four thousand detailed entries ranging over four centuries and all major western European languages are drawn from a wide range of sources and include both printed books and periodical contributions While no subject bibliography by a single author can attain absolute completeness Troelstra's work is comprehensive to a truly remarkable degree The entries are arranged alphabetically by author and chronologically by the year of first publication under the author's name A brief biography with the scope and range of their work is given for each author every title is set in context the contents including illustrations are described and all known editions and translations are cited In addition there is a geographical index that cross refers between authors and the regions visited and a full list of the bibliographical and biographical sources used in compiling the bibliography

"The Truth" Sam Pickering, 2023-10-17 This summer Sam Pickering and his wife Vicki attended a professional wrestling match in a small arena in Nova Scotia They sat in folding chairs on the front row They ate Montreal Sausages drowning in ketchup and awash with onions They cheered heroes and laughed at villains In the middle of one match a naughty wrestler leaned over the ropes and staring at Sam said If you keep laughing that hard old timer you'll have a heart attack What Sam said to Vicki Old timer Not me That poor man had better see an eye doctor before he gets hurt

Environmental Activists John F. Mongillo, Bibi Booth, 2001-04-30 This unique approach to the topic provides profiles of these individuals highlighting the different reasons for each one's deep involvement in environmental concerns and the different elements involved in the environmental debate as a whole Profiling over 60 activists this work puts a human face on environmentalism

BOOK JACKET **The Best of Pickering** Sam Pickering, 2009-12-22 Praise for Sam Pickering Pickering has all of Thurber's humor and he writes as well as E B White He writes with passion wit and a strange personal note of self mockery he is humanely educated wise and capable of a wide range of stylistic effects Jay Parini he writes in the tradition of

Montaigne hammering together a ramshackle affair of surprising nooks crannies and additions all under the same roof The Oxford American Pickering has the natural essayist's intimate yet distanced take on the world that combines a devotion to particulars with a near indifference to the status and achievement mongering that marks modern life Publishers Weekly Pickering writes with the sensitivity and craft of a poet finding meaning in the commonplace and ordinary Library Journal Pickering's genre is unique but I'm not sure anyone else can write this stuff I can live with that as long as Pickering himself continues to wend through the forests classrooms airports billiards championships hometown parades and his inner world of Tennessee gags and characters Hartford Courant His writing is as unique and recognizable as the music of Mozart the painting of Picasso or the poetry of Dickinson Yet most Americans likely know Sam Pickering the University of Connecticut English professor from the movie Dead Poets Society In the film Robin Williams plays an idiosyncratic instructor based on Pickering who employs some over the top teaching methods to keep his subjects fresh and his students learning Fewer probably know that Pickering is the author of more than 16 books and nearly 200 articles or that he's inspired thousands of university students to think in new ways And while Williams may have captured Pickering's madcap classroom antics he didn't uncover the other side of the author Sam Pickering as one of our great American men of letters The Best of Pickering amply demonstrates Pickering's amazing powers of perception and gives us insight into the mind of a writer nearly obsessed with turning his back on the conventional trappings of American success a writer who seems to prefer lying squirrel's eye level next to a bed of daffodils in the spring or trespassing on someone else's property to pursue a jaunt through joe pye weed and goldenrod Indeed Pickering's philosophy at least on paper may very well be Now is the only time If you haven't met Sam Pickering before prepare to be surprised and delighted by these wry and sometimes self-deprecating essays that are witty and elegant and concrete yet wander widely and include Pickering's well-trod fictional Southern town of Carthage Tennessee full of strange goings on This definitive collection of the best of Pickering is a must for Pickering fans and a fine introduction for the uninitiated to one of our greatest men of letters *Sanctuary News*, 1974 [Sky Time in Gray's River](#) Robert Michael Pyle, 2021-01-26 An ecologist reflects on the natural wonders of the Pacific Northwest as he describes the lives of plants animals and humans through every season of the year during his thirty years in the village of Gray's River near the mouth of the Columbia River long out of print this classic of nature writing is being given a new life in trade paperback with a new afterword by the author *Sky Time in Gray's River* is an elegant meditation on life in the rural Northwest Although Robert Michael Pyle is a lepidopterist and southwestern Washington is notable for its lack of butterflies something about the Gray's River Valley spoke to him when he visited more than forty years ago Since then he has lived near the village of Gray's River one of the first to be established near the mouth of the Columbia River and only tenuously connected to the world of the twenty-first century Pyle brings Gray's River to life by compressing those forty years into twelve chapters following the lives of the people plants and animals that make this valley their home month by month through the seasons Through his loving

portrait of one riverside village Pyle illustrates how a special place can transform anyone lucky enough to find it He shows that you don't have to travel far to see something new every day if you know how to look The Concord Saunterer, 2003

Barksdale Maynard, 2004-02-12 Perhaps no other natural setting has as much literary spiritual and environmental significance for Americans as Walden Pond Some 700 000 people visit the pond annually and countless others journey to Walden in their mind to contemplate the man who lived there and what the place means to us today Here is the first history of the Massachusetts pond Thoreau made famous 150 years ago W Barksdale Maynard offers a lively and comprehensive account of Walden Pond from the early nineteenth century to the present From Thoreau's first visit at age 4 in 1821 That woodland vision for a long time made the drapery of my dreams to today's efforts both to conserve the pond and allow public access Maynard captures Walden Pond's history and the role it has played in social cultural literary and environmental movements in America Along the way Maynard details the geography of the pond Thoreau's and Emerson's experiences of Walden over their lifetimes the development of the cult of Thoreau and the growth of the pond as a site of literary and spiritual pilgrimages rock star Don Henley's Walden Woods Project and the much publicized battle to protect the pond from developers in the 1980s and the vitally important ecological symbol Walden Pond has become today Exhaustively researched vividly written and illustrated with historical photographs and the most detailed maps of Thoreau country yet created Walden

Pond A History reveals how an ordinary pond has come to be such an extraordinarily inspiring symbol **A Time to Every Purpose** Michael Kammen, 2015-12-01 In artworks from a mosaic by Marc Chagall to schoolchildren's paintings in writings from Susan Fenimore Cooper to Annie Dillard and in diverse print sources from family genealogical registers to seed catalogs the four seasons appear and reappear as a theme in American culture In this richly illustrated book Michael Kammen traces the appeal of the four seasons motif in American popular culture and fine arts from the seventeenth century to the present Its symbolism has evolved through the years Kammen explains serving as a metaphor for the human life cycle or religious faith expressing nostalgia for rural life and sometimes praising seasonal beauty in the diverse American landscape as the most spectacular in the world Kammen also highlights artists and writers shift in attention from the glories of seasonal peaks to the dynamics of seasonal transitions as American life continued to accelerate and change through the twentieth century Few symbols have been as pervasive meaningful and symptomatic in the human experience as the four seasons and as Kammen shows in its American context the annual cycle has been an abundant and abiding source of inspiration in the nation's cultural history Sermons in Stone Susan Allport, 1994-08 In 1871 there were 252 539 miles of stone walls in New England and New York enough to circle the earth ten times The Audubon Wildlife Treasury Les Line, 1976 **Nature Study**, 1975 Drifting Into Darien Janisse Ray, 2011 The book explores both the need and the possibilities for conservation of the river and the surrounding forests and wetlands
