The New York Times Book Review Passionate memorable life affirming The Wall Street Journal From the author of the beloved bestseller The Emerald Mile a rollicking and poignant account of an epic 750 mile odyssey on foot through the heart of America s most magnificent national park and the grandest wilderness on earth Two friends zero preparation one dream A few years after quitting his job to follow an ill advised dream of becoming a guide on the Colorado River Kevin Fedarko was approached by his best friend National Geographic photographer Pete McBride with a vision as bold as it was harebrained Together they would embark on an end to end traverse of the Grand Canyon a journey that McBride promised would be a walk in the park Against his better judgment Fedarko agreed unaware that the small cluster of experts who had completed the crossing billed it as the toughest hike in the world The ensuing ordeal which lasted more than a year revealed a place that was deeper richer and far more complex than anything the two men had imagined and came within a hair s breadth of killing them both They struggled to make their way through a vertical labyrinth of thousand foot cliffs and crumbling ledges where water is measured out by the teaspoon and every step is fraught with peril and where even today there is still no trail along the length of the country s best known and most iconic park Along the way veteran long distance hikers ushered them into secret pockets invisible to the millions of tourists gathered on the rim where only a handful of humans have ever laid eyes Members of the canyon s eleven Native American tribes brought them face to face with layers of history that forced them to reconsider myths at the center of our national parks and exposed them to the threats of commercial tourism Even Fedarko s dying father who had first pointed him toward the canyon more than forty years earlier but had never set foot there himself opened him to a new way of seeing the landscape And always there was the great gorge itself austere and unforgiving but suffused with magic drenched in wonder and redeemed by its own transcendent beauty A singular portrait of a sublime place A Walk in the Park is a deeply moving plea for the preservation of America s greatest natural treasure

Nye,2021-04-27 How conflicting ideas of nature threaten to fracture America s identity Amber waves of grain purple mountain majesties American invest much of their national identity in sites of natural beauty And yet American lands today are torn by conflicts over science religion identity and politics Creationists believe that the Biblical flood carved landscapes less than 10 000 years ago environmentalists protest pipelines Western states argue that the federal government s land policies throttle free enterprise Native Americans demand protection for sacred sites In this book David Nye looks at Americans irreconcilably conflicting ideas about nature A landscape is conflicted when different groups have different uses for the same location for example when some want to open mining sites that others want to preserve or when suburban development impinges on agriculture Some landscapes are so degraded from careless use that they become toxic anti landscapes Nye traces these conflicts to clashing conceptions of nature ranging from pastoral to Native American to military industrial that cannot be averaged into a compromise Nye argues that today s environmental crisis is rooted in these conflicting ideas about land Depending on your politics global warming is either an inconvenient truth or fake news America s contradictory conceptions of nature are at the heart of a broken national consensus
