Nature Cosmic Divine:

Esoteric Wisdom of Lalita Sahasranama: Cosmic Symphony Vinita rashinkar, 2024-11-14 Step into the mystical world of the Lalita Sahasranama where each of the Divine Mother s Omnidoxy Cometan, Astronist Institution, 2019-02-11 The Omnidoxy is the founding treatise of the Astronist religion and was solely authored by the philosopher and religious founder Cometan Partitioned into twelve disquisitions each of which are further divided into hundreds of discourses which are themselves titled by those which are known as rubrals The Omnidoxy has been codified according to a unique writing structure known as insentence The Omnidoxy not only forms the foundations of Astronism but it remains the primary modern contributor and the book that ignited the establishment of the Astronic tradition of religion which encompasses the philosophy of Astronism Introducing brand new philosophical concepts such as cosmocentricity reascensionism transcensionism and sentientism amongst many others The Omnidoxy remains the principal signifier of a new era in philosophy The Omnidoxy births hundreds of new belief orientations schools of thought neologisms disciplines of study theories and concepts which when combined and considered collectively have formed the basis of Astronism The authorship of The Omnidoxy rests with the single individual philosopher Cometan who began writing The Omnidoxy at the age of seventeen driven by what he terms as personal inspiration The historical origination of The Omnidoxy rests in its authorship by Brandon Taylorian during early 21st century England specifically in the northern county of Lancashire Like in all textual criticism the timing and location of the codification of The Omnidoxy is integral to understanding why and how it was written especially by considering the influential factors impacting Taylorian during his construction of the text particularly the cultural political religious and social contexts of Taylorian s personal life and of wider society at the time This forms an important branch of study within omnidoxicology known as omnidoxical criticism or omnidoxical exegesis in which scholars study and investigate The Omnidoxy in order to discern conclusive judgements inspired by how where why by whom for whom and in what circumstances The Omnidoxy was written Teilhard de Chardin David Grumett, 2005 Pierre Teilhard de Chardin 1881 1955 has been regarded for too long as an esoteric thinker who evacuates theology by subjecting it to scientific theory There is an urgent need to reclaim him as a French catholic theologian with intellectual roots in the early twentieth century Teilhard s imaginative and inspiring work is grounded in the constructive use of biblical and patristic motifs and in his own life experiences of war exile and scientific endeavour From these he develops a distinctive philosophical theology which combines elements frequently assigned to the separate domains of philosophy of religion systematic theology and mysticism Teilhard provides a detailed theology of human embodiment and natural substances whilst his theories of human action passion vision and virtue offer suggestive resources to pastoral theology His evolutionary cosmology and social democratic politics are discussed in their historical context and the significance of his work for the ongoing dialogue between science and religion is assessed *The Institutional Dictionary of Astronism* Cometan, 2021-03-21 The Institutional

Dictionary of Astronism is the cumulation of receptions between Cometan and the astronomical world during the Founding era 2013-2021. The publication of this very first full length Institutional Dictionary of Astronism represents eight years of the development of Astronism from its inception to how it stands today in 2021. The publication of this dictionary also encapsulates Astronism exactly as it exists now and how Cometan conceives it by the end of the Founding era. This dictionary and its contents capture what Astronism is now for posterity to look back on how this astronomical belief system will change as time progresses. Many of the words and definitions of this dictionary will alter as we enter the Establishment era and Astronism continues its progression in becoming world religion. However, what will not ever change is Cometan's absolute devotion to the stars of the night sky and his discovery of their secrets through his receptions, personal inspirations, and his overall relationship with The Great Cosmos. Covering all the major Astronist beliefs, practices, cultural elements, theories, branches of study, and historical events, A Dictionary of Astronism, also known as the Institutional Dictionary of Astronism, is published by the Astronist Institution through its subsidiary Astral Publishing to commemorate the end of the era of The Founding of Astronism. The Founding of Astronism began exactly eight years on 1st July 2013, which sparked Cometan's ideations and inspirations and which afforded him the insight, knowledge, and vision to found a new religious movement, philosophy, spirituality, and political ideology. As The Founding of Astronism, also simply known as the Founding era, comes to an end, the Astronist Institution wants to acknowledge the fundamental importance of this year period of the history of Astronism and to the wider history of religion, philosophy, and spirituality as a whole. The Dictionary of Astronism immortalises that commemorative spirit by providing thousands of definition entries of Astronist terms that have been authorised by Astronist Institution scholars for dissemination worldwide. This dictionary captures the most up to date understanding of what Astronism is and how it as a whole and its component parts should be defined. Enjoy this dictionary that emblematises Astronism and how this new religion has so far developed.

Platonopolis Dominic J. O'Meara, 2003-05. Conventional wisdom suggests that the Platonist philosophers of Late Antiquity from Plotinus, third century to the sixth century, schools in Athens and Alexandria neglected the political dimension of their Platonic heritage in their concentration on an otherworldly life. Dominic O'Meara presents a revelatory reappraisal of these thinkers, arguing that their otherworldliness involved rather than excluded political ideas, and he proposes for the first time a reconstruction of their political philosophy, their conception of the function, structure, and contents of political science and its relation to political virtue and to the divinization of soul and state. Among the topics discussed by O'Meara are philosopher kings and queens, political goals and levels of reform, law, constitutions, justice, and penology, the political function of religion, and the limits of political science and action. He also explores various reactions to these political ideas in the works of Christian and Islamic

Anthroposophical Leading Thoughts Rudolf Steiner,2013-04-02 Anthroposophy is a path of knowledge to guide the Spiritual in the human being to the Spiritual in the universe From the first Leading Thought This key volume contains Rudolf Steiner s so called Leading thoughts and Letters written for members of the Anthroposophical Society In brief paragraphs they succinctly present Rudolf Steiner s science of the spirit Anthroposophy as a modern path of knowledge Invaluable as

clear summaries of Rudolf Steiner's fundamental lines of thought they are intended not as doctrine but as a stimulus and focus for study and discussion Their intention as Rudolf Steiner states is to contribute to a unity and organic wholeness of the work of the Society without there being any question of constraint *Cosmic Evolution* John Elov Boodin,1925 *The Letters of Paul* Calvin J. Roetzel,2009-01-01 This 5th edition has been updated to reflect developments in the scholarship since 1998 It is an introduction to St Paul and his writings aimed at students **Myth, Metaphysics and Dialectic in Plato's Statesman** David A. White,2016-04-29 Plato's dialogue *The Statesman* has often been found structurally puzzling by commentators because of its apparent diffuseness and disjointed transitions In this book David White interprets the dialogue in ways which account for this problematic structure and which also connect the primary themes of the dialogue with two subsequent dialogues *The Philebus* and *The Laws* The central interpretive focus of the book is the extended myth sometimes called the myth of the reversed cosmos As a result of this interpretative approach White argues that *The Statesman* can be recognized as both internally coherent and also profound in implication the myth is crucial in both regards and as integrally related to the concerns of Plato's later dialogues REVEALING CHARACTERISTICS OF CONSCIOUSNESS ITSELF -- Sri Sri Babathakur Sri Sri Babathakur ,2025-07-10 This treatise on Consciousness with special reference to Its revealing characteristics is essentially a message of the Divine Master Prajnanpurush Sri Sri Babathakur on life and He Himself mentions that this is life philosophy He makes a short comment along with to specify its characteristics He says that it begins with objective experience passing through subjective and super subjective ones culminating into Witness Consciousness which characteristically reveals All Divine for All Time as It Is As is usual with His messages for the seekers as well as mankind at large He stresses that education is must for all although He contends along side that education that imparts perfection and realization is inherent in man it is the true nature of inmost Being or Self which is infinite eternal and spontaneous of ever revealing homogeneous nature The Master has made critical analysis of the characteristic taking every aspect of human life For example He mentions threefold human desire and its development classification specially with reference to primal qualities and proceeds further to enunciate the Jivahood with conditions and limitations which when overcome pure Self or Perfect Divine I dawns He calls this Swabodh tm Since it is a discourse on philosophy of life He starts with a talk on life itself or rather its classification in terms of its nature stage wise such as outer individual universal central etc and also these stages are related to consciousness and divinity While dwelling on the inner revealing nature He proclaims that Truth is that all functions within and without of life are caused and possessed by Consciousness Itself and He further clarifies that consciousness is life and life is consciousness and hence both the inner and outer worlds are Sportful dramatic sameside game of Self Consciousness which is Brahman or tman He characterizes Consciousness as well and reiterates that everpure Consciousness is the inmost essence of Eternal Oneness Sri Sri Babathakur further clarifies that Consciousness Itself and Its ever revealing part is One in essence but are two in expressions and vice versa Thus the revealing expression is

a mere reflection termed as Jñāna bhāsa or Cid bhāsa The Master has prepared a short flowchart at this stage to relate the names and forms of Consciousness universal Cid bhāsa Jivas etc for convenience of understanding by the commoners With life as an entity to reckon with Sri Sri Babathakur elaborates on its types and nature where in normal way Avidya Shakti Vidy Shakti Paravidya Shakti and their respective Gunas have come in as also Prakriti Swabhāva and Swabodh In the process however the link with Consciousness and Supreme Reality or Param tmatattva is maintained Param tmatattva is verily the Knowledge of Oneness in contrast to the secular knowledge or the knowledge of diversities the worldly people run after as to them the body identity is the Mantra and not the Self identity To switch on to Self identity assimilation of Vidy shakti under the guidance of a perfect Master is necessary Even with the contention that duality or plurality is illusory Sri Sri Babathakur suggests that there are four kinds of manifestations of duality or plurality which unfold innumerable varieties of diversified nature having differences from one another However He contends that without Consciousness Reality none of the appearances does exist nor functions Thus gradual sailing from individual identity to transcendental one through universal and central is possible through evolution fully supported by the preceptor who himself is a realizer of the Supreme Self Being This way an individual can attain the state of I Absolute The Master has elaborated on the nature of I Absolute by mentioning that I Absolute is I Transcendental and beyond whereas I Universal is I immanent which reveals as the Lord of creation I Universal manifests as myriads of I individuals of diverse nature though they have the same origin and hence bears the same seed and carries the same stream of tradition Sri Sri Babthakur wants to stress that common people are familiar with ego I and not Self I or Consciousness I and that actually produces a personality which is just the reflection of consciousness This ego I is therefore conditioned and limited owing to what He says constitutional demerits However He visualizes that all persons have I Reality as their fundamental essence or life pervading truth In the ocean of I Reality I is both existence Satt and power Shakti It also is the eternal witness of all manifestations and expressions Sri Sri Babathakur has analyzed the I Reality in a very rational manner and reveals that there is I Reality as individual universal central and transcendental The world drama as revealed is a job of the individual I Reality being only a sportful game and vanishes as I Reality advances in the order stated Individual I is governed by its Swabhāva and does not know its true nature Swabodh However Sadguru's grace leads it to be identified with Universal I Reality Sri Sri Babathakur has simplified the functionary aspects of life for the commoners by splitting life into two parts the objective part and the subjective part the latter being the ego I and hence is the revealer whereas the former is the revealed appearing as myriads of monads The subjective part is the substratum and the sustainer of the objective part or the natural part which is changeable and perishable The subjective part the ego I is also the Universal I and it in turn requires to be revealed Transcendental I does the job of revelation in this case and it is the substratum for the Universal I as Universal I may be considered as the substratum of individual I However He has suggested that a presentation in a different way is also possible where Vidy Avidya Satt Shakti triple Gunas are all involved and

understanding becomes clear from the nature of the four I s There is a point to raise regarding the individual I and Universal I nature of life While all are essentially transcendental and why should life make such step wise excursion for unfolding a I Reality which is eternal and ever blissful The sportful dramatic game is one suggestion but with a cause which allows life to have experience that makes it worthy and able and these expressions in the forms of individual I and Universal I and others are evolving expressions of Reality He puts the evolutionary process in a very simple manner by confirming first that life cannot be without I or Consciousness In the outer nature it is individual I which appears as experience of diversity and this way the other I s as stated also behave In fact the I Reality with Its ever revealing nature takes life as the medium in and through which It spontaneously reveals Itself with all Its grace As life is spread out on innumerable creations it is like the beads in a garland says the Master and I Reality is the eternal string of that garland to make it exist and expand The Master emphasizes that Consciousness Itself being abiding Reality is ever revealing by nature pervades all and encompasses as well as embraces all without any discrimination The Master has explained the revealing nature characteristics in different ways Since life is the main issue point of contention He clearly says that Saccid nanda I Reality constituted of existence consciousness and bliss reveals Itself as Being and becoming i e life and the rest for which life is considered as a medium instrument of Saccid nanda I reality for the game to play He also says that as the Lord Himself dwells in the core of heart of all the living beings and aspires to gradually reveal Himself unfolding His divine power glory consciousness and joy or delight every one has to participate in this sportful dramatic game Sri Sri Babthakur says further that because the Lord dwells as stated above in the core of the heart of all living beings their approach should have been direct but instead it has become indirect because of their ignorance Indirect approach consists of passing through the experience of the game of individual lives through senses and mind This connotes an evolutionary movement of Saccid nanda power of life which continues till attainment of the balanced perfect nature Sri Sri Babathakur declares that Absolute I Reality is Supreme Saccid nanda by nature Saccid nanda i e Sat Cit nanda primarily signifying Truth Existence Consciousness and Bliss has power to reveal with features that are infinite and divine It unfolds and follows opposite courses of involution and evolution In the former It descends from all knowing I Self nature to absolute ignorance and in the latter journey It covers the reverse route to reach Its identity of I Reality In this evolution process perfection and realization of life dawn as the Self The presentation of the Master is as usual very logical yet unconventional and focusing on the subject matter concerned The text was published in Sri Sanai in twenty four instalments but without any divisions as chapters or sections In this treatise same process has been followed The readers would find the matter very original as far as the spiritual approach of the philosophy of life is concerned and enjoy the divine game which has been clearly explained here in a unique way We are proud to present this treatise there are not many such type at our repertory Bhakti - The Yoga of Love Samrat Schmiem Kumar,2010 Transrational Peaces is a new approach in contemporary Peace Research It considers the rational and the spiritual sphere of human perception to be
