divorce represents the central socio legal event of the turn of the century in matters of legitimacy whereas the Franco Prussian War of 1870 and the First World War furnish chronological bookends for this book Besides through history law and sociology this book treats illegitimacy through the lens of various branches of gender and sexual theory particularly the study of masculinities and a handful of other important critical theories most importantly those of Michel Foucault Eve Sedgwick Todd Reeser Charles Stivale and Gilles Deleuze and Félix Guattari Bachelors and bastards are two principal players in the representation of illegitimacy in Maupassant and Gide but this study considers the theme of illegitimacy as extended beyond simple questions of legitimate versus illegitimate children The male bastard is only one of the Counterfeit characters examined in these authors fictional texts This book is divided into three parts which consider specific thematic elements of their bastard narratives Part One frames the representation in fiction of bachelor figures and how they contribute to or the roles they play in instances of illegitimacy Part Two springs from and develops the metaphor of the counterfeit coin whether represented by a bastard son an affected schoolboy a false priest or a pretentious litt rateur Part Three explains the concept of nomadic masculine practices such practices include nomadic styles of masculinity development as well as the bastard s nomadism
