Cooper, Justin Buckley Dyer, 2022-12-15 Shows how the American founding was deeply influenced by the classical Christian natural law tradition *A History of American Political Theories* Charles Edward Merriam, 2008 A History of American Political Theory is a comprehensive attempt to understand the full sweep of American political thought since the founding Working within the liberal progressive tradition Merriam reviewed American political history in its entirety from the founding down to his own day He was not out to reduce political thought to a single element such as economics alone his aim was to encompass the whole of modern social science The political science of the liberal progressive tradition has roots and assumptions that were born in this period and nurtured by scholars such as Merriam The progressive tradition in general and Merriam in particular interpreted the rise of a new science of politics that would be required for the liberal progressive world view he represented His work stands at a momentous fork in the road two great traditions of how American democracy should be understood interpreted and analyzed parted company and afterward each went their separate ways These traditions are represented respectively by the founders and the liberal progressives There was much at stake in these academic debates though the consequences were not entirely foreseen at the time An overview of the authors works and general source material covered in History of American Political Theories is impressive Merriam viewed the study of American democracy as an eclectic activity embracing the broadest definition of the social sciences with particular emphasis on psychology Such a transformation required that the social sciences be grouped as a whole rather than fragmented into separate and distinct academic departments Charles Merriam 1874 1953 was professor of political science at the University of Chicago He served on the Research Committee on Social Trends under President Hebert Hoover and on the National Resources Planning Board under President Franklin D Roosevelt

He is known as the father of the behavioral movement in political science and believed that theories of political process needed to be linked to practical political activity Sidney A Pearson Jr is professor emeritus of political science at Radford University He is the series editor of Library of Liberal Thought at Transaction Publishers In addition he also wrote new introductions for Presidential Leadership The New Democracy and Party Government all available from Transaction

Kneeland, 2020-04-15 Hurricane Agnes struck the United States in June of 1972 just months before a pivotal election and at the dawn of the deindustrialization period across the Northeast The response by local state and national officials had long term consequences for all Americans President Richard Nixon used the tragedy for political gain by delivering a generous relief package to the key states of New York and Pennsylvania in a bid to win over voters After his landslide reelection in 1972 Nixon cut benefits for disaster victims and then passed legislation to push responsibility for disaster preparation and mitigation on to states and localities The impact led to the rise of emergency management and inspired the development of the Federal Emergency Management Agency FEMA With a particular focus on events in New York and Pennsylvania Timothy W Kneeland narrates how local state and federal authorities responded to the immediate crisis of Hurricane Agnes and managed the long term recovery The impact of Agnes was horrific as the storm left 122 people dead forced tens of thousands into homelessness and caused billions of dollars in damage from Florida to New York In its aftermath local officials and leaders directed disaster relief funds to rebuild their shattered cities and reshaped future disaster policies *Playing Politics with Natural Disaster* explains how the political decisions by local state and federal officials shaped state and national disaster policy and continues to influence emergency preparedness and response to this day **The Oxford Encyclopedia**
