

Nature

By Maya Anthony

Native American Poem

Whispers of the wind, secrets unfold,
Tales of ancient times, stories retold.
Mountains bear witness, rivers concur,
Nature's own historian, memories stir.

Feathers that dance, upon breezy flight,
Carry forth tales, through the moonlit night.
Trees bow in respect, to the wind's soft moan,
Echoes of ancestors, in every tone.

Sacred and ancient, this ethereal sound,
Travels the plains, where spirits are found.
Whispers of ages, to us they bring,
Songs that nature and ancestors sing.

They are united in an effort to push the theoretical limits of ecocriticism towards a more rigorous investigation of nature's critical potential as a concept that challenges modern culture's philosophical assumptions, epistemological convictions, aesthetic principles, and ethical imperatives. This volume offers scholars and students of literature, culture, history, philosophy, and linguistics new insights into the ongoing transformation of ecocriticism into an innovative force in international and interdisciplinary literary and cultural studies. Renegade Poetics Evie Shockley, 2011-10 Beginning with a deceptively simple question, what do we mean when we designate behaviors, values, or forms of expression as black? Evie Shockley's *Renegade Poetics* teases out the more complex and nuanced possibilities the concept has long encompassed. She redefines black aesthetics descriptively, resituating innovative poetry that has been marginalized because it was not recognizably black, and avant-garde poetry dismissed because it was. This comprehensive three-volume set brings together contributions from a diverse international team of accomplished young scholars and established figures in the field. Contributors explore a broad range of topics in historical, cultural, political, geographic, and technological contexts, engaging the work of both well-known and non-canonical writers of every period. Volume One is an inclusive and geographically expansive examination of early American literature, applying a range of cultural and historical approaches and theoretical models to a dramatically expanded canon of texts. Volume Two covers American literature between 1820 and 1914, focusing on the development of print culture and the literary marketplace, the emergence of various literary movements, and the impact of social and historical events on writers and writings of the period. Spanning the 20th and early 21st centuries, Volume Three studies traditional areas of American literature as well as the literature from previously marginalized groups and contemporary writers often overlooked by scholars. This inclusive and comprehensive study of American literature examines the influences of race, ethnicity, gender, class, and disability on American literature. Discusses the role of technology in book production and circulation, the rise of literacy, and changing reading practices and literary forms. Explores a wide range of writings in multiple genres, including novels, short stories, dramas, and a variety of poetic forms, as well as autobiographies, essays, lectures, diaries, journals, letters, sermons, histories, and graphic narratives. Provides a thematic index that groups chapters by contexts and illustrates their links across different traditional chronological boundaries. *A Companion*
