can contribute to quality of life during the early childhood years and beyond Detailing favourable conditions for supporting children s connectedness to nature and spiritual development including positive relationships with adults and peers violence free environments and respect for other living things the book emphasizes the idea of children s whole body engagement challenging the idea that spirituality is relevant to the mind and spirit only This guidebook is essential reading for all early childhood educators program directors families and anyone working with children and young people **Nature Preschools and Forest Kindergartens** David Sobel,2015-12-01 Everything you need to get started and succeed in a nature preschool or forest kindergarten **Nordic Social Pedagogical Approach to Early Years** Charlotte Ringsmose, Grethe Kragh-Müller,2016-10-21 This book studies the major characteristics of the social pedagogical approach to early childhood education and care It does so by investigating the distinctive elements of the Nordic approach and tradition The cultural educational and ideological structures and values within the Nordic tradition indicate a strong social pedagogical rather than early education emphasis The Nordic tradition applies a social learning approach that emphasizes play relationships and outdoor life and presumes that learning takes place through children s participation in social interaction and processes Set against this background the book examines the characteristics of the pedagogue and the important features that develop through the Nordic approach It compares children educated in the Nordic tradition with those educated in the French English and Anglo American tradition It explores quality in relation to how children can enjoy childhood and at the same time become able to actively participate in society and develop the social and cognitive skills and competences that individuals require to do well in society **Exploring Outdoor Play in the Early Years** Trisha Maynard,Jane Waters,2014-06-16 Outdoor play is a significant and essential aspect of a young child s development and enjoys a renewed emphasis in early years practice in keeping with the core principles embedded within the early years tradition However this emphasis may sit uneasily alongside a requirement to focus on the development of literacy and numeracy skills and supporting outdoor play can raise a number of thorny issues such as freedom safety and risk This book challenges the reader to consider Why outdoor play is seen to be of significance within early childhood Whether this view is justified what are the benefits of outdoor play The implications for practitioners who may be facing conflicting pressures in their work with young children In particular the writers skilfully blend theory research and practical guidance to address three important issues What constitutes good outdoor provision for young children and babies How do we respect and respond to the young child in outdoor provision How do we support risky play within the bounds of a statutory curriculum or regulatory regime Incorporating chapters from internationally renowned authors working in this field this book is recommended both for practitioners involved in early years education and care and for students at foundation degree and post graduate levels This is a thought provoking book that draws on research to encourage the reader to reflect on the essence of outdoor play in early childhood Recognising that within our society assumptions are made about outdoors and about childhood this book challenges the reader to reflect on

outdoor provision from a number of perspectives The outdoor environment matters to young children This book not only makes the case for outdoor play it considers what that actually looks like in the UK and internationally and asks us to reflect on the implications for our own working practices Maynard and Waters set out to provoke critical reflection and inspire practitioners they have certainly achieved their aim and this book is a welcome addition to the debate about outdoors in the early years Gail Ryder Richardson Early Years Consultant and Trainer Outdoor Matters Contributors Valerie Huggins Sara Knight Helen Little Trisha Maynard Ellen Beate Hansen Sandseter Alison Stephenson Helen Tovey Sue Waite Jane Waters Jan White Karen Wickett Helen Woolley and Shirley Wyver
