A decorative red circular graphic element, resembling a stylized sun or a lens flare, is positioned to the right of the author's name. It has a soft, glowing red center that fades into a lighter red and then into the white background of the slide.

Nature And Reason In The Decameron:

Nature and Reason in the Decameron Robert Alistair Bartley Gordon Hastings,1975 *Boccaccio's Decameron and the Ciceronian Renaissance* M. Grudin,2012-06-04 Boccaccio's Decameron and the Ciceronian Renaissance demonstrates that Boccaccio's puzzling masterpiece takes on organic consistency when viewed as an early modern adaptation of a pre-Christian humanistic vision

Nature and Love in the Late Middle Ages Aldo D. Scaglione, Nature and Reason in the Decameron R. Hastings,1975

Trust Love Christof Breitsameter,2025-07-21 This study explores the plausibility of a sexual morality that was primarily intended to ensure the production of legitimate offspring in the traditional lifeworld With this goal in mind it is not surprising that adultery contraception homosexual relationships divorce and remarriage were subject to moral disapproval and in some cases even legal proscription In this context Christian theology followed its own path by drastically devaluing sexual lust and increasingly attempting to prohibit divorce and remarriage despite the fact that no models for this approach existed in either the biblical or the pagan world Both of these tendencies can be explained with reference to their socio historical origins which also necessarily include the establishment of the church as an organization In the process of tracing these histories it becomes clear that traditional sexual morality is a product of its time For this reason the book also includes a systematic section devoted to considering why this traditional sexual morality has largely lost its validity in modern society as well as which norms may take its place

Catastrophe and Philosophy David J. Rosner,2018-12-04 This book takes a different approach to the history of philosophy exploring a neglected theme the relationship between catastrophe and philosophy The book analyzes this theme within texts from ancient times to the present from a global perspective The book's focus is timely and relevant today as the planet is certainly facing a number of impending catastrophes right now e.g. environmental degradation overpopulation the threat of nuclear war etc

The Patient Griselda Myth Madeline Rüegg,2019-06-04 From the 14th until the 19th century the last novella of Boccaccio's Decameron also known as the Griselda story has been translated and adapted countless times in many European languages This story's success can be explained by considering it a myth and analysing how this myth engages with contemporary discourses such as the definition of the ideal wife the querelle des femmes the socio political consequences of social exogamy and tyranny
