Nature Course Notes From The Coll Ge De France:

Nature Maurice Merleau-Ponty, 2003 Collected in this text are the written notes of courses on the concept of nature given by Merleau Ponty at the College de France in the 1950s The ideas that animated the philosopher s lectures emerge in an early fluid form in the process of being elaborated negotiated critiqued and reconsidered **Nature** Maurice

Merleau-Ponty, 2003 Collected here are the written traces of courses on the concept of nature given by Maurice Merleau Ponty at the Coll ge de France in the 1950s notes that provide a window on the thinking of one of the most influential philosophers of the twentieth century In two courses distilled by a student and in a third composed of Merleau Ponty s own notes the ideas that animated the philosopher s lectures and that informed his later publications emerge in an early fluid form in the process of being elaborated negotiated critiqued and reconsidered Merleau Ponty s project in these courses is an interrogation of nature a task at the center of his investigation of perception truth and subjectivity The first course a survey of the historical elements in our concept of nature examines first the Cartesian concept of nature and then historical and contemporary responses to Descartes all with an eye toward developing a vision of nature more consistent with the findings of contemporary science In the second course Merleau Ponty takes up the problem of the relation of nature to ontology in general Here the key question is how the animal finds itself in its world Because the human body is ultimately an animal of movements and perceptions humanity is intertwined with animality In the third course Nature and Logos The Human Body Merleau Ponty assesses his previous findings and examines the emergence of the human body at the intersection of nature and Logos This course contemporaneous with the working notes for The Visible and the Invisible allows us to observe the evolution of that work as well as to revisit the research he had begun in Primacy of Perception In these traces a new reading of Descartes a measured appreciation of Schelling an assessment of recent developments in the sciences both physical and biological that leads to the notion of the body as a system of equivalencies and an examination of the phenomenon of life We have a wealth of material that allows us to reconsider Merleau Ponty s thinking and to engage his philosophical project anew Before his death in 1961 Maurice Merleau Ponty was chair in philosophy at the Coll ge de France Robert Vallier is completing his doctoral work on Merleau Ponty and Schelling at DePaul University He has also taught at the Universite de Paris X Nanterre and at the College Internationale de Philosophie **Chiasmi International 17 Aa.**

Nature essentially defined according to a logic of denial of any artificial modified manipulated in short cultural aspect How should we contextualise and understand such an opposition especially in light of the rich semantic scope of the term nature and its variability over time And how can we if we actually can envisage alternative models and approaches capable of better accounting for such richness and variability The author addresses these fundamental issues combining an initial theoretical problematisation of the concept of nature and its evolution from classical philosophy to the crucial changes occurred through the Middle Ages the Renaissance Romanticism and the modern era finally considering recent insights in philosophy sociology cultural anthropology and semiotics with the analysis of its discursivisation from the iconography of Mother Nature between the past and the present to the representation of catastrophic events in fictional and non fictional texts from clean eating and other popular food trends to the ambivalence of the naked body between its supposed natural ascription and its multiple cultural characterisations Thus she introduces a critique of pure Nature providing a systematic study of the way nature is attributed meaning and value in some of today s most relevant discourses and practices and finally tracing a possible path towards an internatural turn

Proust, the One, and the Many Erika Fulop, 2017-12-02 One of the many aspects that make Marcel Proust's *A la recherche du temps perdu* such a complex and subtle work is its engagement with metaphysical questions The disparate nature of the narrators experiences hypotheses and statements has generated a number of conflicting interpretations based on parallels with the thought of one or another philosopher from Plato to Leibniz Spinoza Schopenhauer Nietzsche Bergson or Deleuze Through the analysis of the narrators two seemingly incompatible perceptions of the world which reveal reality to be either one or infinitely multiple Erika Fuelop proposes a reading of the novel that reconciles the opposites Rather than being undecided or self contradictory the narrative thematizes the insufficiency of the dualist perspective and invites the reader to take a step beyond it Erika Fuelop is an independent researcher whose doctoral thesis completed at the University of Aberdeen is at the basis of this monograph

The Political Logic of Experience Neal DeRoo, 2022-06-07 *The Political Logic of Experience* argues that experience and phenomenology are essentially political with profound implications for our understanding of subjectivity epistemology experience the phenomenological method and politics Drawing on work from across the phenomenological tradition it develops an account of expression as the internal relationship uniting knowing being and doing with both transcendental conditions and empirical phenomena This expressive unification generates subjectivity as an expression of particular communities and subjects as an expression of subjectivity Subjectivity and experience are therefore both revealed to be inherently political prior to their expression in particular subjects In clarifying the political nature of experience and the constitution of subjectivity the book puts the work of critical phenomenology in dialogue with transcendental phenomenology to reveal the need for a phenomenological politics a field tasked with explaining the expressive co constitutive and necessarily political relationships between subjects and their communities It is only through such a phenomenological politics that we can properly make sense of the epistemological

ontological and practical significance of issues like racism and sexism problems that concern our very experience of the world The book reveals phenomenology to be both essentially political and politically essential as it emerges within particular communities and shapes and transforms how individuals within those communities experience the world Touching on issues of transcendental phenomenology political strategy historical interpretation and inter disciplinary phenomenological method the book argues for foundational claims pertaining to phenomenology politics and social criticism that will be of interest to those working in philosophy gender studies race queer theory transcendental and applied phenomenology and beyond

Phenomenology or Deconstruction? Christopher Watkin, 2009-03-03 Phenomenology or Deconstruction challenges traditional understandings of the relationship between phenomenology and deconstruction through new readings of the work of Maurice Merleau Ponty Paul Ricur and Jean Luc Nancy A constant dialogue with Jacques Derrida s engagement with phenomenological themes provides the impetus to establishing a new understanding of being and presence that exposes significant blindspots inherent in traditional readings of both phenomenology and deconstruction In reproducing neither a stock phenomenological reaction to deconstruction nor the routine deconstructive reading of phenomenology Christopher Watkin provides a fresh assessment of the possibilities for the future of phenomenology along with a new reading of the deconstructive legacy Through detailed studies of the philosophy of Merleau Ponty Ricur and Nancy he shows how a phenomenological tradition much wider and richer than Husserlian or Heideggerean thought alone can take account of Derrida s critique of ontology and yet still hold a commitment to the ontological This new reading of being and presence fundamentally re draws our understanding of the relation of deconstruction and phenomenology and provides the first sustained discussion of the possibilities and problems for any future deconstructive phenomenology **Phenomenological**

Perspectives on Shame William S. Hamrick, 2024-10-12 This book utilizes Maurice Merleau Ponty s fascinating philosophy of embodiment to cast further light on the incredibly rich and complex phenomenon of shame The philosopher himself made only scattered references to shame but both his early phenomenology and his later phenomenological ontology do provide unique illumination of the phenomenon The book demonstrates how Merleau Ponty s work is relevant to those of certain other thinkers in the analytic tradition **Discipline Filosofiche (2014-2)** Luca Vanzago, 2014-09-01 Contents Luca

Tracing Expression in Merleau-Ponty Véronique M. Fóti, 2013-05-31 The French philosopher Renaud Barbaras remarked

that late in Maurice Merleau-Ponty's career. The phenomenology of perception fulfills itself as a philosophy of expression. In *Tracing Expression in Merleau-Ponty's Aesthetics, Philosophy of Biology, and Ontology*, Vronique M. F. ti addresses the guiding yet neglected theme of expression in Merleau-Ponty's thought. She traces Merleau-Ponty's ideas about how individuals express creative or artistic impulses through his three essays on aesthetics, his engagement with animality and the new biology in the second of his lecture courses on nature of 1957-58, and in his late ontology articulated in 1964 in the fragmentary text of *Le visible et l'invisible: The Visible and the Invisible*. With the exception of a discussion of Merleau-Ponty's 1945 essay *Cezanne's Doubt*, F. ti engages with Merleau-Ponty's late and final thought with close attention to both his scientific and philosophical interlocutors, especially the continental rationalists. Expression shows itself in Merleau-Ponty's thought to be primordial, and this innate and fundamental nature of expression has implications for his understanding of artistic creation, science, and philosophy.

Imagination and Social Perspectives Michela Summa, Thomas Fuchs, Luca Vanzago, 2017-10-03. Our experience of other individuals as minded beings goes hand in hand with the awareness that they have a unique epistemic and emotional perspective on the experienced objects and situations. The same object can be seen from many different points of view; an event can awaken different emotional reactions in different individuals; and our position, takings, can in part be mediated by our belonging to some social or cultural groups. All these phenomena can be described by referring to the metaphor of perspective. Assuming that there are different and irreducible perspectives we can take on the experienced world, and on others as experiencing the same world, the phenomenon of mutual understanding can consistently be understood in terms of perspectival flexibility. This edited volume investigates the different processes in which perspectival flexibility occurs in social life and particularly focuses on the constitutive role of imagination in such processes. It includes original works in philosophy and psychopathology showing how perspectival flexibility and social cognition are grounded on the interplay of direct perception and imagination.

Merleau-Ponty and the Face of the World Glen A. Mazis, 2016-09-21. Assesses Merleau-Ponty's contribution to ethics as calling for a poetic interplay between perception and imagination and between silence and solidarity that reveals our place in the world and our obligations to ourselves and others. Before his death in 1961, Merleau-Ponty worried about what he saw as humanity's increasingly self-enclosed and manipulative way of experiencing self, others, and the world, the consequences of which remain apparent in our destructive inability to connect with others within and across cultures. In *Merleau-Ponty and the Face of the World*, Glen A. Mazis provides an overall consideration of Merleau-Ponty's philosophy that brings out what he sees as a corrective prescription for ethical reorientation that is fundamental to Merleau-Ponty's thought. Mazis begins by analyzing the key role that silence plays for Merleau-Ponty as a positive, powerful presence rather than a lack or emptiness, and then builds on this to explore the ethical significance of the face-to-face encounter in his thought as one of solidarity rather than obligation. In the last part of the book, Mazis traces the development of what he calls physiognomic imagination in Merleau-Ponty's work. This understanding of

imagination is not fancy or make believe but rather brings out the depths of perceptual meaning and leads to an appreciation of poetic language as the key to revitalizing both ethics and ontology Drawing on Merleau Ponty s published works lecture notes unpublished writings and the work of many phenomenologists and Merleau Ponty scholars Mazis also offers incisive readings of Merleau Ponty s work as it relates to that of Antoine de Saint Exup ry Gaston Bachelard and Emmanuel Levinas

The Implications of Immanence Leonard Lawlor,2006 Leonard Lawlor develops a philosophy of life in opposition to the notion of bio power which reduces the human to the question of power over what Giorgio Agamben terms bare life mere biological existence He provides conceptual tools for intervening in issues such as the AIDS epidemic life support for the infirm

Merleau-Ponty and the Paradoxes of Expression Donald A. Landes,2013-10-10 Merleau Ponty and the Paradoxes of Expression offers a comprehensive reading of the philosophical work of Maurice Merleau Ponty a central figure in 20th century continental philosophy By establishing that the paradoxical logic of expression is Merleau Ponty s fundamental philosophical gesture this book ties together his diverse work on perception language aesthetics politics and history in order to establish the ontological position he was developing at the time of his sudden death in 1961 Donald A Landes explores the paradoxical logic of expression as it appears in both Merleau Ponty s explicit reflections on expression and his non explicit uses of this logic in his philosophical reflection on other topics and thus establishes a continuity and a trajectory of his thought that allows for his work to be placed into conversation with contemporary developments in continental philosophy The book offers the reader a key to understanding Merleau Ponty s subtle methodology and highlights the urgency and relevance of his research into the ontological significance of expression for today s work in art and cultural theory

Ecopsychology, Phenomenology, and the Environment Douglas A. Vakoch, Fernando Castrillón, 2014-02-17. This book seeks to confront an apparent contradiction that while we are constantly attending to environmental issues, we seem to be woefully out of touch with nature. The goal of *Ecopsychology, Phenomenology and the Environment* is to foster an enhanced awareness of nature that can lead us to new ways of relating to the environment, ultimately yielding more sustainable patterns of living. This volume is different from other books in the rapidly growing field of ecopsychology in its emphasis on phenomenological approaches, building on the work of phenomenological psychologists such as Maurice Merleau-Ponty. This focus on phenomenological methodologies for articulating our direct experience of nature serves as a critical complement to the usual methodologies of environmental and conservation psychologists who have emphasized quantitative research. Moreover, *Ecopsychology, Phenomenology and the Environment* is distinctive insofar as chapters by phenomenologically sophisticated ecopsychologists are complemented by chapters written by phenomenological researchers of environmental issues with backgrounds in philosophy and geology, providing a breadth and depth of perspective not found in other works written exclusively by psychologists.
