## **Nature Diary:**

Writing a Nature Diary Althea Jones, Benchmark Education Company, LLC, 2013      **Nature's Diary** Francis Henry Allen, 1877      *Nature Diary* Marjolein Bastin, 1991-06-01 A look at nature throughout the year this book contains realistic nature scenes vignettes and still lifes which are accompanied by observations and insights into the natural world      Nature Study Bulletin Lyman D. Wooster, 1917      Keeping a Nature Journal, 3rd Edition Clare Walker Leslie, 2021-05-25 Originally published in 2000 with endorsements from E O Wilson and Jane Goodall Clare Walker Leslie's *Keeping a Nature Journal* was at the forefront of the nature observation and journaling movement Leslie's approach has long been acclaimed for its accessible style of teaching people to see witness and appreciate the wonders of nature and her classic guide is still used by individuals groups and educators ranging from elementary school teachers to college level instructors The third edition features more of Leslie's step by step drawing techniques a new selection of pages from her own journals which she's kept for 40 years and an expanded range of prompts for observing particular aspects of the natural world in any location With an emphasis on learning to see and observe Leslie shows how drawing nature doesn't require special skills artistic ability or even nature knowledge and it is a tool everyone can use to record observations and experience the benefits of a stronger connection to the natural world      *Women and Nature* Glenda Riley, 1999-01-01 Long before Rachel Carson's fight against pesticides placed female environmental activists in the national spotlight women were involved in American environmentalism In *Women and Nature* Saving the Wild West Glenda Riley calls for a reappraisal of the roots of the American conservation movement This thoroughly researched study of women conservationists provides a needed corrective to the male dominated historiography of environmental studies The early conservation movement gained much from women's widespread involvement Florence Merriam Bailey classified the birds of New Mexico and encouraged appreciation of nature and concern for environmental problems Ornithologist Margaret Morse Nice published widely on Oklahoma birds In 1902 Mary Knight Britton established the Wild Flower Preservation Society of America Women also stimulated economic endeavors related to environmental concerns including nature writing and photography health spas and resorts and outdoor clothing and equipment From botanists birders and nature writers to club women and travelers untold numbers of women have contributed to the groundswell of support for environmentalism      **VOICES TO THE CLOUDS The Collective Nature Journal** Cliff J Sidnell, 2017-01-07 **VOICES TO THE CLOUDS** is more than merely a study with a fifteen year compass but a collection of gathered nature notes set in context with the writings of arguably England's greatest naturalists Gilbert White John Clare and Richard Jefferies and others The book is divided into 5 year sections and within each is a monthly narrative with climate tables first butterfly sighting birds and butterflies by month top three daily birds temperature and pressure summary frost and heat sequences and more The final section assembles all the data from the previous three sections and to conclude this collective nature journal there is a fulsome index **VOICES TO THE CLOUDS** may best be

described as another slice of the natural world that has been extrapolated from the toilsome drudgery of amassing observations for experience proves that the longer a single locality is studied the more is found in it Richard Jefferies 1885

**Daybooks of Discovery** Mary Ellen Bellanca, 2007 Rooted in a thriving culture of amateur natural history the keeping of nature journals and diaries flourished in late eighteenth and early nineteenth century Britain As prescientific worldviews ceded to a more materialist outlook informed by an explosion of factual knowledge lovers of nature both famous and obscure began to use daily composition as a quest for information about and a celebration of their surroundings A central site of encounter discovery and expression nature diaries took part in a vigorous cultural dialogue performing in an era called the golden age of nature writing an engaging alchemy of language science and art In *Daybooks of Discovery Nature Diaries in Britain 1770-1870* Mary Ellen Bellanca offers the first critical study of this genre In looking at the diaries of Gilbert White Dorothy Wordsworth Emily Shore George Eliot and Gerard Manley Hopkins as well as those of lesser known figures she explores the writers pursuit of empirical knowledge of nature for its own sake rather than focusing on Romantic nature philosophy or on ecology as a metaphor for spiritual connectedness Each chapter situates an individual author's journals amid contemporary discourses of natural history examining how journal writing enabled and mediated the diarist's practice as naturalist A m range of fact narrative and imaginative re creation the nature diary played a crucial role in literature and science in a period of burgeoning knowledge about the natural world For students and scholars of environmental history the history of science ecocriticism and Victorian studies *Daybooks of Discovery* will prove an essential tool for understanding this distinct genre

**The Open Book of Nature** Charles Albert Hall, 1911 Official Report of the Nature-Study Exhibition and Conferences Nature-Study Exhibition, 1903 The Victorian Diary Anne-Marie Millim, 2016-02-17 In her examination of neglected diaristic texts Anne Marie Millim expands the field of Victorian diary criticism by complicating the conventional notion of diaries as mainly private sources of biographical information She argues that for Elizabeth Rigby Eastlake Henry Crabb Robinson George Eliot George Gissing John Ruskin Edith Simcox and Gerard Manley Hopkins the exposure or publication of their diaries was a real possibility that they either coveted or feared Millim locates the diary at the intersection of the public and private spheres to show that well known writers and public figures of both sexes exploited the diary's self reflexive diurnal structure in order to enhance their creativity and establish themselves as authors Their object was to manage rather than to indulge or repress their emotions for the purposes of perfecting their observational and critical skills Reading these diaries as literary works in their own right Millim analyses their crucial role in the construction of authorship By relating

these Victorian writers diaries to their publications and to contemporary works of cultural criticism Millim shows the multifarious ways in which diaristic practices emotional management and professional output corresponded to experiences of the literary marketplace and to nineteenth century codes of propriety      *Nature at Your Door* Sara A.
