Dirks, Geoffrey H. Eley, Sherry B. Ortner, 2021-04-13 The intellectual radicalism of the 1960s spawned a new set of questions about the role and nature of the political in social life questions that have since revolutionized nearly every field of thought from literary criticism through anthropology to the philosophy of science Michel Foucault in particular made us aware that whatever our functionally defined roles in society we are constantly negotiating questions of authority and the control of the definitions of reality Such insights have led theorists to challenge concepts that have long formed the very underpinnings of their disciplines By exploring some of the most debated of these concepts culture power and history this reader offers an enriching perspective on social theory in the contemporary moment Organized around these three concepts Culture Power History brings together both classic and new essays that address Foucault's new economy of power relations in a number of different contestatory directions Representing innovative work from various disciplines and sites of study from taxidermy to Madonna the book seeks to affirm the creative possibilities available in a time marked by growing uncertainty about established disciplinary forms of knowledge and by the increasing fluidity of the boundaries between them The book is introduced by a major synthetic essay by the editors which calls attention to the most significant issues enlivening theoretical discourse today The editors seek not only to encourage scholars to reflect anew on the course of social theory but also to orient newcomers to this area of inquiry The essays are contributed by Linda Alcoff Cultural Feminism versus Post Structuralism Sally Alexander Women Class and Sexual Differences in the 1830s and 1840s Tony Bennett The Exhibitionary Complex Pierre Bourdieu Structures Habitus Power Nicholas B Dirks Ritual and Resistance Geoff Eley Nations Publics and Political Cultures Michel Foucault Two Lectures Henry Louis Gates Jr Authority White Power and the Black Critic Stephen Greenblatt The Circulation of Social Energy Ranajit Guha The Prose of Counter Insurgency Stuart Hall Cultural Studies Two Paradigms Susan Harding The Born Again Telescandals Donna Haraway Teddy Bear Patriarchy Dick Hebdige After the Masses Susan McClary Living to Tell Madonna's Resurrection of the Fleshly Sherry B Ortner Theory in Anthropology since the Sixties Marshall Sahlins Cosmologies of Capitalism Elizabeth G Traube Secrets of Success in Postmodern Society Raymond Williams selections from Marxism and Literature and Judith Williamson Family Education Photography **The Botany of the Commelins** D.O. Atlas and in the books by Jan and Casper Commelin **Strange and Wonderful** Karen Polinger Foster, 2020-05-04 Ever since the creation of the world's first botanical and zoological gardens five thousand years ago people have collected displayed and depicted plants and animals from lands beyond their everyday experience Some did so to demonstrate power over distant territories others to enhance prestige by possessing something no one had seen before Exotica also satisfied intellectual curiosity furthered scientific research and educated and entertained In addition exotica especially their state sponsored representation were often instruments of political persuasion and in turn exerted considerable influence over expansionist policies More than an account of gardens and menageries from antiquity to the present *Strange and Wonderful* explores the imagery of exotic flora and fauna in Western art seeking answers to certain fundamental and universal questions How do artists schooled in traditional modes of rendering the familiar deal with the new and strange Why are rare species deliberately introduced into images otherwise devoid of the unusual What is the pictorialized relationship between exotic reality and artistic imagination Karen Polinger Foster takes readers on a journey across millennia and around the globe telling fascinating stories and meeting along the way such characters as Hatshepsut's baboons Charlemagne's elephant Durer's rhinoceros and Victoria's hippopotamus What emerges is a sense of just how strong and far reaching the pull of the unknown and exotic has been across time and space Ultimately images of the wonderful reveal as much about the indigenous as they do about the strange enabling us to glimpse more vividly the power of imagination to mold the unknown to its purposes This dazzling and richly illustrated volume offers a thoughtful much needed inquiry into a very human phenomenon
