Natures Work Of Art The Human Body As Image Of The World:

Nature's Work of Art Leonard Barkan, 1975 **Humoring the Body** Gail Kern Paster, 2010-11-15 Though modern readers no longer believe in the four humors of Galenic naturalism blood choler melancholy and phlegm early modern thought found in these bodily fluids key to explaining human emotions and behavior In *Humoring the Body* Gail Kern Paster proposes a new way to read the emotions of the early modern stage so that contemporary readers may recover some of the historical particularity in early modern expressions of emotional self experience Using notions drawn from humoral medical theory to untangle passages from important moral treatises medical texts natural histories and major plays of Shakespeare and his contemporaries Paster identifies a historical phenomenology in the language of affect by reconciling the significance of the four humors as the language of embodied emotion She urges modern readers to resist the influence of post Cartesian abstraction and the disembodiment of human psychology lest they miss the body mind connection that still existed for Shakespeare and his contemporaries and constrained them to think differently about how their emotions were embodied in a premodern world *The Body of Nature and Culture* R. Giblett, 2008-10-14 This book explores the relationship of human bodies with natural and cultural environments arguing that these categories are linked and intertwined It argues for an environmentally sustainable and healthy relationship between the body and the earth **Memories of War in Early Modern England** Susan Harlan, 2016-09-23 This book examines literary depictions of the construction and destruction of the armored male body in combat in relation to early modern English understandings of the past Bringing together the fields of material culture and militarism Susan Harlan argues that the notion of spoiling or the sanctioned theft of the arms and armor of the vanquished in battle provides a way of thinking about England's relationship to its violent cultural inheritance She demonstrates how writers reconstituted the spoils of antiquity and the Middle Ages in an imagined military struggle between male bodies An analysis of scenes of arming and disarming across texts by Christopher Marlowe and William Shakespeare and tributes to Sir Philip Sidney reveals a pervasive militant nostalgia a cultural fascination with moribund models and technologies of war Readers will not only gain a better understanding of humanism but also a new way of thinking about violence and cultural production in Renaissance England **Negotiating the French Pox in Early Modern Germany** Claudia Stein, 2009 Combining medical religious economic municipal and institutional history this book offers a fascinating insight into how early modern society came to terms with disease both in a practical and theoretical sense This revised English translation of Dr Stein's original German book adds new layers of understanding to a fascinating but complex subject

BOOK JACKET *The Feminine Reclaimed* Stevie Davies, 1986-01-10 *The Feminine Reclaimed* breaks new ground in the field of Renaissance scholarship Stevie Davies considers the feminine principle as it was developed through the humanist and Neoplatonic revival of ancient classical learning and from this perspective approaches the major works of the three great literary figures of the English Renaissance Spenser Shakespeare and Milton Through close perceptive readings of their most

crucial works informed by a familiarity with the whole range of their context in the European literature and thought of their time Stevie Davies is able to demonstrate the great importance of the feminine principle in the consciousness of these writers and their age a time of political religious and social upheaval in which perceptions of woman and her status in society underwent momentous changes She analyzes guiding symbols mythical allusions and literary structures in major works by the three poets to show that this rediscovered image of the feminine was incorporated into The Faerie Queene Shakespeare's last plays and Paradise Lost in such a manner as to create an alternative system of values which either redefined or criticized the patriarchal structures of the contemporary world

Christ's Body Sarah Beckwith, 2005-08-04 Through her fascinating series of readings of texts such as The Book of Margery Kempe Beckwith develops a materialist analysis of religious texts showing the vital cultural work they do

The Imprint of Gender Wendy Wall, 1993 What did it mean to be published at the end of the sixteenth century While in polite circles gentlemen exchanged handwritten letters published authors risked association with the low born masses Examining a wide range of published material including sonnets pageants prefaces narrative poems and title pages Wendy Wall considers how the idea of authorship was shaped by the complex social controversies generated by publication during the English Renaissance

Shakespeare's Theatre Hugh Macrae Richmond, 2004-01-01 Under an alphabetical list of relevant terms names and concepts the book reviews current knowledge of the character and operation of theatres in Shakespeare's time with an explanation of their origins

Literature and the Politics of Family in Seventeenth-Century England Su Fang Ng, 2007-01-25 A common literary language linked royal absolutism to radical religion and republicanism in seventeenth century England Authors from both sides of the Civil Wars including Milton Hobbes Margaret Cavendish and the Quakers adapted the analogy between family and state to support radically different visions of political community They used family metaphors to debate the limits of political authority rethink gender roles and imagine community in a period of social and political upheaval While critical attention has focused on how the common analogy linking father and king family and state bolstered royal and paternal claims to authority and obedience its meaning was in fact intensely contested In this wide ranging study Su Fang Ng analyses the language and metaphors used to describe the relationship between politics and the family in both literary and political writings and offers a fresh perspective on how seventeenth century literature reflected as well as influenced political thought

Doctors, Politics and Society: Historical Essays, 2020-01-29 The great British reformer Jeremy Bentham wrote that the art of legislation is but the art of healing practised upon a large scale He added that It is the common endeavour of both to relieve men from the miseries of life But the physician relieves them one by one the legislator by millions at a time Bentham raised the question of the interplay of medicine with politics It forms an important topic with powerful contemporary overtones This volume containing eleven essays plus a lengthy introduction seeks to explore it historically It takes a long perspective covering the last two centuries and also an international viewpoint examining Britain in detail but also containing contributions dealing

with the United States Germany Russia and France **The Face of Mammon** David Landreth, 2012-04-19 Money talked in sixteenth century England as money still does today But what the sixteenth century's gold and silver had to say for itself is strikingly different from the modern discourse of money As David Landreth demonstrates in *The Face of Mammon* the material and historical differences between the coins of the English Renaissance and today's paper and electronic money propel a distinctive and complex assessment of the relation between material substance and human value Although the sixteenth century was marked by the traumatic emergence of conditions that would prove to be characteristic of the modern economy the discipline of economics had not been invented to assess those conditions *The Face of Mammon* considers how literary texts investigated these unexplained material transformations through attention to the materiality of gold and silver money In new readings of Spenser's *Faerie Queene* Marlowe's *Jew of Malta* three plays by Shakespeare *King John* *The Merchant of Venice* and *Measure for Measure* the poetry of John Donne and the prose of Thomas Nashe Landreth argues that these texts situate the act of exchange at the center of a system of common wealth that sought to integrate political ethical and religious values with material ones and probe the ways in which market value corrodes that system even as it depends upon it Joining the methods of material culture studies to those of economic criticism *The Face of Mammon* offers a new account of the historical transformations of the concept of value to scholars of early modern literature culture and art as well as to those interested in economic history *The Revival of Antique Philosophy in the Renaissance* John L.

Lepage, 2012-12-05 This book examines the revival of antique philosophy in the Renaissance as a literary preoccupation informed by wit Humanists were more inspired by the fictionalized characters of certain wise fools including Diogenes the Cynic Socrates Aesop Democritus and Heraclitus than by codified systems of thought Rich in detail this study offers a systematic treatment of wide ranging Renaissance imagery and metaphors and presents a detailed iconography of certain classical philosophers Ultimately the problems of Renaissance humanism are revealed to reflect the concerns of humanists in the twenty first century **Social Thought in England, 1480-1730** A.L. Beier, 2016-02-05 Authorities ranging from

philosophers to politicians nowadays question the existence of concepts of society whether in the present or the past This book argues that social concepts most definitely existed in late medieval and early modern England laying the foundations for modern models of society The book analyzes social paradigms and how they changed in the period A pervasive medieval model was the body social which imagined a society of three estates the clergy the nobility and the commonalty conjoined by interdependent functions arranged in static hierarchies based upon birth and rejecting wealth and championing poverty Another model the book describes as social humanist that fundamentally questioned the body social advancing merit over birth mobility over stasis and wealth over poverty The theory of the body social was vigorously articulated between the 1480s and the 1550s Parts of the old metaphor actually survived beyond 1550 but alternative models of social humanist thought challenged the body concept in the period advancing a novel paradigm of merit mobility and wealth The book's methodology

focuses on the intellectual context of a variety of contemporary texts *Mothers and Other Clowns (Routledge Revivals)* Magdalene Redekop,2014-03-14 First published in 1992 this is the first study of the work of Alice Munro to focus on her obsession with mothering and to relate it to the hallucinatory quality of her magic realism A bizarre collection of clowning mothers parade across the pages of Munro s fiction playing practical jokes performing stunts and dressing in disguises that recycle vintage literary images Magdalene Redekop studies this with the aim of gaining increased understanding of Munro s evolving comic vision *Gout* Roy Porter,George Sebastian Rousseau,2000-01-01 Gout has been seen as a disease afflicting upper class males of superior wit genius and creativity It is also believed to protect its sufferers and assure long life This study investigates the history of gout and offers a perspective on medical and social history sex prejudice and class **The Languages of Psyche** G. S. Rousseau,2023-04-28 The Languages of Psyche traces the dualism of mind and body during the long eighteenth century from the Restoration in England to the aftermath of the French Revolution Ten outstanding scholars investigate the complex mind body relationship in a variety of Enlightenment contexts science medicine philosophy literature and everyday society No other recent book provides such an in depth suggestive resource for philosophers literary critics intellectual and social historians and all who are interested in Enlightenment studies This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1996 The Languages of Psyche traces the dualism of mind and body during the long eighteenth century from the Restoration in England to the aftermath of the French Revolution Ten outstanding scholars investigate the complex mind body relationship in Interpretation And Cultural History Joan H Pittock,Andrew Wear,1991-05-13 **The Anthropomorphic Lens** Walter Melion,Bret Rothstein,Michel Weemans,2014-11-06 Anthropomorphism the projection of the human form onto the every aspect of the world closely relates to early modern notions of analogy and microcosm What had been construed in Antiquity as a ready metaphor for the order of creation was reworked into a complex system relating the human body to the body of the world Numerous books and images cosmological diagrams illustrated treatises of botany and zoology maps alphabets collections of ornaments architectural essays are entirely constructed on the anthropomorphic analogy Exploring the complexities inherent in such work the interdisciplinary essays in this volume address how the anthropomorphic model is fraught with contradictions and tensions between magical and rational speculative and practical thought Contributors include Pamela Brekka Anne Laure van Bruaene Ralph Dekoninck Agn s Guiderdoni Christopher P Heuer Sarah Kyle Walter S Melion Christina Normore Elizabeth Petcu Bertrand Prevost Bret Rothstein Paul Smith Miya Tokumitsu Michel Weemans and Elke Werner **The Variorum Edition of the Poetry of John Donne, Volume 6** John Donne,1995 Based on an exhaustive study of the manuscript and print history of Donne s poetry this edition presents newly edited critical texts of the
