large numbers of people soon after their inception Vaudeville theaters remained the primary setting for the exhibition of motion pictures for the next ten years Theater patrons of the late nineteenth century were accustomed to many types of visual novelty acts on the vaudeville stage These acts included magic lantern presentations living pictures pantomime shadowgraphy puppetry and melodrama Allen 1980 311 The motion picture was simply the latest visual novelty to be shown on the stage Possibly the earliest exhibition of a motion picture projector may have been that of the Lumiere Cinematographe in France March 1895 In the United States the first exhibition of a motion picture projector in a theater may have been the Latham Eidelscope in 1895 This machine was supposedly featured on Broadway in May 1895 and later moved to Hammerstein s Olympia vaudeville theater The Latham Eidelscope subsequently appeared at Chicago s Olympia Theatre The Eidelscope had technical limitations that made the projected image indistinct and therefore did not attract large audiences
