Navajo Silversmithing:

A Brief History of Navajo Silversmithing Arthur Woodward, 1946 **Navajo Silversmiths** Washington Matthews, Among the Navajo Indians there are many smiths who sometimes forge iron and brass but who work chiefly in silver When and how the art of working metals was introduced among them I have not been able to determine but there are many reasons for supposing that they have long possessed it many believe that they are not indebted to the Europeans for it Doubtless the tools obtained from American and Mexican traders have influenced their art Old white residents of the Navajo country tell me that the art has improved greatly within their recollection that the ornaments made fifteen years ago do not compare favorably with those made at the present time and they attribute this change largely to the recent introduction of fine files and emery paper At the time of the Conquest the so called civilized tribes of Mexico had attained considerable skill in the working of metal and it has been inferred that in the same period the sedentary tribes of New Mexico also wrought at the forge From either of these sources the first smiths among the Navajos may have learned their trade but those who have seen the beautiful gold ornaments made by the rude Indians of British Columbia and Alaska many of whom are allied in language to the Navajos may doubt that the latter derived their art from a people higher in culture than themselves **Navajo Silver**, 1973 Navajo Silversmiths Washington Matthews, 2019-11-25 In *Navajo Silversmiths* Washington Matthews meticulously chronicles the artistry and cultural significance of Navajo silverwork detailing the intricate techniques and tools employed in crafting these remarkable pieces Through a blend of descriptive narrative and analytical discourse Matthews situates the silversmiths within the broader tapestry of Southwestern culture highlighting how their work reflects both tradition and innovation The text serves not only as an artistic commentary but as an anthropological study capturing the spiritual and communal dimensions inherent in the art of silversmithing Matthews adopts a clear accessible literary style while maintaining an authoritative voice yielding a book that resonates with both lay readers and scholars alike Washington Matthews primarily known for his contributions to ethnology and anthropology brought a deeply empathetic perspective to the study of Navajo culture His extensive fieldwork among the Navajo people and their crafts provides him with an authenticity that enriches his analysis Matthews was not just an observer his dedication to understanding and preserving Native American traditions allowed him to illuminate the nuances of Navajo craftsmanship in a way that few contemporaries achieved This work is highly recommended for those intrigued by Native American culture art history or anthropology *Navajo Silversmiths* not only offers insights into the technical expertise of silversmithing but also reveals the profound cultural narratives woven into each piece Readers will gain a greater appreciation for the artistry of the Navajo people and the enduring significance of their traditions A Brief History of Navajo Silversmithing Arthur Woodward, 200? The Navajo And Pueblo Silversmiths John Adair, 2015-11-06 Probably no native American handicrafts are more widely admired than Navajo weaving and Navajo and Pueblo silver work This book contains the first full and authoritative account of the Indian

silver jewelry fashioned in the Southwest by the Navajo and the Zuni Hopi and other Pueblo peoples It is written by John Adair a trained ethnologist who has become a recognized expert on this craft A volume conspicuously pleasing in its format and so strikingly handsome in its profuse illustrations as to rivet your attention once it chances to fall open With the care of a meticulous and thorough scholar the author has told the story of his several years investigation of jewelry making among the Southwestern Indians So richly decorative are the plates he uses for his numerous illustrations showing the jewelry itself the Indians working at it and the Indians wearing it that the conscientious narrative is surrounded by an atmosphere of genuinely exciting visual experience The Dallas Times Herald The Navajo and Pueblo Silversmiths provides a full history of the craft and the actual names and localities of the pioneer craftsmen who introduced the art of the silversmith to their people Despite its present high stage of development with its many subtle and often exquisite designs the art of working silver is not an ancient one among the Navajo and Pueblo Indians There are men still living today who remember the very first silversmiths

Indian-made Erika Marie Bsumek,2008 In works of silver and wool the Navajos have established a unique brand of American craft And when their artisans were integrated into the American economy during the late nineteenth century they became part of a complex cultural and economic framework in which their handmade crafts conveyed meanings beyond simple adornment Bsumek unravels the layers of meaning that surround the branding of Indian made When Navajo artisans produced their goods collaborating traders tourist industry personnel and even ethnologists created a vision of Navajo culture that had little to do with Navajos themselves And as Anglos consumed Navajo crafts they also consumed the romantic notion of Navajos as primitives perpetuated by the marketplace These processes of production and consumption reinforced each other creating a symbiotic relationship and influencing both mutual Anglo Navajo perceptions and the ways in which Navajos participated in the modern marketplace Ultimately Bsumek shows that the sale of Indian made goods cannot be explained solely through supply and demand It must also reckon with the multiple images and narratives that grew up around the goods themselves integrating consumer culture tourism and history to open new perspectives on our understanding of American Indian material culture
