*Navigating Boundaries* Anna Shnukal, Guy Ramsay, Yuriko Nagata, 2004 These essays draw upon an extensive widely dispersed body of information to narrate stories of the Asian diaspora communities of Torres Strait north Queensland *The Rhetoric of First Lady Hillary Rodham Clinton* Colleen Kelley, 2001-01-30 Kelley provides an examination of Hillary Rodham Clinton's rhetorical responses to mediated versions of crises in the Clinton Administration She begins by examining the historical First Lady and then looks at mediated political realities in general as well as those of the Clinton presidency Kelley also examines the rhetorical management of political crises and the crises management style of First Ladies including Florence Harding and Eleanor Roosevelt The book focuses on the analysis of Hillary Rodham Clinton's rhetorical management of crises in her husband's Administration including health care Travelgate Whitewater and allegations of sexual misconduct Kelley's approach is grounded in Kenneth Burke's framework of language as a symbolic means of inducing cooperation through rhetorical identification She concludes with speculation regarding both the degree of success of Hillary Clinton's efforts as well as the implications of those efforts to rhetorical and political communication and feminist theory This book will be of particular interest to scholars and researchers of the presidency and the role of the First Lady political communication and feminist studies *Stranger in a Strange State* Christopher J. Galdieri, 2019-05-01 Candidates normally run for office in the places where they live Occasionally however a politician will run as a carpetbagger someone who moves to a new state for the express purpose of running or who runs in one state after holding office in another *Stranger in a Strange State* examines what makes some politicians take this drastic step and how that shapes their campaigns and chances for victory Focusing on races for the US Senate from 1964 forward Christopher J Galdieri analyzes the campaigns of nine carpetbaggers including nationally known figures such as Robert F Kennedy and Hillary Rodham Clinton and less well known candidates like Elizabeth Cheney and Scott Brown These case studies draw on archival research contemporaneous accounts of each campaign and scholarship on campaigns and representation While the record reveals that it generally takes national political stature for a carpetbagger to win an election some recent campaigns suggest that in today's polarized political era both politicians and state political parties might want to be more open to the prospect of carpetbagging *Women, Power, and Politics* Lori Cox Han, Caroline Heldman, 2023-05-29 As women continue to gain more prominence as active participants in the American political and electoral process as voters candidates and officeholders it becomes even more important to understand how gender shapes political power and the distribution of resources within our society There are many areas of research in a variety of disciplines focusing on women gender and feminism and many of them intersect with a discussion of women in American politics Our goal in writing this book is to present these topics in an interesting lively and timely way through an analysis of contemporary political gender related issues We hope to have provided just enough of an historical context to get students interested in the evolution of women in American political life and enough theory and analysis to

inspire them to seek more information and knowledge about gender justice today The study of women and U S politics as well as the role gender plays in the broader political context has emerged as a powerful voice within the discipline of Political Science in the last few decades As such we hope that readers find this text a useful addition to the ongoing dialogue while instructors find it to be a useful pedagogical tool for their courses on women gender and politics

**Governing Codes** Karrin Vasby Anderson, Kristina Horn Sheeler, 2005-08-23 Familiar narratives and simplistic stereotypes frame the representation of women in U S politics Pervasive containment rhetorics such as the distinction between women as mothers and caregivers and men as rational thinkers create unique hurdles for any woman seeking public office While these governing codes generally act to constrain female political power they can also be harnessed as a resource depending on the particular circumstances e g party affiliation geographic location and personal style One of these governing codes the metaphor is an especially powerful tool in politics today particularly for women By examining the political careers of four of the most prominent and influential women in contemporary U S politics \_ Democrats Ann Richards and Hillary Rodham Clinton and Republicans Christine Todd Whitman and Elizabeth Dole \_ Karrin Vasby Anderson and Kristina Horn Sheeler illustrate how metaphors in public discourse may be both familiar narratives to embrace and boundaries to overturn

Governors Speak Jack D. Fleer, 2007 Governors in the United States are becoming prime policy makers in state and national politics They preside over vast and increasingly important administrative structures through numerous appointments of key personnel and the management of growing budgets Governors provide leadership for state legislatures by advocating their policy agendas and by mobilizing public opinion and political resources Through these roles governors have far reaching influence in citizen's daily lives This work examines these major political leaders by closely examining the careers of five recent governors 1960D2001 Terry Sanford 1961D1965 Robert Bob W Scott 1969D1973 James E Jim Holshouser Jr 1973D1977 James G Jim Martin 1985D1993 James B Jim Hunt Jr 1977D1985 1993D2001 and compares their performances in office with governors in other states No other book has looked as closely at the persons who serve as governors during this time period

*Governor Lady* Teva J. Scheer, 2005-12-14 Governor Lady is the fascinating story of one of the most famous political women of her generation Nellie Tayloe Ross was elected governor of Wyoming in 1924 just four years after American women won the vote and she went on to be nominated for U S vice president in 1928 named vice chairman of the Democratic National Committee the same year and appointed the first female director of the Mint in 1932 Ross launched her career when her husband William Bradford Ross the preceding governor died leaving her widowed with four sons and no means of supporting them She was an ironic choice to be such a pioneer in women's rights since she claimed her entire life that she had no interest in feminism Nevertheless she believed in equal opportunity and advancement in merit irrespective of gender core feminist values The dichotomy between Ross's career and life choices and her stated priorities of wife and mother is a critical contradiction making her an intriguing woman Exhaustively researched and powerfully written Governor Lady chronicles the challenges and barriers that a woman with no job experience higher education or training faced on the way to becoming a confident and effective public administrator In addition to the discrimination and resentment she faced from some of her male associates she also aroused the enmity of Eleanor Roosevelt whom she displaced at the DNC Born exactly one hundred years after the signing of the Declaration of Independence Ross lived to celebrate the nation's bicentennial so her long and remarkable life precisely spanned the second U S century She was reared in the Victorian era when upper and middle class women were expected to

be domestic decorative and submissive but she died as the women s movement was creating a multitude of opportunities for young women of the 1970s Nellie s story will be of great interest to anyone curious about women s history and biography The contemporary American career woman will especially identify with Ross s struggle to balance her career family and active personal life

*Gender Differences in Congressional Speeches* Dragana Lenard, 2023-11-25 This book studies gender differences in language used in the 113th United States Congress January 2013 January 2015 The corpus was composed of all uninterrupted speeches of 100 words or more which amounted to 672 speeches by the female and 2 983 by the male politicians The speeches were analysed to determine language categories used by the politicians including word count grammatical categories different topics and

punctuation categories to study the differences in language use by the male and the female politicians. They were also used in examining some intragroup differences and correlations between variables. Several major gender differences emerged. The female politicians were shown to be more formal, critical, and task focused, while the male politicians were more socially oriented and elaborative, occupying the floor more than the female politicians. While the female politicians worked on establishing themselves as independent politicians, the male politicians embraced their collective identities. Also, the female politicians focused on raising the awareness of different health issues and providing support for patients and their families, while the male politicians focused on the consequences and possible solutions to the problems. The analysis includes implications for political discourse and gender disparities within that discourse and will be of interest to researchers in both politics and political science and in gender and diversity.
