Ralph Frederic Bischoff, 1990-01-01 Nazi Conquest Through German Culture (Harvard Political Studies, Pub. Under the
Direction of the Dept. of Govt. in Harvard University). Ralph F. Bischoff, **Propaganda and the German Cinema,**
1933-1945 David Welch, 2001-03-23 This is the most comprehensive analysis to date of Nazi film propaganda in its political
social and economic contexts from the pre war cinema as it fell under the control of the Propaganda Minister Joseph
Goebbels through to the end of the Second World War David Welch studies more than one hundred films of all types
identifying those aspects of Nazi ideology that were concealed in the framework of popular entertainment *The*

Genocide Convention Kurt Mundorff, 2020-08-25 This book critiques the dominant physical and biological interpretation of
the Genocide Convention and argues that the idea of culture is central to properly understanding the crime of genocide
Using Raphael Lemkin s personal papers archival materials from the State Department and the UN as well as the mid
century secondary literature it situates the convention in the longstanding debate between Enlightenment notions of
universality and individualism and Romantic notions of particularism and holism The author conducts a thorough review of
the treaty and its preparatory work to show that the drafters brought strong culturalist ideas to the debate and that Lemkin s
ideas were held widely in the immediate postwar period Reconstructing the mid century conversation on genocide and
situating it in the much broader mid century discourse on justice and society he demonstrates that culture is not a distraction
to be read out of the Genocide Convention it is the very reason it exists This volume poses a forceful challenge to the
materialist interpretation and calls into question decades of international case law It will be of interest to scholars of
genocide human rights international law the history of international law and human rights and treaty interpretation **The**
Politics of Cultural Despair Fritz R. Stern, 2023-09-01 This is a study in the pathology of cultural criticism By analyzing the
thought and influence of three leading critics of modern Germany this study will demonstrate the dangers and dilemmas of a
particular type of cultural despair Lagarde Langbehn and Moeller van den Bruck their active lives spanning the years from
the middle of the past century to the threshold of Hitler s Third Reich attacked often incisively and justly the deficiencies of
German culture and the German spirit But they were more than the critics of Germany s cultural crisis they were its
symptoms and victims as well Unable to endure the ills which they diagnosed and which they had experienced in their own
lives they sought to become prophets who would point the way to a national rebirth Hence they propounded all manner of
reforms ruthless and idealistic nationalistic and utopian It was this leap from despair to utopia across all existing reality that
gave their thought its fantastic quality This is a study in the pathology of cultural criticism By analyzing the thought and
influence of three leading critics of modern Germany this study will demonstrate the dangers and dilemmas of a particular

type of cultural despair Lagarde Langbehn an The Politics of Cultural Despair Fritz Richard Stern,1961 **The Third Reich** David Welch,2008-01-28 Published in the year 1994 The Third Reich is a valuable contribution to the field of History Jews, Nazis and the Cinema of Hungary David Frey,2017-02-28 Between 1929 and 1942 Hungary s motion picture industry experienced meteoric growth It leapt into Europe s top echelon trailing only Nazi Germany and Italy in feature output Yet by 1944 Hungary s cinema was in shambles internal and external forces having destroyed its unification experiments and productive capacity This original cultural and political history examines the birth unexpected ascendance and wartime collapse of Hungary s early sound cinema by placing it within a complex international nexus Detailing the interplay of Hungarian cultural and political elites Jewish film professionals and financiers Nazi officials and global film moguls David Frey demonstrates how the transnational process of forging an industry designed to define a national culture proved particularly contentious and surprisingly contradictory in the heyday of racial nationalism and antisemitism **The Routledge Handbook to Music under German Occupation, 1938-1945** David Fanning,Erik Levi,2019-12-06 Following their entry into Austria and the Sudetenland in the late 1930s the Germans attempted to impose a policy of cultural imperialism on the countries they went on to occupy during World War II Almost all music institutions in the occupied lands came under direct German control or were subject to severe scrutiny and censorship the prime objective being to change the musical fabric of these nations and force them to submit to the strictures of Nazi ideology This pioneering collection of essays is the first in the English language to look in more detail at the musical consequences of German occupation during a dark period in European history It embraces a wide range of issues presenting case studies involving musical activity in a number of occupied European cities as well as in countries that were part of the Axis or had established close diplomatic relations with Germany The wartime careers and creative outputs of individual musicians who were faced with the dilemma of either complying with or resisting the impositions of the occupiers are explored In addition there is some reflection on the post war implications of German occupation for the musical environment in Europe Music under German Occupation is written for all music lovers students professionals and academics who have particular interests in 20th century music and or the vicissitudes of European cultural life during World War II **Children's Literature in Hitler's Germany** Christa Kamenetsky,2019-06-17 Between 1933 and 1945 National Socialists enacted a focused effort to propagandize children s literature by distorting existing German values and traditions with the aim of creating a homogenous folk community A vast censorship committee in Berlin oversaw the publication revision and distribution of books and textbooks for young readers exercising its control over library and bookstore content as well as over new manuscripts so as to redirect the cultural consumption of the nation s children In particular the Nazis emphasized Nordic myths and legends with a focus on the fighting spirit of the saga heroes their community loyalty and a fierce spirit of revenge elements that were then applied to the concepts of loyalty to and sacrifice for the F hrer and the fatherland They also tolerated select popular series even though

these were meant to be replaced by modern Hitler Youth camping stories In this important book first published in 1984 and now back in print Christa Kamenetsky demonstrates how Nazis used children's literature to selectively shape a Nordic Germanic worldview that was intended to strengthen the German folk community the Führer and the fatherland by imposing a racial perspective on mankind Their efforts corroded the last remnants of the Weimar Republic's liberal education while promoting an enthusiastic following for Hitler

Coming Home to the Third Reich Grant W. Grams, 2021-09-14 During the 1930s Germany's industrialization rearmament and economic plans taxed the existing manpower forcing the country to explore new ways of acquiring Aryan German labor Eventually the Third Reich implemented a return migration program which used various recruitment strategies to entice Germans from Canada and the United States to migrate home It initially used the Atlantic Ocean to transport German speakers but after the outbreak of World War II German civilians were brought from the Americas to East Asia and then to Germany via the Trans Siberian Railway through the Soviet Union Germany's attack on the Soviet Union in June 1941 ended this overland route but some Germans were moved on Nazi ships from East Asia to the Third Reich until the end of 1942 This book investigates why Germans who had already established themselves in overseas countries chose to migrate back to an oppressive and authoritarian country It sheds light on some aspects of the Third Reich's administration goals and achievements associated with return migration while also telling the individual stories of returnees

Visualizing Fascism Julia Adeney Thomas, Geoff Eley, 2020-03-13 The contributors to *Visualizing Fascism* examine the imagery and visual rhetoric of interwar fascism in East Asia southern Africa and Europe to explore how fascism was visualized as a global and aesthetic phenomenon

Theatre in Europe Under German Occupation Anselm Heinrich, 2017-08-07 The Second World War went beyond previous military conflicts It was not only about specific geographical gains or economic goals but also about the brutal and lasting reshaping of Europe as a whole *Theatre in Europe Under German Occupation* explores the part that theatre played in the Nazi war effort Using a case study approach it illustrates the crucial and heavily subsidised role of theatre as a cultural extension of the military machine key to Nazi Germany's total war doctrine Covering theatres in Oslo Riga Lille Lódz Krakau Warsaw Prague The Hague and Kiev Anselm Heinrich looks at the history and context of their operation the wider political cultural and propagandistic implications in view of their function in wartime and their legacies *Theatre in Europe Under German Occupation* focuses for the first time on Nazi Germany's attempts to control and shape the cultural sector in occupied territories shedding new light on the importance of theatre for the regime's military and political goals

Nordic War Stories Marianne Stecher-Hansen, 2021-02-03 Situated on Europe s northern periphery Denmark Finland Iceland Norway and Sweden found themselves caught between warring powers during World War II Ultimately these nations survived the conflict as sovereign states whose wartime experiences have profoundly shaped their historiography literature cinema and memory cultures *Nordic War Stories* explores the commonalities and divergences among the five Nordic countries examining national historiographies alongside representations of the war years in canonical literary works travel writing and film media Together they comprise a valuable companion that challenges the myth of Scandinavian homogeneity while demonstrating the powerful influence that the war continues to exert on national identities

Nazis and Good Neighbors Max Paul Friedman, 2003-08-04 This international history uncovers an American security program in which Washington reached into fifteen Latin American countries to seize more than 4 000 German expatriates and intern them in the Texas desert The crowd of Nazi Party members antifascist exiles and even Jewish refugees were lumped together in camps riven by strife The book first published in 2003 examines the evolution of governmental policy its impact on individuals and emigrant communities and the ideological assumptions that blinded officials in both Washington and Berlin to Latin American realities Franklin Roosevelt s vaunted Good Neighbor policy was a victim of this effort to force reluctant Latin American governments to hand over their German residents while the operation ruined an opportunity to rescue victims of the Holocaust This study makes a very contemporary argument that security measures based on group affiliation rather than individual actions are as unjust and ineffective in foreign policy as they are in law enforcement
