BOOK JACKET Title Summary

field provided by Blackwell North America Inc All Rights Reserved Fascism Brian E. Fogarty, 2009 When the Nazis took power in 1933 most Germans did not foresee the oncoming storm Many were wildly enthusiastic some were alarmed most were worried but trusted that things would work out In short they felt much as Americans have felt from time to time Brian E Fogarty's *Fascism Why Not Here* draws parallels between German culture of the early twentieth century and American culture today While Fogarty postulates that it would take a confluence of events and circumstances to propel Americans into the arms of fascism he concludes that it is not entirely unlikely Today less than a decade after his original warning some of those events are beginning to unfold As Americans become more divided as formerly nonpartisan institutions are politicized and as Congress becomes increasingly paralyzed we are forced to ask how do we respond to a political outsider's rally cries to make America great again In examining the similarities and differences between Nazi Germany and America today Fogarty finds many reasons for hope that Americans will not fall victim to such chauvinistic appeal but he also finds plenty to worry about He points out that contemporary Americans and Germans of the 1920s and 1930s share many similar values ideals fears and beliefs Fogarty's strong words of caution will resonate with anyone concerned about America's political future and the freedoms we too often take for granted *Teaching and Studying the Holocaust* Samuel Totten, Stephen Feinberg, 2009-11-01 Originally Published in 2000 by Allyn Ida E King Distinguished Visitor Professor of Holocaust Studies Richard Stockton College and Former Director of Research at the United States Holocaust Memorial Museum There are many scholars who are wont to criticize the teaching of the Holocaust Many journalists critique what they regard as kitsch or trendiness All critics of contemporary Holocaust education would do well to read this book One cannot fail to be impressed by the quality of its learning and the seriousness of its purpose It is a wonderful place for teachers to turn as they contemplate teaching the Holocaust an open invitation to learn more and teach more effectively Barry van Driel Coordinator International Teacher Education Anne Frank House Amsterdam Teaching and Studying the Holocaust is an invaluable resource for any teacher wanting to address the complex and sometimes overwhelming history of the Holocaust in the classroom The book offers a multitude of sensitive and responsible ways of dealing with the issue of the Holocaust It succeeds in showing teachers very clearly how the study of the Holocaust is not just a topic for history teachers but for teachers across the curriculum Dr Nili Keren Kibbutzim College of Education Tel Aviv Israel Teaching about the Shoah is one of the most complicated tasks for educators Indeed teaching and studying this history raises unprecedented questions concerning modern civilization and presents teachers and students with tremendous challenges Samuel Totten and Stephen Feinberg have created a volume that provides educators with essential information and new insights regarding the teaching of this history and in doing so they assist educators to face the aforementioned challenges head on Teaching and Studying the Holocaust does not make the task easier but it does make it possible Samuel Totten is currently professor of Curriculum and Instruction at the University of Arkansas Fayetteville Prior to entering academia he was an English and social studies

teacher in Australia Israel California and at the U S House of Representatives Page School in Washington D C Totten is also editor of Teaching Holocaust Literature published by Allyn Bacon Stephen Feinberg is currently the Special Assistant for Education Programs in the National Institute for Holocaust Education at the United States Holocaust Memorial Museum With Samuel Totten he was co editor of a special issue Teaching the Holocaust of Social Education the official journal of the National Council for the Social Studies For eighteen years he was a history and social studies teacher in the public schools of Wayland MA Europe Central William T. Vollmann, 2005-11-14 WINNER OF THE NATIONAL BOOK AWARD A daring literary masterpiece of historical fiction that weaves together the gripping stories of those caught in the web of authoritarian rule Through interwoven narratives that paint a portrait of 20th century Germany and the USSR and the monstrous age they defined Europe Central captures a chorus of voices both real and fictional a young German who joins the SS to fight its crimes two generals who collaborate with the enemy for different reasons and the tumultuous life of Soviet composer Dmitri Shostakovich amidst Stalinist oppression In this magnificent work of fiction acclaimed author William T Vollmann turns his trenchant eye on these two authoritarian cultures to render a mesmerizing perspective on human experience during wartime

Forbidden Bookshelf Presents Christopher Simpson Christopher Simpson, 2018-10-23 Three provocative exposés from a National Jewish Book Award winning journalist address the CIA's recruitment of Nazis and use of psychological warfare The Splendid Blond Beast This groundbreaking investigation into the CIA's post World War II liberation and recruitment of Nazi war criminals including the pivotal role played by CIA director Allen Dulles traces the roots not only of US government malfeasance but of mass murder as an instrument of financial gain and state power from the Armenian genocide during World War I to Hitler's Holocaust through the practice of genocide today Revelatory and shocking Kirkus Reviews Blowback The true story of how US intelligence organizations employed Nazi war criminals in clandestine warfare and propaganda against the USSR anticolonial revolutionaries and progressive movements worldwide that were claimed to be Soviet pawns The story is one that needs to be told and Blowback makes a major contribution to its telling supplementing a thorough collation of known cases with ample new research The New York Times Science of Coercion Drawing on long classified documents from the Pentagon the CIA and other national security agencies Simpson exposes secret government funded research into psychological warfare and reveals that many of the most respected pioneers in the field of communication science were knowingly complicit as their findings were employed for the purposes of propaganda subversion intimidation and counterinsurgency during the Cold War era An intriguing picture of the relations between state power and the intellectual community Noam Chomsky Massachusetts Institute of Technology *Before Auschwitz* Paul R. Hinlicky, 2013-06-27 What can Christian theology in North America learn from the rise of Nazism in Germany in the 1920s and 1930s This book explores an explosion of scholarship in recent decades that has reopened questions once thought to be settled about the relationships between Nazism Liberalism and Christianity In the process of criticizing the retrospective

fallacy and urging a properly hermeneutical historiography its method in historical theology causes us to reflect back upon our tacit commitments suggesting that we are closer to fascism than we are aware and that although the devil never shows its face twice in exactly the same way the particular hubris of grasping after final solutions along biopolitical lines that is the racially scientific version of fascism that was Nazism is and remains near at hand today within our horizon of possibilities unrecognized in just the ways that it was unrecognized by Germans before Auschwitz The book takes a fresh look at the theology of Adolf Hitler and finds themes that are disturbingly familiar It summons to the renewal of Christian theology after Christendom in the form of critical dogmatics where the motif of the Beloved Community replaces the fallen idol descended from Charlemagne

The Resilient City in World War II Simo Laakkonen, J. R. McNeill, Richard P. Tucker, Timo Vuorisalo, 2019-05-27 The fate of towns and cities stands at the center of the environmental history of World War II Broad swaths of cityscapes were destroyed by the bombing of targets such as transport hubs electrical grids and industrial districts and across Europe Asia and the Americas urban environments were transformed by the massive mobilization of human and natural resources to support the conflict But at the same time the war saw remarkable resilience among the human and non human residents of cities Foregrounding the concept of urban resilience this collection uncovers the creative survival strategies that city dwellers of all kinds turned to in the midst of environmental devastation As the first major study at the intersection of environmental urban and military history *The Resilient City in World War II* lays the groundwork for an improved understanding of rapid change in urban environments and how societies may adapt

Legters, 2019-09-18 Based on an International Scholars Symposium convened to recall the infamous Kristallnacht in Hitler's Germany this book represents an effort to distill from the ensuing Holocaust experience the lessons that seem most applicable to the contemporary world

The Surreal Reich Joseph Howard Tyson, 2010-09-23 The Third Reich proves Lord Byron's maxim that truth is stranger than fiction Hitler's mania made the Reich surreal This book documents his neuroses charisma ruthlessness and storybook rise to power It's alarming that an astute psychopath with acting ability became an absolute dictator in a modern European state German political naivety contributed to his miraculous ascent During election campaigns between 1927 and 1933 Hitler posed as an anti Communist savior while concealing his real agenda of war genocide and quack eugenics *The Surreal Reich* closely examines all leading Nazis It shows how Hitler had different sets of favorites at various times Dietrich Eckart Rudolf Hess and Ernst Rohm in the early years Hermann Goering and Josef Goebbels through the middle period then Heinrich Himmler and Martin Bormann from 1939 to 1945 Nazism's heyday occurred during an era of supposed progress Yet escalating war casualties in that enlightened age tell a different story 620 000 people died in America's Civil War only 5% of them civilians World War I caused approximately 16 million fatalities Most of the 5 million non combatants succumbed from starvation or Spanish Influenza World War II resulted in 60 million deaths 52% of them civilians One warped idealist sparked that fruitless orgy of destruction Adolf Hitler

Propaganda Art in the 21st Century Jonas Staal, 2019-09-24 How to understand propaganda art in the post truth era and how to create a new kind of emancipatory propaganda art Propaganda art whether a depiction of joyous workers in the style of socialist realism or a film directed by Steve Bannon delivers a message But as Jonas Staal argues in this illuminating and timely book propaganda does not merely make a political point it aims to construct reality itself Political regimes have shaped our world according to their interests and ideology today popular mass movements push back by constructing other worlds with their own propagandas In *Propaganda Art in the 21st Century* Staal offers an essential guide for understanding propaganda art in the post truth era Staal shows that propaganda is not a relic of a totalitarian past but occurs today even in liberal democracies He considers different historical forms of propaganda art from avant garde to totalitarian and modernist and he investigates the us versus them dichotomy promoted in War on Terror propaganda art describing among other things a fictional scenario from the Department of Homeland Security acted out in real time and military training via videogame He discusses artistic and cultural productions developed by such popular mass movements of the twenty first century as the Occupy activism by and in support of undocumented migrants and refugees and struggles for liberation in such countries as Mali and Syria Staal both a scholar of propaganda and a self described propaganda artist proposes a new model of emancipatory propaganda art one that acknowledges the relation between art and power and takes both an aesthetic and a political position in the practice of world making

Microfoundations and Macroeconomics Steven Horwitz, 2000-09-28 In the past Austrian economics has been seen as almost exclusively focused on microeconomics Here Steven Horwitz constructs a systematic presentation of what Austrian macroeconomics would look like This original and highly accessible work will be of great value and interest to professional economists and students

An Unpromising Hope Thomas R. Gaulke, 2021-09-21 Written in a theopoetic key this book challenges Christian reliance on the motif of promise especially where promise is regarded as a prerequisite for the experience of hope It pursues instead an unpromising hope available to the agnostic or belief fluid members and leaders of faith communities The book rejects any theological judgement about doubt and hopelessness being sinful It also rejects any hope which is grounded in a sense of Christian supremacy Chapter 1 focuses on Ernst Bloch's antifascist concept of utopian surplus putting Bloch in conversation with queer theorist Jose Esteban Munoz and womanist theologian M Shawn Copeland Chapter 2 explores the saudadic and theopoetic hope of Rubem Alves Chapter 3 turns to the womanist theologies of Delores Williams Emilie Townes and A Elaine Brown Crawford Finally chapter 4 engages the post colonial eschatology of Vitor Westhelle framing hope as nearby in space rather than nearby in time Each chapter offers an unpromising hope that may be tapped into by those who wish to affirm belief fluidity in their own communities and by those who wish to speak of hope honestly whether or not at any given moment they believe in God or in the promises of a god

Peter G. Clark, 2022-10-06 What Hitler was able to do to a crowd in 2 1 2 hours will never be repeated in 10 000 years Ernst Hanfstaengl Hitler's early confidant Hitler was one of the first great rock stars He was no politician he was a great media artist How he worked his audience The world will never see anything like that again He made an entire country a stage show David Bowie British rock legend As a young man in Vienna Adolf Hitler was sleeping on park benches in 1909 just a real Nowhere Man making all his Nowhere Plans and who would soon haunt homeless shelters while trying to hawk his unimaginative and banal paintings Yet in 1933 this mommy's boy and self centered dilettante was appointed Chancellor of Germany after discovering his artistic political calling as a charismatic orator and stage actor in the 1920s and then dazzled Germans and foreigners alike with the color and pageantry of the Nuremberg rallies and other grand spectacles in the 1930s As a virtuoso in the art of presenting dramatic performances Hitler inspired the same type of emotional ecstasy that the Beatles the Rolling Stones and Elvis Presley aroused from their frenzied fans Even after clearly revealing the monstrous side of his murderous character in World War II by exterminating Jews and Slavs by the millions before committing suicide on April 30 1945 he still emerged from the ashes and rubble of the Third Reich to seduce later generations To the present generation he has morphed from a murderous villain into a comical figure on many Internet platforms particularly the hundreds of humorous YouTube parodies of his fanatical ranting and raving This book examines Hitler's extraordinary political artistic talents to explain his nearly unfathomable rise from a homeless nobody into the most influential and demonic creature on the vast stage of modern history *Exposing the Third Reich* Henry G. Gole, 2013-08-20 A fascinating book

about a virtually unknown officer who played a major role in the development of US military planning before and during World War II Bowling Green Daily News A vital source of American intelligence on Hitler's rise to power and military ambitions Colonel Truman Smith was one of the most compelling and controversial figures of the Second World War In *Exposing the Third Reich* Henry G Gole tells this soldier's story for the first time An American aristocrat from a prominent New England family Smith became an expert on Germany when he was first assigned there during the Allied occupation of 1919 As a military attach in 1935 he arranged for his good friend Charles Lindbergh to inspect the Luftwaffe The Germans were starstruck by the famous aviator enabling Smith to gather key intelligence about their air capability His deep access and knowledge made him invaluable to General George C Marshall however the colonel's friendliness with Germany also

aroused suspicion that he was a Nazi sympathizer Gole demonstrates that far from condoning Hitler Smith was among the first to raise the alarm he predicted many of the Nazis moves years in advance and feared that the international community would not act quickly enough Featuring many firsthand observations of the critical changes in Germany between the world wars this biography presents an indispensable look both at a fascinating figure and at the nuances of the interwar years
