Molyneux, 2016-01-28 The analysis of gender and political inequality and the women s movements that have contested it has concentrated on the West In this wide ranging reevaluation incorporating development studies and political sociology Maxine Molyneux redresses this balance by analysing Latin American women s movements within liberal authoritarian and revolutionary states These studies of Argentina Nicaragua and Cuba alongside comparative discussions of socialism women s movements and citizenship examine the complex and persistent interaction of states and women s movements and the diversity of responses engendered *Imagining Justice* John Crank, 2014-09-25 *Imagining Justice* seeks to move away from normative thinking about justice particularly in the area of justice education suggesting that what is needed today is a way to think about the enterprise of justice that will capture its full potential By providing an introduction to the intellectual potential of the field of justice we can acknowledge that the field is wider than formerly recognized and ultimately imagine the full richness that justice can encompass *Global Dialogue on Media Dynamics, Trends and Perspectives on Public Relations and Communication* Fong Peng Chew, 2025-01-08 This book contains the proceedings of the International Conference on Public Relations and Media Communication PRMC 2024 which explore the dynamic intersections of public relations and media in today s rapidly evolving landscape It has a repository of innovative research insightful discussions and emerging trends in digital media strategies crisis communication media ethics public relations in the age of social media and the impact of emerging technologies on media practices It touches upon a wide array

Volunteers in Sport: International perspectives Geoff Nichols,2016-03-23 Volunteers are central to providing opportunities to play sport whether helping to run sports clubs helping in school sport or at sports events This volume focuses on the volunteers who support clubs Approximately 150 000 sports clubs in the UK are supported by volunteers in roles such as coaches treasurers membership secretaries and other formal roles as well as a myriad of other volunteers who help on a more informal basis This structure of clubs run by volunteers is common to other countries such as Germany Canada Finland and Australia It is a valuable community resource not only for the opportunities it provides for sports participation but also the more general contribution to the quality of communities This club structure has been central to government policy to increase sports participation and has developed from the second half of the 19th century Yet its maintenance relies on a nucleus of core volunteers in each club who take the major roles Recruiting new volunteers especially for these core roles is always difficult Despite central government in the UK having a commitment to developing volunteering clubs are having to adjust to new relationships with local government as funding and subsidy of facility use is reduced Trends in sports participation are away from the traditional team sports and towards more individual participation Club members may demand an experience benchmarked against private or local government providers regarding the club as providing a service as much as an organisation they

contribute to The chapters in this book contribute an international perspective to understanding these issues It will be of great value to community sport leaders and scholars of sport sociology and leisure studies This book was published as a special issue of the International Journal of Sport Policy and Politics
