[The Philosopher's Cookbook](#) Marthinus Versfeld, 2005 For Martin Versfeld cooking was neither a chore nor a lifestyle embellishment it was an encounter with the mystery that lives at the heart of ordinary things You still have to soft boil an egg for three minutes he tells us but why boil it in a hurry when you can boil it in eternity or in 250 millilitres of water instead of the Sea of Being With humour gentleness and occasionally anger from the delights of the garden to the tyranny of convenience cooking his recipes have more of the poet about them than the instructor The pure simplicity of Versfeld's writing is a joy to the reader You will feel compelled to share this book with those around you It will make you hungry it will make you want to sniff the dirt on fresh vegetables Most of all it will invigorate your lust for life and make you see the world in a new light THE PHILOSOPHER'S COOKBOOK is the manifesto of one of the great minds of our age a cookbook a philosophical enquiry and an essay on the human predicament If you can imagine it

Boisvert, Lisa Heldke, 2016-04-15 When you boil it down one of the most important things we do each day is eat The question of eating what and how may seem simple at first but it is dense with complex meanings reflecting myriad roles that food plays and has played over the centuries In fact as Raymond D Boisvert and Lisa Heldke show in this book it's difficult to imagine a more philosophically charged act than eating Philosophers at Table explores the philosophical scaffolding that supports this crucial aspect of everyday life showing that we are not just creatures with minds but also with stomachs Examining a cornucopia of literary works myths histories and film not to mention philosophical ideas the authors make the case for a bona fide philosophy of food They look at Babette's Feast as an argument for hospitality as a central ethical virtue They compare fast food in Accra to the molecular gastronomy of Spain as a way of considering the nature of food as art And they bite into a slug which is unsurprisingly completely gross to explore tasting as a learning tool a way of knowing A surprising original take on something we have not philosophically savored enough Philosophers at Table invites readers to think in fresh ways about the simple and important act of eating **Foodista Best of Food Blogs Cookbook** Sheri L. rarely recognize as political taste production domesticity collectivity and imagination and considers the ways in which cookbooks have or do politics from the most overt to the most subtle Cookbooks turn regional diversity into national unity as Pellegrino Artusi's *Science in the Kitchen and the Art of Eating Well* did for Italy in 1891 Politically affiliated organizations compile and sell cookbooks for example the early United Nations published *The World's Favorite Recipes* From the First Baptist Church of Midland Tennessee's community cookbook to Julia Child's *Mastering the Art of French Cooking* to the Italian Futurists' proto fascist guide to food preparation Ferguson demonstrates how cookbooks mark desires and reveal social commitments your table becomes a representation of who you are Authoritative yet flexible collective yet individualized cooperative yet personal cookbooks invite participation editing and transformation Created to convey flavor and taste across generations communities and nations they enact the continuities and changes of social lives Their functioning in the name of creativity and preparation with readers happily consuming them in similar ways makes cookbooks an exemplary model for democratic politics

In My Father's House Kwame Anthony Appiah, 1993-05-27 The beating of Rodney King and the resulting riots in South Central Los Angeles The violent clash between Hasidim and African Americans in Crown Heights The boats of Haitian refugees being turned away from the Land of Opportunity These are among the many racially charged images that have burst across our television screens in the last year alone images that show that for all our complacent beliefs in a melting pot society race is as much of a problem as ever in America In this vastly important widely acclaimed volume Kwame Anthony Appiah a Ghanaian philosopher who now teaches at Harvard explores in his words the possibilities and pitfalls of an African identity in the late twentieth century In the process he sheds new light on what it means to be an African American on the many preconceptions that have muddled discussions of race Africa and Afrocentrism since the end of the nineteenth century and in the end to move beyond the idea of race In *My Father's House* is especially wide ranging covering everything from Pan Africanism to the works of early African American intellectuals such as Alexander Crummell and W E B Du Bois to the ways in which African identity influences African literature In his discussion of the latter subject Appiah demonstrates how attempts to construct a uniquely African literature have ignored not only the inescapable influences that centuries of contact with the West have imposed but also the multicultural nature of Africa itself Emphasizing this last point is Appiah's eloquent title essay which offers a fitting finale to the volume In a moving first person account of his father's death and funeral in Ghana Appiah offers a brilliant metaphor for the tension between Africa's aspirations to modernity and its desire to draw on its ancient cultural roots During the Los Angeles riots Rodney King appeared on television to make his now famous plea People can we all get along In this beautiful elegantly written volume Appiah steers us along a path toward answering a question of the utmost importance to us all
