Applied Spatial Cognition Gary L. Allen, 2020-07-24 Applied Spatial Cognition illustrates the vital link between research and application in spatial cognition. With an impressive vista ranging from applied research to applications of cognitive technology, this volume presents the work of individuals from a wide range of disciplines and research areas including psychologists, geographers, information scientists, computer scientists, cognitive scientists, engineers, and architects. Chapters throughout the book are a testimony to the importance of basic and applied research regarding human spatial cognition and behavior in the many facets of daily life. The contents are arranged into three sections, the first of which deals with a variety of spatial problems in real world settings. The second section focuses on spatial cognition in specific populations. The final part is concerned principally with applications of spatial cognitive research and the development of cognitive technology. Relevant to a number of remarkably diverse groups, Applied Spatial Cognition will be of considerable interest to researchers and professionals in industrial, organizational psychology, human factors research, and cognitive science.

Point Last Seen Hannah Nyala, 2002-10 THE ACCLAIMED MEMOIR FROM HANNAH NYALA A MOTHER A TRACKER AND A TRUE SURVIVOR POINT LAST SEEN Escaping an abusive marriage, her children abducted by her violent husband, Hannah Nyala was left alone to pick up the pieces of her life to heal physically and spiritually. She wanted her children back but first she had to fight for her own future by teaching herself the skills of tracking in the Mojave Desert. She became a search and rescue tracker dedicated to saving the lives of the lost and so attuned to nature's messages that she can read the history of a footprint, the clues in stones and desert sand. That's just the beginning of her incredible story. For Hannah would soon make the most chilling discovery: someone was tracking her on a vicious quest to do her harm.
