the eighteenth century onward there have been migrations from Europe to what are now called post colonial countries and this prepared the ground for movement back to the old but also to the new centres of Europe and elsewhere Travel and travel experience on the other hand have been part of the cultural codes not only of the West and not only of imperialism The essays in this volume look at both kinds of movement at their intersections and at their dis locating effects They cover a wide range of topics from early seventeenth century travel reports through nineteenth century women s travel writing to such contemporary writers as Michael Ondaatje and Janette Turner Hospital

**Collected Poems of Lenore Kandel** Lenore Kandel,2012-04-10 Jack Kerouac immortalized her in his novel Big Sur A student of Zen she hung out with Gary Snyder and Allen Ginsberg and was a speaker at San Francisco s Human Be In But Lenore Kandel was no muse or hanger on she was a brilliant lyric poet often unabashedly erotic and that s where her legacy lies Collected Poems of Lenore Kandel contains 80 examples of her art from the holy erotica of her early years to later more contemplative works Many of the poems have never been published others only in rare ephemeral publications Some are explicit celebrating carnal love as part of the divine Others are humorous and cover more quotidian subjects A recurring theme is the divine animal duality The collection includes poems written from the early fifties up until Kandel s death The paradox of Lenore Kandel is that despite her prodigious talent she was one of the least read and critically appreciated of modern poets Kandel found her voice at a time when the Beat era was giving way to the countercultural age and though she straddled both eras it meant that she also fell

through the cracks in terms of recognition Now for the first time the full range of her work appears in one volume     The Routledge Companion to Experimental Literature Joe Bray, Alison Gibbons, Brian McHale, 2012-07-26 What is experimental literature How has experimentation affected the course of literary history and how is it shaping literary expression today Literary experiment has always been diverse and challenging but never more so than in our age of digital media and social networking when the very category of the literary is coming under intense pressure How will literature reconfigure itself in the future The Routledge Companion to Experimental Literature maps this expansive and multifaceted field with essays on the history of literary experiment from the beginning of the twentieth century to the present the impact of new media on literature including multimodal literature digital fiction and code poetry the development of experimental genres from graphic narratives and found poetry through to gaming and interactive fiction experimental movements from Futurism and Surrealism to Postmodernism Avant Pop and Flarf Shedding new light on often critically neglected terrain the contributors introduce this vibrant area define its current state and offer exciting new perspectives on its future This volume is the ideal introduction for those approaching the study of experimental literature for the first time or looking to further their knowledge
