Radio Active tells the story of how radio listeners at the American mid century were active in their listening practices While cultural historians have seen this period as one of failed reform focusing on the failure of activists to win significant changes for commercial radio Kathy M Newman argues that the 1930s witnessed the emergence of a symbiotic relationship between advertising and activism Advertising helped to kindle the consumer activism of union members affiliated with the CIO middle class club women and working class housewives Once provoked these activists became determined to influence and in some cases eliminate radio advertising As one example of how radio consumption was an active rather than a passive process Newman cites *The Hucksters* Frederick Wakeman s 1946 radio spoof that skewered eccentric sponsors neurotic account executives and grating radio jingles The book sold over 700 000 copies in its first six months and convinced broadcast executives that Americans were unhappy with radio advertising The Hucksters left its mark on the radio age showing that radio could inspire collective action and not just passive conformity      Domestic Commerce United States. Bureau of Foreign and Domestic Commerce, 1937      A Word from Our Sponsor Cynthia B. Meyers, 2013-12-01 During the golden age of radio from roughly the late 1920s until the late 1940s advertising agencies were arguably the most important sources of radio entertainment Most nationally broadcast programs on network radio were created produced written and or managed by advertising agencies for example J Walter Thompson produced Kraft Music Hall for Kraft Benton and Young agency records of BBDO Benton contemporaneous trade publications and the voluminous correspondence between NBC and agency executives in the NBC Records at the Wisconsin Historical Society Mediating between audiences desire for entertainment and advertisers desire for sales admen combined showmanship with salesmanship to produce a uniquely American form of commercial culture In recounting the history of this form Meyers enriches and corrects our understanding not only of broadcasting history but also of advertising history business history and American cultural history from the 1920s to the 1940s

**Sold American** Charles F. McGovern, 2009-01-06 At the turn of the twentieth century an emerging consumer culture in the United States promoted constant spending to meet material needs and develop social identity and self cultivation In *Sold American* Charles F McGovern examines the key players active in shaping this cultural evolution advertisers and consumer advocates McGovern argues that even though these two professional groups invented radically different models for proper spending both groups propagated mass consumption as a specifically American social practice and an important element of nationality and citizenship Advertisers McGovern shows used nationalist ideals icons and political language to define consumption as the foundation of the pursuit of happiness Consumer advocates on the other hand viewed the market with a republican inspired skepticism and fought commercial incursions on consumer independence The result says McGovern was a redefinition of the citizen as consumer The articulation of an American Way of Life in the Depression and World War II ratified consumer abundance as the basis of a distinct American culture and history
