## **Poland Past And Present Select Bibliography Of Works In English:**

**Poland, Past and Present** Norman Davies, 1977      **Historical Dictionary of Poland, 966-1945** Halina Lerski, 1996-01-19 The first authoritative comprehensive historical dictionary of Poland in English this volume includes over 2 000 entries on people events places and terms important to Poland s history from 966 to 1945 Entries include English and Polish language bibliographic sources The student of Polish history seeking specific information on a person or event in medieval times the troubled era leading to the late 18th century partitions of Poland and the Polish nationalist struggles before 1919 reborn Poland in the interwar years or the trauma of World War II will be amply rewarded by the accurate concise information provided in this unique historical dictionary Each of the alphabetically arranged entries is followed by pertinent bibliographic sources in both English and Polish languages A list of abbreviations a note on the Polish alphabet and a series of historical maps precede the entries Helpful cross references are provided throughout the text and in the index A general bibliography precedes the index After five years of work George Lerski completed the original manuscript in 1992 shortly before his untimely death The special editing subsequently undertaken preparatory to publication has remained faithful to the original work its concept organization and purpose      **Russia and Eastern Europe, 1789-1985** Raymond Pearson, 1989      **A History of Polish Christianity** Jerzy Kloczowski, 2000-09-14 This is a single volume history of Christianity in Poland a subject at the core of religious history and European secular history alike The book covers the development of Polish Christianity from the tenth century to the year 2000 placing it in the broader context of East Central European political social religious and cultural history Jewish Christian relations and the problematic religious history of the Jews in the region play an important part in the story and there are pervasive references to countries historically linked to Poland such as Lithuania Belarus and the Ukraine Jerzy Kloczowski shows how the history of Poland and Polish Christianity are embedded in the complex systems of relations with other countries and religious denominations A History of Polish Christianity should be read by anyone interested in the confrontation between Christianity and the totalitarian systems of the twentieth century and in the interplay between Eastern and Western Christianity      *Polish Genealogy & Heraldry* Janina W. Hoskins, 1987      God's Playground A History of Poland Norman Davies, 2005-02-24 This new edition of Norman Davies s classic study of the history of Poland has been revised and fully updated with two new chapters to bring the story to the end of the twentieth century The writing of Polish history like Poland itself has frequently fallen prey to interested parties Professor Norman Davies adopts a sceptical stance towards all existing interpretations and attempts to bring a strong dose of common sense to his theme He presents the most comprehensive survey in English of this frequently maligned and usually misunderstood country      **The United States and Poland** Piotr Stefan Wandycz, 1980 The United States and Poland adds a new dimension to the scholarship of America s international relations Piotr Wandycz presents a comprehensive picture of the changing relationships between the United States and Poland over two hundred years This work is as Wandycz writes both a

survey and a synthesis Because he believes that an understanding of the history of Poland is necessary in order to appreciate the complex nature of its involvement with the United States he provides a thorough analysis of Poland's internal development concentrating on the twentieth century He also carefully places American Polish history in the broader context of changing East West relations Finally he speculates on the future between the two countries as detente unfolds and surprising happenings like the election of a Polish Pope occur Ultimately Wandycz acknowledges the American Polish relationship has been one sided even more so than is normal in contacts between great and small powers One must not imagine he writes that Poland has been on the minds of American foreign policy makers consistently but if one thinks of Poland in the context of East Central Europe her significance increases dramatically This book provides a necessary history and evaluation of a nation state once dominant in Europe and now searching for an appropriate role

**The Russian Revolution and Civil War 1917-1921** Jonathan Smele, 2006-04-15 The Russian Revolution and Civil War in the years 1917 to 1921 is one of the most widely studied periods in history It is also somewhat inevitably one that has generated a huge flow of literature in the decades that have passed since the events themselves However until now historians of the revolution have had no dedicated bibliography of the period and little claim to bibliographical control over the literature The Russian Revolution and Civil War 1917 1921 offers for the first time a comprehensive bibliographical guide to this crucial and fascinating period of history The Bibliography focuses on the key years of 1917 to 1921 starting with the February Revolution of 1917 and concluding with the 10th Party Congress of March 1921 and covers all the key events of the intervening years As such it identifies these crucial years as something more than simply the creation of a communist state
