Johnson, 2014-10-07 In the golden age of polar exploration from the mid 1800s to the early 1900s many an expedition set out to answer the big question was the Arctic a continent an open ocean beyond a barrier of ice or an ocean covered with ice No one knew for the ice had kept its secret well ships trying to penetrate it all failed often catastrophically Norway s charismatic scientist explorer Fridtjof Nansen convinced that it was a frozen ocean intended to prove it in a novel if risky way by building a ship capable of withstanding the ice joining others on an expedition then drifting wherever it took them on a relentless one way journey into discovery and fame or oblivion Ice Ship is the story of that extraordinary ship the Fram from conception to construction through twenty years of three epic expeditions to its final resting place as a museum It is also the story of the extraordinary men who steered the Fram over the course of 84 000 miles on a three year ice bound drift finding out what the Arctic really was in a remarkable four year exploration of unmapped lands in the vast Canadian Arctic and on a two year voyage to Antarctica where another famous Norwegian

explorer Roald Amundsen claimed the South Pole Ice Ship will appeal to all those fascinated with polar exploration maritime adventure and wooden ships and will captivate readers of such books as *The Endurance In the Heart of the Sea* and *The Last Place on Earth* With more than 100 original photographs the book brings the Fram to life and light *Gender on Ice* Lisa Bloom, 1993 In this book Bloom takes what might seem a very localized subject and shows how it opens up to all the central questions today in cultural studies around gender nationhood the politics of imperialism race male homosocial behavior and the sociality of science *Gender on Ice* has an eloquence and elegance that positively refreshing and the prose is stylish engaging and direct Dana Polan University of Pittsburgh **Congressional Record** United States. Congress, 2001

Unsettled Remains Cynthia Sugars, Gerry Turcotte, 2010-08-27 *Unsettled Remains* Canadian Literature and the Postcolonial Gothic examines how Canadian writers have combined a postcolonial awareness with gothic metaphors of monstrosity and haunting in their response to Canadian history The essays gathered here range from treatments of early postcolonial gothic expression in Canadian literature to attempts to define a Canadian postcolonial gothic mode Many of these texts wrestle with Canada's colonial past and with the voices and histories that were repressed in the push for national consolidation but emerge now as uncanny reminders of that contentious history The haunting effect can be unsettling and enabling at the same time In recent years many Canadian authors have turned to the gothic to challenge dominant literary political and social narratives In Canadian literature the postcolonial gothic has been put to multiple uses above all to figure experiences of ambivalence that have emerged from a colonial context and persisted into the present As these essays demonstrate formulations of a Canadian postcolonial gothic differ radically from one another depending on the social and cultural positioning of who is positing it Given the preponderance in colonial discourse of accounts that demonize otherness it is not surprising that many minority writers have avoided gothic metaphors In recent years however minority authors have shown an interest in the gothic signalling an emerging critical discourse This spectral turn sees minority writers reversing long standing characterizations of their identity as monstrous or invisible in order to show their connections to and disconnection from stories of the nation **Forest and Crag** Laura Waterman, Guy Waterman, 2019-02-28 Thirty years after its initial publication this beloved classic is back in print Superbly researched and written *Forest and Crag* is the definitive history of our love affair with the mountains of the Northeastern United States from the Catskills and the Adirondacks of New York to the Green Mountains of Vermont the White Mountains of New Hampshire and the mountains of Maine It's all here in one comprehensive volume the struggles of early pioneers in America's first frontier wilderness the first ascent of every major peak in the Northeast the building of the trail networks including the Appalachian Trail the golden era of the summit resort hotels and the unforeseen consequences of the backpacking boom of the 1970s and 80s Laura and Guy Waterman spent a decade researching and writing *Forest and Crag* and in it they draw together widely scattered sources What emerges is a compelling story of our ever evolving relationship with the mountains and wilderness a story that will fascinate historians
