**La polémicas** Arturo Jauretche, 2009      Las polemicas Arturo Jauretche, Norberto Galasso, 1981      **La Argentina como problema** Carlos Altamirano, Adrián Gorelik, 2019-11-20

A lo largo del siglo XX intelectuales y escritores muy diversos han intentado dar con las claves de la cultura argentina esos nudos problemáticos que permiten explicar nuestros logros y nuestros fracasos sociales y políticos. Era la concentración de la tierra en pocas manos el principal obstáculo para el desarrollo. Era la asimetría entre Buenos Aires y el interior. La resistencia de las elites ante el desorden de una inmigración caudalosa que reclamaba ciudadanía plena. Una tendencia a conceder poder a caudillos personalistas. O las pretensiones del medio pelo argentino y sus prejuicios respecto de los sectores populares. Este libro propone un recorrido por los temas que se sintieron y se pensaron como verdaderos dilemas y que generaron disputas simbólicas y conflictos interpretativos capaces de atravesar la cultura argentina hasta hoy. Suerte de compendio o de biblioteca condensada de historia intelectual, este libro nos permite asomarnos al pensamiento social de todo un siglo. Los autores analizan el papel de la cultura y las elites en la construcción de la identidad, el lugar del liberalismo en el ideario fundacional del Estado, la democratización de la mano del yrigoyenismo, los cambios económicos sociales y demográficos que dieron nacimiento a lo que José Luis Romero llamó la Argentina aluvial, los personajes desde el gaucho Martín Fierro hasta Evita Perón, montonera que se han convertido en mitos y referencias ideológicas perdurables, los debates en torno al peronismo y la democracia. Obra de referencia y mapa de tradiciones intelectuales de linajes y familias de pensamiento, este libro constituye una contribución enorme a la historia de las ideas y en especial al desafío de inspirarse en ella para abrir preguntas cuyas son las males que marcan nuestra historia cultural y política. Qué diagnósticos y qué remedios pueden pensarse desde el desafío de afrontar la incertidumbre del futuro.

In the Shadow of the State Nicola Miller, 1999. Carlos Fuentes once observed that to be a Spanish American intellectual was to fulfill the roles by default of a tribune, a member of parliament, a labor leader, a journalist, a redeemer of his society. Such statements reflect the view that the region's intellectuals have often acted as substitutes for the structures of a civil society. An alternative view casts Spanish American intellectuals in a far more reactionary role. Here it is suggested that the elaboration of inert popular stereotypes such as the stoic Indian and the heroic gaucho has resulted in an infinite postponement of authentic cultural identity and a perpetuation aided by intellectuals of a social order in which popular demands were either ignored or repressed. In the context of this debate, this book explores the roles played by intellectuals in the creation of popular national identities in twentieth-century Spanish America and seeks to identify the factors which lie behind two such contrasting evaluations of their contribution. Ranging across the intellectual centers of Argentina, Chile, Cuba, Mexico, and Peru, it illustrates vividly the diversity and evolution of intellectual life in the region. Particular attention is paid to the idea of peripheral modernity and its influence on intellectual activity as well as to the contributions made by intellectuals to the three major strands in debates on popular national identity: bi-culturalism, anti-imperialism, and history.

**Making Citizens in Argentina** Benjamin Bryce, David M. K. Sheinin, 2017-06-30 Making Citizens in Argentina charts the evolving meanings of citizenship in Argentina from the 1880s to the 1980s Against the backdrop of immigration science race sport populist rule and dictatorship the contributors analyze the power of the Argentine state and other social actors to set the boundaries of citizenship They also address how Argentines contested the meanings of citizenship over time and demonstrate how citizenship came to represent a great deal more than nationality or voting rights In Argentina it defined a person's relationships with and expectations of the state Citizenship conditioned the rights and duties of Argentines and foreign nationals living in the country Through the language of citizenship Argentines explained to one another who belonged and who did not In the cultural moral and social requirements of citizenship groups with power often marginalized populations whose societal status was more tenuous Making Citizens in Argentina also demonstrates how workers politicians elites indigenous peoples and others staked their own claims to citizenship

**El futuro del kirchnerismo** Eduardo Jozami, 2015-06-01 El interrogante que plantea la sucesión presidencial de 2015 es también el que se cuestiona aquí Eduardo Jozami con el propósito firme de contribuir con la continuidad del proceso que ha cambiado profundamente a la Argentina de los últimos años Es el kirchnerismo un nuevo movimiento popular una etapa política diferenciada del tronco peronista el embrión de un proyecto emancipatorio que aún espera su plena realización o por el contrario la fuerza que gobierna la Argentina desde 2003 terminar absorbida como una variante más del justicialismo El interrogante que plantea la sucesión presidencial de 2015 es también el que se cuestiona aquí Eduardo Jozami con el propósito firme de contribuir con la continuidad del proceso que ha cambiado profundamente a la Argentina de los últimos años Sin omitir errores ni carencias del kirchnerismo este ensayo tiene mucho de manifiesto político ya que del análisis tanto de los logros como de las asignaturas pendientes puede concluirse la necesidad de seguir adelante para asegurar y profundizar lo realizado En un contexto de demonización del oficialismo en el que la oposición busca la vuelta a un país normal los desafíos que enfrenta el movimiento iniciado por Néstor Kirchner y ahondado por Cristina Fernández de Kirchner no son pocos En estas horas se pone a prueba tal vez el más crucial su capacidad para elegir un sucesor idóneo aquel que mantenga sus banderas Claro contundente comprometido apasionado El futuro del kirchnerismo se abstiene de pronósticos pero no de señalar rumbos posibles y probables consecuencias
