Marilynn S. Johnson,2003 In this study of police brutality in New York City Marilynn Johnson explores the changing patterns of police use of force over the past 160 years including street beatings organized violence against protestors and the notorious third degree She argues that the idea of police brutality what exactly it is who its victims are and why it occurs is historically constructed In the late nineteenth century police brutality was understood as an outgrowth of the moral and political corruption of Tammany Hall in the heavy immigration years of the early twentieth century it was redefined as a racial ethnic issue and during Prohibition police violence was connected to police corruption related to the underground liquor trade and the war on crime the federal government declared in response Providing a history of police brutality up to the present day Street Justice emphasizes the understandings brought to the subject by its victims and reveals a long and disturbing history of police misconduct against minorities But Johnson also argues that the culture of policing can be changed when enough political pressure is brought to bear on the problem      *Police Use of Force* James F. Markowitz, Delores D. Jones-Brown, 2000-04-30 In a collection of compelling contributions to the study of the nexus between race crime and justice noted scholars in the field critique many long held assumptions and myths about race challenging criminal justice policymakers to develop new and effective strategies for dealing with the social problems such misunderstandings create In sections devoted to criminological theory law enforcement courts and the law juvenile delinquency and gender contributors endeavor to dispel myths about African American involvement in the criminal justice system In so doing a number of important facts are established about the race crime nexus For example in an analysis of criminological theory it is concluded that race as a singular social factor has not been adequately represented in existing paradigms The subject of police profiling of African Americans reveals an evolution of court decisions that have marginalized rather than liberated African Americans since slavery Each contributor challenges

both the reader and the criminal justice system to develop meaningful strategies for addressing the racism that still pervades our system of justice A chapter on women of color in prison makes a compelling argument that such institutions often represent safer environments than the life on the streets women leave behind This persuasive volume will be of interest to undergraduate and graduate students as well as faculty in Sociology Criminal Justice policy development African American and Women s Studies
