The Police On Track Peter Braidis, 2024-07-09 Forming when punk was starting to become a force The Police led by drummer Stuart Copeland and singer bassist Sting used this emerging new form of music to create a sound that was both fresh energetic and sophisticated An early incarnation with guitarist Henry Padovani ended when Andy Summers joined the band and under the innovative management of Miles Copeland The Police took on the world From 1978 to 1983 the band released five magnificent albums that took in rock reggae and world music A succession of massive hit singles including Message In A Bottle and the classic and often misunderstood Every Breath You Take also cemented their success By 1983 they'd become arguably the biggest band in the world but egos and arguments took their toll and the group split in 1986 Sting would go on to massive solo success but a reunion tour in the 2000s broke box office records and finally closed the door on the band This book details every song and album from the first single to the last making it a comprehensive guide to the music of one of the greatest bands in music history with sales of over 100 million worldwide Peter Braidis is a graduate of Rutgers University with a B A in History and Journalism He currently works in education at Haddon Township High School in the state of New Jersey USA Music especially Thin Lizzy and helping children and animals are his passions as well as pretty much any pasta dish He has written on sports and music for the Philadelphia Inquirer several magazines and authored the book Unstrung Heroes Fifty Guitar Greats You Should Know This is his second book for Sonicbond Publishing having written Asia On Track in 2020

Rocking Around the Clock E. Ann Kaplan, 2016-04-14 The first non stop rock video channel was launched in the US in 1981 As a unique popular culture form MTV warrants attention and in this the first study of the medium originally published in 1987

Ann Kaplan examines the cultural context of MTV and its relationship to the history of rock music. The first part of the book focuses on MTV as a commercial institution on the contexts of production and exhibition of videos on their similarity to ads and on the different perspectives of directors and viewers. Does the adoption of adolescent styles and iconography signal an open minded acceptance of youth's subversive stances or does it rather suggest a cynicism by which profit has become the only value? In the second part of the book Kaplan turns to the rock videos themselves and from the mass of material that flows through MTV she identifies five distinct types of video: the romantic, the socially conscious, the nihilistic, the classical and the postmodern. There are detailed analyses of certain videos and Kaplan focuses particularly on gender issues in videos by both male and female stars. The final chapter explores the wider implications of MTV. What does the channel tell us about the state of youth culture at the time?
