Police And Social Conflict:

The Police and Social Conflict Nigel Fielding, 2017-09-18 Policing remains one of the most controversial areas of criminal justice. Recent years have seen major changes in every aspect of policing: new constructions of the police mission, new ways of delivering police services and new arrangements for police accountability. The police have had to respond to international terrorism, international organized crime, the new faces of migration and asylum, globalization and the reconstitution of societies in the post Communist and Islamic world. This completely revised second edition argues that through these changes enduring and fundamental divisions can be traced. The book is relevant to those studying criminology, police studies, sociology, social policy and law wherever their interests touch on the police.

The Police and Social Conflict Nigel Fielding, 1991-01-01 Volume two in a series which provides reports on areas of British life conventionally conceived to be conflict laden, assessing the scale and character of the conflict in those areas. The series aims to consider new or little heeded evidence, balancing the claims of different commentators and placing such conflict in its historical and social context, allowing intelligent judgements to be made. It provides prognoses about the likely development of that conflict and ascertains what measures have been taken to manage it and what success they have had, drawing on international experience where helpful.

The Encyclopedia of Police Science William G. Bailey, 1995 The first edition 1989 is cited in ARBA 1990 and the Supplement to Sheehy. A reference that contains signed alphabetical entries which examine all major aspects of American policing and police science including history, current practices, new initiatives, social pressures and political factors. The second edition considerably expands its scope with 70 new entries and revisions and updates of others. In this edition greater emphasis is placed on the coverage of drug abuse suppression, new types of crime, federal mandates for action and international developments that affect American police. Firearms Legislation: (Detroit) June 9 and 10 United States. Congress. House. Committee on the Judiciary. Subcommittee on Crime, 1975 **Radical and Marxist Theories of Crime** Paul B. Stretesky, 2017-03-02 The essays selected for this volume show how radical and Marxist criminology has established itself as an influential critique since it emerged in the late 1960s Unlike orthodox criminology which emphasizes individual level explanations of criminal behavior

radical and Marxist criminology emphasizes power inequality and structures especially those related to class as key factors in crime law and justice This collection of essays draws attention to the way in which structural forces shape and influence both individual and institutional for example governmental behavior highlights neglected crime corporate governmental state corporate and environmental which causes more extensive damage than the street crimes examined by orthodox criminology and discusses the ways in which law and criminal justice processes reinforce power structures and contribute to class control

Policing China Suzanne E. Scoggins, 2021-06-15 In Policing China Suzanne E Scoggins delves into the paradox of China s self projection of a strong security state while having a weak police bureaucracy Assessing the problems of resources enforcement and oversight that beset the police outside of cracking down on political protests Scoggins finds that the central government and the Ministry of Public Security have prioritized stability maintenance weiwen to the detriment of nearly every aspect of policing The result she argues is a hollowed out and ineffective police force that struggles to deal with everyday crime Using interviews with police officers up and down the hierarchy as well as station data news reports and social media postings Scoggins probes the challenges faced by ground level officers and their superiors at the Ministry of Public Security as they attempt to do their jobs in the face of funding limitations reform challenges and structural issues Policing China concludes that despite the social control exerted by China s powerful bureaucracies security failures at the street level have undermined Chinese citizens trust in the legitimacy of the police and the capabilities of the state

The Struggle for Development and Democracy: A General Theory Alessandro Olsaretti, 2023-03-13 In The Struggle for Development and Democracy Alessandro Olsaretti argues that we need significantly new theories of development and democracy to answer the problem posed by neoliberalism and the populist backlash namely uneven development and divisive politics heightened by the 9 11 attacks This volume proposes a general theory of development and democracy as part of a unified theory of power emphasizing that development needs markets civil society and the state and also the proper networks and interactions amongst markets civil society and the state Imperialism

undermines these interactions and turns countries into providers of cheap land or labour This book begins to sketch the mechanisms at work and to answer one question how did imperialist elites build their power All royalties from sales of this volume will go to GiveWell org in honour of Alessandro Olsaretti s memory
