human rights violations through a system of visits to places of detention The Convention is intended to be an integrated part of the Council of Europe system for the protection of human rights placing a proactive non judicial mechanism alongside the reactive judicial mechanism established under the ECHR The Yearbook of the European Convention for the Prevention of Torture offers an essential annual overview of developments in relation to the ECPT Part One contains information on ratifications and other such issues in the authentic English and French texts Part Two has details in English and French of the membership and activities of the Convention Part Three reprints the twentieth annual General Report of the ECPT in the official English and French texts Part Four contains the ECPT s reports to States and the State responses thereto that were made public during the year in question The ECPT s reports are published in the official English and or French texts and State responses in the English and or French versions submitted by the States concerned Bilingual English and French two volume set **Report** Great Britain.
