Policies And Perceptions Of Insurance An Introduction To Insurance Law:

Policies and Perceptions of Insurance Malcolm Alistair Clarke, 1997 Policies and Perceptions of Insurance offers an introduction to insurance contract law in the United Kingdom today Malcolm Clarke provides students with a clear outline of insurance law while alerting them to the social and theoretical issues arising out of the law and practice of insurance The framework for discussion is the tracing of the life of an insurance contract from purchase to claim which is used to summarize settled and satisfactory legal rules but also highlight more controversial matters and invite reflection on the objectives of insurance law and whether these objectives have been achieved Policies and Perceptions of Insurance Law in the Twenty First Century Malcolm Alistair Clarke, 2007 In this book Professor Malcolm Clarke provides a stimulating critical introduction to the English law of insurance contracts presenting the rules in both their legal and socio economic contexts He sets out the principles behind the law in a clear manner moving on to explore the implications of certain rules in order to examine the importance of effective insurance and effective insurance law in modern society Comparative reference is made to the corresponding rules in common law countries and also in major jurisdictions in western Europe providing a thought provoking wider view of the relevant law The book illustrates the different perceptions of insurance and of insurance law that are to be found amongst lawyers insurers and policy holders In particular it argues that the perception of many people and also not least of many judges is that if any dispute arises with insurers insurers have an unfair advantage under the law Moreover this is in fact usually the case if insurers choose to use their advantage By presenting the rules of insurance contract law in the wider context of contract law at large the book seeks to demystify them and to challenge the assumption that insurance law is or ought to be greatly different from other parts of the law In particular he argues that insurance contract law should be available and intelligible to serious enquirers lawyers and non lawyers alike The Financial Services Sourcebook Robert Cunnew, Alison Scammell, 2017-09-29 Provides a first port of call for those seeking information sources in a sector that has undergone tremendous change in recent years Includes information on banks and building societies insurance companies investment funds and pension funds Highlights essential reference works consumer information career guides technical reports official publications market and company research product information and electronic resources Identifies the most appropriate sources and provides assistance in choosing between competing items and provides an overview of significant international sources **Marine Insurance: The Law in Transition** Rhidian Thomas, 2020-11-26 The book examines and analyses in depth the specific issues which are currently occupying the marine insurance markets and the law The London market is currently re examining its practices and international competitiveness and the English case law is growing significantly The issues identified in the book are the fundamental issues on which marine insurance law is based and which are in the process of being re examined and developed further to respond to the needs of modern insurance practice They are of wider interest to insurance law in general and the evolution of English law is

analysed against the backdrop of legal developments in Europe and Scandinavia
