The Mysterious Case of the Victorian Female Detective Sara Lodge, 2024-11-05 A revelatory history of the women who brought Victorian criminals to account and how they became a cultural sensation From Wilkie Collins to the adventures of Sherlock Holmes the traditional image of the Victorian detective is male Few people realise that women detectives

successfully investigated Victorian Britain working both with the police and for private agencies which they sometimes managed themselves Sara Lodge recovers these forgotten women s lives She also reveals the sensational role played by the fantasy female detective in Victorian melodrama and popular fiction enthraling a public who relished the spectacle of a cross dressing fist swinging heroine who got the better of love rats burglars and murderers alike How did the morally ambiguous work of real women detectives sometimes paid to betray their fellow women compare with the exploits of their fictional counterparts who always save the day Lodge s book takes us into the murky underworld of Victorian society on both sides of the Atlantic revealing the female detective as both an unacknowledged labourer and a feminist icon **Invisible Men**

Joanne Klein,2010-01-01 TThis book provides a comprehensive study of English police constables walking the beat in the early part of the twentieth century Joanne Klein has mined a rich seam of archival evidence to present a fascinating insight into the everyday lives of these working class men The book explores how constables influenced law enforcement and looks at the changing nature of policing during this period *A Certain Share of Low Cunning* David J. Cox,2010-02 This book provides an account and analysis of the history of the Bow Street Runners precursors of today s police force Through a detailed analysis of a wide range of both qualitative and quantitative research data this book provides a fresh insight into their history arguing that the use of Bow Street personnel in provincially instigated cases was much more common than has been assumed by many historians It also demonstrates that the range of activities carried out by Bow Street personnel whilst employed on such cases was far more complex than can be gleaned from the majority of books and articles concerning early nineteenth century provincial policing which often do little more than touch on the role of Bow Street By describing the various roles and activities of the Bow Street Principal Officers with specific regard to cases originating in the provinces it also places them firmly within the wider contexts of provincial law enforcement and policing history The book investigates the types of case in which the Runners were involved who employed them and why how they operated including their interaction with local law enforcement bodies and how they were perceived by those who utilized their services It also discusses the legacy of the Principal Officers with regard to subsequent developments within policing Bow Street Police Office and its personnel have long been regarded by many historians as little more than a discrete and often inconsequential footnote to the history of policing leading to a partial and incomplete understanding of their work This viewpoint is challenged in this book which argues that in several ways the utilization of Principal Officers in provincially instigated cases paved the way for important subsequent developments in policing especially with regard to detective practices It is also the first work to provide a clear distinction between the Principal Officers and their less senior colleagues The Gangs of Birmingham Philip Gooderson, In the early 1870s the boomtown of Birmingham erupted in a series of vicious gang wars Mobs of youths armed with stones knives and belt buckles fought pitched battles in a struggle for territorial supremacy Known as sloggers they drew their numbers from the workshops and factories that made guns nails and jewellery and lived

cheek by jowl in overcrowded insanitary slums Author Philip Gooderson traces the history of these warring factions from their first appearance in the Cheapside area to the later rise of the peaky blinders new gangs named for their peaked caps and long fringes He describes for the first time the brutal antics of once infamous fighters such as the Simpson and Harper brothers and the police killer George Cloggy Williams and explains the eventual demise of the gangs at the turn of the century The Gangs of Birmingham brings to vivid life a forgotten chapter in the history of British gangland Journal of the Police History Society No. 20 2005 Chris Forester,2005-09-01 Bedfordshire Mounted Policemen Mick Madigan Hats off for McHardy Dave Conner Police Money Richard H Hardy Major Farran a Murky Tale of Murder and Terrorism Robert Bartlett Notes on Some Gallant Victorian Policemen Paul Dew Are the Blue Boys the Original Boys in Blue Peter Williams An Unknown Police Officer Fred Feather To the Mountains and Back Adventures in Nyasaland Richard Ford We Didn t Do Trauma Stephen Wade The 1901 Birmingham Town Hall Riot Geoffrey Floy The Riot at Chipping Norton 1845 Len Woodley Copping It on Wartime Roads Roy Ingleton A Compleate Historie of Ye Police Peter Rowe **Tracing Your Police Ancestors** Stephen Wade,2009-04-21 Tracing Your Police Ancestors will help you locate and research officers who served in any of the police forces of England and Wales from the creation of the Metropolitan Police by Sir Robert Peel in 1829 Assuming that the reader has no prior knowledge of how or where to look for such information Stephen Wade explains and describes the various archives and records and provides a discussion of other sources Case studies are used to show how an individual officers career may be traced and understood from this research He also explains the range of secondary sources open to the family or local historian many of which offer a broader account of the social and cultural history of the British police forces How Countries Count Crime John A. Eterno,Arvind Verma,Eli B. Silverman,2022-09-30 This edited collection illuminates the weaknesses and strengths of crime reporting across a wide range of countries with a focus on democratic countries in which the police bear some accountability to citizens In one compendium for the first time this book documents how different countries record or fail to record crimes With chapters written by native authors who are experts on the practices of their respective countries the book explores practices in 15 different countries across the globe Organized with a parallel country by country approach the book describes and analyzes methods police use to record crimes with the awareness that the counting of crimes is not only an issue of empirical measurement but also one of social construction Crime reporting practices vary widely by country In some cases reports are not taken and in others reports are carefully based on preliminary investigations Willful manipulation of crime reports can and does occur and the book explores related factors such as political pressure personal ambition community safety and more Discussion questions at the end of each chapter help the reader evaluate the significant issues influencing each country The editors conclude by suggesting best practices for crime reporting and the collection of crime data A unique addition to this book is a foreword by Tofiq Murshudlu the Head of Drugs and Crime for the United Nations in Vienna The book is intended for a wide range of audiences including

policing scholars law enforcement and community leaders and students of criminal justice **Royal Irish Constabulary Officers** Jim Herlihy, 2005 This book lists the 1700 officers of the RIC including birth marriage and death dates the native county service if any in the British army yeomanry and militia dates of appointment and retirement resignation discharge or dismissal and a list of officers who later served as lawmen elsewhere **The British National Bibliography** Arthur James Wells, 1992 **Edgbaston** T.
