Bombardment, Public Safety and Resilience in English Coastal Communities during the First World War Michael Reeve, 2022-01-01 This book makes the case for a unique coastal urban experience of war on the home front during the First World War focusing on case studies from the north east of England The use of case studies from this region problematises an often assumed national or generalised experience of civilian life during the war by shifting the frame of analysis away from the metropolis This book begins with chapters related to wartime resilience including analysis of pre war fear of invasion and bombardment and government policy on public safety It then moves on to a discussion of power relations and the local implementation of policy related to bombardment including policing Finally the book explores the coastal urban environment focusing on depictions of war damage in popular culture and the wartime and post war commemoration of civilian bombardment This work provides a multi faceted perspective on civilian resilience while responding to a recent call for new histories of the coastal zone

police in Western Europe and considers how police functions have changed over time Each contributor looks at the experience of one country while having regard to the practices of the other countries The role of the police in maintaining public order had become increasingly important in the early 1980s The activities of terrorists from both Left and Right in Italy Spain and West Germany and the IRA in Great Britain had long been a focus of attention However in many ways a more disturbing phenomenon was the increase in the general level of popular unrest which had produced considerable rioting and looting in British cities as well as often violent confrontation between the police and an increasing range of protesters in other European countries These events received wide media coverage at the time and the issue of public order was one of growing concern for governments the police and the public The role of the police in Western Europe was now firmly political

Policing European Metropolises Elke Devroe, Adam Edwards, Paul Ponsaers, 2017-02-03 Understanding the politics of security in city regions is increasingly important for the study of contemporary policing This book argues that national and international governing arrangements are being outflanked by various transnational threats including the cross border terrorism of the attacks on Paris in 2015 and Brussels in 2016 trafficking in people narcotics and armaments cybercrime the deregulation of global financial services and environmental crime Metropolises are the focal points of the transnational networks through which policing problems are exported and imported across national borders as they provide much of the demand for illicit markets and are the principal engines generating other policing challenges including political protest and civil unrest This edited collection examines whether and how governing arrangements rooted in older systems of national sovereignty are adapting to these transnational challenges and considers problems of and for policing in city regions in the European Union and its single market Bringing together experts from across the continent Policing European Metropolises develops a sociology of urban policing in Europe and a unique methodology for comparing the experiences of different metropolises in the same country This book will be of value to police researchers in Europe and abroad as well as postgraduate students with an interest in policing and urban policy
