Policing And Conflict In Northern Ireland:

Policing and Conflict in Northern Ireland J. Wright,K. Bryett,2015-12-22 In societies suffering from acute political and social cleavage policing agencies are invariably at the heart of the conflict resolution processes In Northern Ireland there have been calls for the RUC to be disbanded as well as for it to be retained unchanged After considering various options and models especially from Spain South Africa and the Netherlands this book charts a path for reform that takes account of Northern Ireland s political realities and will help build trust and inclusions **Policing Northern Ireland** Aogan Mulcahy,2013-06-17 This book provides an account and analysis of policing in Northern Ireland providing an account and analysis of the RUC Royal Ulster Constabulary from the start of the troubles in the 1960s to the early 1990s through the uneasy peace that followed the 1994 paramilitary ceasefires 1994 1998 and then its transformation into the Police Service of Northern Ireland following the 1999 Patten Report A major concern is with the reform process and the way that the RUC has faced and sought to remedy a situation where it faced a chronic legitimacy deficit Policing Northern Ireland focuses on three key aspects of the police legitimation process reform measures which are implemented to redress a legitimacy crisis representational strategies which are invoked to offer positive images of policing and public responses to these various strategies Several key questions are asked about the ways in which the RUC has sought to improve its standing amongst nationalists first what strategies of reform has the RUC implemented second what forms of representation has the RUC employed to promote and portray itself in the positive terms that might secure public support third how have nationalists responded to these initiatives The theoretical framework and analysis developed in the book also highlights general issues relating to the implications of police legitimacy and illegitimacy for social conflict and divisions and their management and or resolution in relation to transitional societies in particular In doing so it makes a powerful contribution to wider current debates about police legitimacy police community relations community resistance and conflict resolution **Policing and Combating Terrorism in Northern Ireland** Neil Southern,2018-04-12 This book explores the challenges of combating terrorism from a policing perspective using the example of the Royal Ulster Constabulary GC RUC in Northern Ireland The RUC was in the frontline of counter terrorism work for thirty years of conflict during which time it also provided a normal policing service to the public However combating a protracted and vicious terrorist campaign exacted a heaving price on the force Importantly the book addresses a seriously under researched theme in terrorism studies namely the impact of terrorism on members of the security forces Accordingly the book examines how officers have been affected by the conflict as terrorists adopted a strategy which targeted them both on and off duty This resulted in a high percentage of officers being killed whilst off duty sometimes in the company of their wives and children The experience of officers wives is also documented thus highlighting the familial impact of terrorism Generally speaking the victims of terrorist attacks have received scant scholarly attention which has resulted in victims experiences being little understood This piece of work casts a specific and unique

light on the nature of victimhood as it has been experienced by members of this branch of the security forces in Northern Ireland **Policing and Conflict in Northern Ireland** J. Wright,2000-11-03 In societies suffering from acute political and social cleavage policing agencies are invariably at the heart of the conflict resolution processes In Northern Ireland there have been calls for the RUC to be disbanded as well as for it to be retained unchanged After considering various options and models especially from Spain South Africa and the Netherlands this book charts a path for reform that takes account of Northern Ireland s political realities and will help build trust and inclusions **Democratic Policing in Transitional and Developing Countries** Michael D. Wiatrowski,2016-05-13 Is it possible to create democratic forms of policing in transitional and developing societies This volume argues that policing models and practices promoted by the west are often inadequate for adoption by countries making democratic transitions because they do not adequately address issues such as human rights equity co production accountability openness and organizational change Therefore police reform is often limited to a one size fits all approach The book expands the dialogue so that discussions of democratic policing around the world are more realistic comprehensive and sensitive to the local context Detailed case studies on Iraq South Africa Northern Ireland and Kazakhstan provide a realistic assessment of the current state of policing The editors use the studies to suggest how to promote democratic policing and other important goals of democratic reform around the world The volume will assist academics policy makers NGOs and others in tailoring a local democratic policing strategy within a broader framework to enhance socioeconomic development and citizen capacity build social capital reduce various forms of conflict and support human rights **The Need for New and Acceptable Policy in Northern Ireland** United States. Congress. House. W. Saunders,2023-03-31 This monograph provides the first sustained chronological account of Northern Irish police officers representation in theatre Importantly its scope comprises a critical period of national and organisational development beginning with the Partition of Ireland in 1921 and the founding of the Royal Ulster Constabulary RUC one year later in 1922 It progresses through the relevant theatrical and historical events of the century through the period after the RUC s dissolution and replacement with the Police Service of Northern Ireland PSNI in 2001 and concludes in 2021 to coincide with the centenary of Partition As such this project is distinctive in its ability to trace paradigm shifts in perceptions of the police over time as they intersect with relevant historical events and milestones of political conflict in the province   **Community Policing in Indigenous Communities** Mahesh K. Nalla,Graeme R. Newman,2013-03-04 Indigenous communities are typically those that challenge the laws of the nation states of which they have become often very reluctantly a part Around the world community policing has emerged in many of these regions as a product of their physical environments and cultures Through a series of case studies Community Policing in Indigenous Communities explores how these often deeply divided societies operate under the community policing paradigm Drawing on the local expertise of policing practitioners and

researchers across the globe the book explores several themes with regard to each region How community policing originated or evolved in the community and how it has changed over time The type of policing style used whether informal or formal and uniformed or non uniformed whether partnerships are developed with local community organizations or businesses and the extent of covert operations if any The role played by community policing in the region including the relative emphasis of calls for service the extent to which advice and help is offered to citizens whether local records are kept of citizen movement and locations and investigation and arrest procedures The community s special cultural or indigenous attributes that set it apart from other models of community policing Organizational attributes including status in the hierarchy of control within the regional or national organization of policing The positive and negative features of community policing as it is practiced in the community Its effectiveness in reducing and or preventing crime and disorder The book demonstrates that community policing cannot be imposed from above without grassroots input from local citizens It is a strategy not simply for policing with consent but for policing in contexts where there is often little if any consent It is an aspirational practice aimed to help police and communities within contested contexts to recognize that positive gains can be made enabling communities to live in relative safety **Accountability of Policing** Stuart Lister,Michael Rowe,2015-07-30 Accountability of Policing provides a contemporary and wide ranging examination of the accountability and governance of police and policing Debates about who guards the guards are among the oldest and most protracted in the history of democracy but over the last decade we have witnessed important changes in how policing and security agencies are governed regulated and held to account Against a backdrop of increasing complexity in the local national and transnational landscapes of policing political legal administrative and technological developments have served to alter regimes of accountability The extent and pace of these changes raises a pressing need for ongoing academic research analysis and debate Bringing together contributions from a range of leading scholars this book offers an authoritative and comprehensive analysis of the shifting themes of accountability within policing The contributions explore questions of accountability across a range of dimensions including those individuals and institutions responsible for its delivery within and between the public and private sectors and at local national and transnational scales of jurisdiction They also engage with the concept of accountability in a broad sense bringing to the surface the various meanings that have become associated with it and demonstrating how it is invoked and interpreted in different contexts Accountability of Policing is essential reading for academics and students involved in the study of policing criminal justice and criminology and will also be of great interest to practitioners and policymakers **Equality and Diversity in Policing** Brian Stout,2010-05-10 Equality and Diversity is a key theme on all policing degree courses The book starts by contextualising equality and diversity within the legislative and policy framework It then examines the recent historical context by outlining some of the difficulties and criticisms that the police have faced in dealing with matters of equality and diversity It considers diversity not only in terms of how the police

relate to the general public but also how diversity issues impact on police careers and occupational culture **Human Security** David Andersen-Rodgers,Kerry F. Crawford,2022-09-12 Human security refers in its broadest sense to the protection of individuals from harm Human Security Theory and Action explores the theory and application of concepts central to this notion of security It examines the conceptual roots of human security connecting its origins to its applications and challenges in war and peacetime With a unique focus on the evolving notion of responsibility for security the text introduces the critical questions and priorities that underpin policies and actions The text is organized around four sections The introduction offers an overview of human security and its basic tenets and historical foundations The second section focuses on human security in armed conflict and post conflict reconstruction discussing such issues as the doctrine of Responsibility to Protect racial inequality peacekeeping and peace negotiation processes and humanitarian assistance The third section identifies the long term issues that are necessary for a durable human security including human rights food security poverty gender equality health security and environmental sustainability The final section applies the concepts introduced in the book to twenty first century concerns and offers insights on turning theory into action Integrated into the text are many case studies to broaden the student s awareness beyond the conflicts and issues that dominate the media By balancing theoretical explanations with concrete illustrative cases both historical and contemporary the text provides intellectually challenging and intrinsically interesting material and offers a unique comprehensive introduction human security in war and peace The second edition of Human Security Theory and Action examines the conceptual roots of human security connecting its origins to its application in a time of conflict inequality environmental stress and the aftermath of a global pandemic **Policing Citizens** P.A.J. Waddington,2002-11-01 This analysis of policing throughout the modern world demonstrates how many of the contentious issues surrounding the police in recent years from paramilitarism to community policing have their origins in the fundamentals of the police role The author argues that this results from a fundamental tension within this role In liberal democratic societies police are custodians of the state s monopoly of legitimate force yet they also wield authority over citizens who have their own set of rights **The Future of Policing** Jennifer M. Brown,2013-10-08 The police service in England and Wales is facing major challenges in its financing political oversight and reorganisation of its structures Current economic conditions have created a wholly new environment whereby cost saving is permitting hitherto unthinkable changes in the style and means of delivery of policing services In the context of these proposed changes Lord Stevens formerly Commissioner of the Metropolitan Police Service was asked to chair an Independent Commission looking into the future of policing The Commission has a wide ranging remit and the papers in this book offer up to date analysis of contemporary problems from the novel perspective of developing a reform agenda to assist the Commission Bringing together contributions from both key academic thinkers and police professionals this book discusses new policing paradigms lays out a case for an evidence based practice approach and draws attention to developing

areas such as terrorism public order and hate crime Policing is too important to be left to politicians as the health of a democracy may be judged by the relationship between the police and the public The aim of this book is to question and present analyses of problems offer new ideas and propose realistically achievable solutions without being so timid as to preserve the status quo It will be of interest to both academics and students in the fields of criminology and policing studies as well as professionals in the policing service NGOs and local authority organisations **Policing European Metropolises** Elke Devroe,Adam Edwards,Paul Ponsaers,2017-02-03 Understanding the politics of security in city regions is increasingly important for the study of contemporary policing This book argues that national and international governing arrangements are being outflanked by various transnational threats including the cross border terrorism of the attacks on Paris in 2015 and Brussels in 2016 trafficking in people narcotics and armaments cybercrime the deregulation of global financial services and environmental crime Metropolises are the focal points of the transnational networks through which policing problems are exported and imported across national borders as they provide much of the demand for illicit markets and are the principal engines generating other policing challenges including political protest and civil unrest This edited collection examines whether and how governing arrangements rooted in older systems of national sovereignty are adapting to these transnational challenges and considers problems of and for policing in city regions in the European Union and its single market Bringing together experts from across the continent Policing European Metropolises develops a sociology of urban policing in Europe and a unique methodology for comparing the experiences of different metropolises in the same country This book will be of value to police researchers in Europe and abroad as well as postgraduate students with an interest in policing and urban policy **The Routledge International Handbook of Criminology and Human Rights** Leanne Weber,Elaine Fishwick,Marinella Marmo,2016-08-25 The Routledge International Handbook of Criminology and Human Rights brings together a diverse body of work from around the globe and across a wide range of criminological topics and perspectives united by its critical application of human rights law and principles This collection explores the interdisciplinary reach of criminology and is the first of its kind to link criminology and human rights This text is divided into six sections each with an introduction and an overview provided by one of the editors The opening section makes an assessment of the current standing of human rights within the discipline Each of the remaining sections corresponds to a substantive area of harm prevention and social control which together make up the main core of contemporary criminology namely criminal law in practice transitional justice peacemaking and community safety policing in all its guises traditional and emerging approaches to criminal justice and penality both within and beyond the prison This Handbook forms an authoritative foundation on which future teaching and research about human rights and criminology can be built This multi disciplinary text is an essential companion for criminologists sociologists legal scholars and political scientists
