Policing South Africa The Sap And The Transition From Apartheid:

Police Integrity in South Africa Sanja Kutnjak Ivkovich, Adri Sauerman, 2020-04-29 Policing in South Africa has gained notoriety through its extensive history of oppressive law enforcement. In 1994 as the country's apartheid system was replaced with a democratic order, the new government faced the significant challenge of transforming the South African police force into a democratic police agency, the South African Police Service (SAPS), that would provide unbiased policing to all the country's people. More than two decades since the initiation of the reforms, it appears that the SAPS has rapidly developed a reputation as a police agency beset by challenges to its integrity. This book offers a unique perspective by providing in-depth analyses of police integrity in South Africa. It is a case study that systematically and empirically explores the contours of police integrity in a young democracy. Using the organizational theory of police integrity, the book analyzes the complex set of historical, legal, political, social, and economic circumstances shaping police integrity. A discussion of the theoretical framework is accompanied by the results of a nationwide survey of nearly 900 SAPS officers probing their familiarity with official rules, their expectations of discipline within the SAPS, and their willingness to report misconduct. The book also examines the influence of the respondents' race, gender, and supervisory status on police integrity. Written in a clear and direct style, this book will appeal to students and scholars of criminology, policing, sociology, political science, as well as to police administrators interested in expanding their knowledge about police integrity and enhancing it in their organizations.

Migration and National Identity in South Africa, 1860-2010 Audie Klotz, 2013-09-16 An extraordinary outbreak of xenophobic violence in May 2008 shocked South Africa, but hostility toward newcomers has a long history. Democratization has channeled such discontent into a non-racial nationalism that specifically targets foreign Africans as a threat to prosperity. Finding suitable governmental and societal responses requires a better understanding of the complex legacies of segregation that underpin current immigration policies and practices. Unfortunately, conventional wisdoms of path dependency promote excessive fatalism and ignore how much South Africa is a typical settler state. A century ago, its policy makers shared innovative ideas with Australia and Canada, and these peers, which now openly wrestle with their own racist past, merit renewed attention. As unpalatable as the comparison might be to contemporary advocates of multiculturalism, rethinking restrictions in South Africa can also offer lessons for reconciling competing claims of indigeneity through multiple levels of representation and rights.

Culture, Organization, and Management in South Africa Marja Spierenburg, Harry Wels, 2006 South Africa is celebrating its first decade of democratic freedom. It therefore seems appropriate to examine in more detail how South Africa has tried to restore some of the many social injustices caused by the former apartheid regime. This book offers a view into the world of organization and management from a cultural perspective. The authors investigate how initiatives and policies with the aim of generating more employment equity have been developed, implemented, and have worked out in various sectors of the South African economy. The various chapters present in-depth case studies that deal with

the South African government local NGOs universities and tourism The book reveals in detail the local struggles of the historically disadvantaged and the powers that be to try and live up to the ideals of the New South Africa **Sex and Nation in Transatlantic Literatures** Agata Szczeszak-Brewer, 2025-06-12 Nationalist and tribal cohesion in Ireland South Africa the US and elsewhere often relies on an absence of female and gender nonconforming bodies in the public life Staging a vital counter narrative to global nationalist discourses this book explores how 20th and 21st century postcolonial literatures criticize hetero normative definitions of nationhood across different geopolitical and cultural contexts Szczeszak Brewer delves into the metaphorical currency of male impotence and sexual aggression in nationalist narratives She examines the place of gender nonconforming characters in literature from Ireland the US Poland France Britain South Africa and Senegal in the work of writers including James Joyce Witold Gombrowicz Jean Toomer Bessie Head Zo Wicomb J M Coetzee Andrea Levy Patrick McCabe and David Diop Aligning queer and gender perspectives with discussions of white supremacy this book examines the urgency for contemporary geopolitics to imagine new discourses of community against the backdrop of a rise in neo nationalisms steeped in homophobic and misogynistic rhetoric **Defensive Restructuring of the Armed Forces in Southern Africa** Bjørn Møller, Gavin Cawthra, 2019-01-15 Published in 1997 the work explores the reorientation of security policies and the accompanying restructuring of the armed forces going on in Southern Africa under entirely new circumstances Democracy has come to South Africa the civil wars in Angola and Mozambique have ended and the region is establishing a regional framework for cooperation While covering the entire region a special focus is placed on South Africa which is predestined to play a leading role but which is struggling with the legacy of the apartheid regime and its repeated aggressions against neighbouring states A defensive restructuring of the South African of the South African military is an element in the building of mutual trust The implications of such defensive restructuring to a non offensive defence are described in detail In addition to the analytical contribution the work also contains central documents and a bibliography

Security Sector Reform in Constitutional Transitions Zoltan Barany, Sumit Bisarya, Sujit Choudhry, Richard Stacey, 2019-09-19 Security sector reform SSR is central to the democratic transitions currently unfolding across the globe as a diverse range of countries grapple with how to transform militias tribal forces and dominant military police and intelligence agencies into democratically controlled and accountable security services SSR will be a key element in shifts from authoritarian to democratic rule for the foreseeable future since abuse of the security sector is a central technique of autocratic government This edited collection advances solutions through a selection of case studies from around the world that cover a wide range of contexts **Violence and Non-Violence in Africa** Pal Ahluwalia, Louise Bethlehem, Ruth Ginio, 2007-03-12 This unique volume seeks both to historicize and to deconstruct the pervasive almost ritualistic association of Africa with forms of terrorism as well as extreme violence the latter bordering on and including genocide Africa is tendentiously associated with violence in the popular and academic imagination alike Written by leading authorities in

postcolonial studies and African history as well as highly promising emergent scholars this book highlights political social and cultural processes in Africa which incite violence or which facilitate its negotiation or negation through non violent social practice The chapters cover diverse historical periods ranging from fourteenth century Ethiopia and early twentieth century Cameroon to contemporary analyses set in Kenya Tanzania Nigeria Cameroon the Ivory Coast and South Africa It makes a crucial contribution to a revitalized understanding of the social and historical coordinates of violence or its absence in African settings Violence and Non Violence in Africa will be of interest to students and scholars of African history and anthropology colonialism and post colonialism political science and Africanist cultural studies **Protection of Children**

During Armed Political Conflict Charles W. Greenbaum, Philip E. Veerman, Naomi Bacon-Shnoor, 2006 This volume attempts to examine the issue of prevention of violence to children in violent political conflicts from a multidisciplinary perspective that includes international law developmental psychology education communications and police science While this volume concentrates mainly on the Israeli Palestinian conflict it also presents the experience of others in different parts of the world who have coped successfully with prevention of violence to civilian populations and particularly to children The editors aim to engage military and police communities world wide and especially in our society Israel in a dialogue concerning the most effective ways to abide by international conventions of human rights and childrens rights to which Israeli society is committed The volume reports on practical methods to save the lives of civilians and children in political conflicts that have been tried and which serve to protect children *Police Abuse in Contemporary Democracies* Michelle D.

Bonner, Guillermina Seri, Mary Rose Kubal, Michael Kempa, 2018-03-28 This volume offers a much needed analysis of police abuse and its implications for our understanding of democracy Sometimes referred to as police violence or police repression police abuse occurs in all democracies It is not an exception or a stage of democratization It is this volume argues a structural and conceptual dimension of extant democracies The book draws our attention to how including the study of policing into our analyses strengthens our understanding of democracy including the persistence of hybrid democracy and the decline of democracy To this end the book examines three key dimensions of democracy citizenship accountability and socioeconomic in equality Drawing from political theory comparative politics and political economy the book explores cases from France the US India Argentina Chile South Africa Brazil and Canada and reveals how integrating police abuse can contribute to a more robust study of democracy and government in general Social Problems, Law, and Society Kathryn A. Stout, Richard A. Dello Buono, William J. Chambliss, 2004-07-14 This volume represents a critical issue oriented approach to law and society emphasizing its important relationship to contemporary social problems Various empirical studies within the text explore the contradictory dynamics of class as they relate to race and gender in both a national and global context illustrating the dialectical interplay between the state and social movements in the context of the larger political economy

Crime and Modernity John Lea, 2002-07-25 Lea has produced a serious and scholarly contribution of great interest to

criminologists whether critical or not to post graduates as well as the more advanced undergraduate This is a book that is well written absorbing thoughtful and thought provoking The British Journal of Criminology Crime control is in crisis Not only have levels of crime risen but more important crime is increasingly regarded as a normal aspect of the social and economic system rather than disruption or deviance The blurring boundaries between the criminal and the normal are evident in a number of areas from the activities of multinational corporations to the life of the inner city In this book John Lea develops a broad historical and sociological overview relating the rise and fall of effective crime control to different types of social structures It traces the process of modernisation and industrialisation from the eighteenth to the mid twentieth centuries which established the social preconditions for effective control and management of criminality In the early years of the present century it is clear that these preconditions are now being progressively undermined as industrial society undergoes profound changes in its direction of development The result is traced through a variety of types of criminality and the progressive debilitation of existing institutions and processes of crime control A major feature of this book is its wide scope and imaginative application of historical and theoretical perspectives on modernisation and capitalist social development to the contemporary problems of controlling a wide variety of crime It represents a significant contribution to the ability of criminology and the sociology of crime to confront the dilemmas and controversies of the twenty first century

Race & Crime Michael Rowe, 2012-05-15 In this original and cutting edge new textbook Mike Rowe explores the key topics in race and crime Examining the main issues from a historical and comparative approach the book fully situates arguments and ideas in a global context with contemporary examples Encouraging readers to think critically about well worn debates Race Crime covers a diverse range of issues including Representation and disproportionality Victimisation Human Rights Terrorism Popular culture Governance

Internal Security Services in Liberalizing States Joseph L. Derdzinski, 2009 Among the states that have moved from authoritarianism in the past 15 years most have not moved beyond the mere procedures of democracy This excellent scholarly resource provides a comparative account of the internal security situations of Morocco and Indonesia and focuses on democracy and its non democratic institutions in an era of stalled liberalization

Constitutional Triumphs, Constitutional Disappointments Rosalind Dixon, Theunis Roux, 2018-04-19 The 1996 South African Constitution was promulgated on 18th December 1996 and came into effect on 4th February 1997 Its aspirational provisions promised to transform South Africa's economy and society along non racial and egalitarian lines Following the twentieth anniversary of its enactment this book co edited by Rosalind Dixon and Theunis Roux examines the triumphs and disappointments of the Constitution It explains the arguments in favor of the Constitution being replaced with a more authentically African document untainted by the necessity to compromise with ruling interests predominant at the end of apartheid Others believe it remains a landmark attempt to create a society based on social economic and political rights for all citizens and that its true implementation has yet to be achieved This volume considers whether the problems South

Africa now faces are of constitutional design or implementation and analyses the Constitution's external influence on constitutionalism in other parts of the world

Liberation, 1994 *Civilians at War* Gunner Lind, 2014

Det er en udbredt antagelse at krig skaber to slags mennesker soldater og civile Men har historien ikke vist os at denne forsimplede antagelse er smertelig uklar *Civilians at War* behandler en række spørgsmål der knytter sig til de mennesker hvorpå en krigs sociale grupperinger og særligt de grupper som fordrer aktiv deltagelse tager sig ud i forskellige historiske og geografiske sammenhænge Ved hjælp af casestudier fra Europa Afrika og Sydamerika fra det 15. århundrede til nutiden belyser antologiens bidragydere den traditionelle modsætning mellem civil og soldat og tilbyder herigennem nye forståelser af den komplekse mellemposition civile befinder sig i under krig

We often think of war as creating two different kinds of people soldiers and civilians But hasn't history taught us that this distinction is painfully nebulous The contributors to this volume writing from different disciplinary vantages address a number of important issues connected to the ways in which the social distinctions and divisions surrounding war especially those that determine participation play out across different historical and geographical settings Contextualizing the dichotomy of civilian and combatant against these larger complexities this book offers a new understanding of the problematic middle ground that civilians occupy during wartime

Science and Society in Southern Africa Saul Dubow, 2000

This collection dealing with case studies drawn from South Africa Zimbabwe Mozambique and Mauritius examines the relationship between scientific claims and practices on the one hand and the exercise of colonial power on the other It challenges conventional views that portray science as a detached mode of reasoning with the capacity to confer benefits in a more or less even handed manner That science has the potential to further the collective good is not fundamentally at issue but science can
