

PEACE IN FOREIGN POLICY

Peace nations in times of crisis

Merel Selleslach & Maarten Van Alstein

EXECUTIVE SUMMARY

This analysis looks at how different states (Norway, Sweden, and Switzerland) and sub-state regions (Catalonia, Emilia-Romagna, Flanders, Hessen, North Rhine-Westphalia, and Wales) in Europe developed a peace orientation in their foreign policy. It also examines how the war in Ukraine has impacted these approaches.

Confronted with shifting foreign policy priorities, the analysis explores novel pathways for shaping peace policy in Europe. Initially, it delineates how a robust historical national identity can serve as both inspiration and a foundation for a credible peace policy. Additionally, by exploring peace through various lenses and augmenting it with descriptive adjectives, it provides guidance to make peace tangible for policy practice. Drawing upon diverse adjectives such as agonistic, environmental, local, feminist, and multilateral peace, the analysis identifies a broad spectrum of policy domains and levels that can contribute to peace. This fosters a collective responsibility across all policy fields, transcending beyond foreign, security, and defence policies.

Furthermore, the analysis elaborates on how peace isn't merely a value to be projected but a relationship to be actively practiced. Engaging in the promotion of peace within foreign policy inevitably generates tensions. To mitigate the risk of subsequent erosion of legitimacy and trust, the analysis argues, governments should maintain transparency regarding the dilemmas and tensions inherent in their policies.

Peace and Rural Development in Colombia Andrés García Trujillo, 2020-09-24 In *Peace and Rural Development in Colombia* Andrés García Trujillo investigates whether peace agreements geared toward terminating internal armed conflicts trigger rural distributive changes Combining academic rigor with an insider's perspective García Trujillo shows that the peace agreement in Colombia opened an exceptional window for addressing rural inequality Yet despite some progress he argues that the agreement's leverage to stir change was severely constrained by opposing actors within and outside the government García Trujillo later applies the framework developed for the Colombian case to explain key dynamics of other post conflict societies that have dealt with agrarian issues under a transitional context like El Salvador or South Africa The original theoretical framework and empirically rich analysis make *Peace and Rural Development in Colombia* an indispensable read for scholars and practitioners who wish to gain an understanding on the political economy of peacemaking policy change and rural development in Colombia and beyond **PEACE STUDIES, PUBLIC POLICY AND GLOBAL SECURITY - Volume VII** Ursula Oswald Spring, Ada Aharoni, Ralph V. Public Opinion and Lord Beaconsfield, 1875-1880 George Carslake Thompson,1886 Power, Terror, Peace, and War Walter Russell Mead,2007-12-18 International affairs expert and award winning author of Special Providence Walter Russell Mead here offers a remarkably clear eyed account of American foreign policy and the challenges it faces post September 11 Starting with what America represents to the world community Mead argues that throughout its history it has been guided by a coherent set of foreign policy objectives He places the record of the Bush administration in the context of America s historical relations with its allies and foes And he takes a hard look at the international scene from despair and decay in the Arab world to tumult in Africa and Asia and lays out a brilliant framework for tailoring America s grand strategy to our current and future threats Balanced persuasive and eminently sensible Power Terror Peace and War is a work of extraordinary significance on the role of the United States in the world today **War, Peace and the Military** Franz Kernic,2023-03-17 This book is a comprehensive analysis of the various social science approaches to explaining and interpreting war peace and the military Its central aim is to trace and reconstruct those basic assumptions constructed and thought processes undertaken by modern social sciences in their research and conceptualization of military violence and the use of force In addition to such reconstruction the aim is also to enquire into the preconditions of such thought This study therefore eschews the development of an explicit strategy in the sense of a research strategy but instead is much more concerned with thinking about its subject matter by means of re thinking and reflecting upon different theoretical approaches and problems The investigation includes a critical reexamination of the tradition of military sociological research from the beginning of modern sociology to late twentieth century theoretical approaches regarding the security focused and or war driven aspects of modern society Debates.
