Chari, Sylvia Kritzinger, 2006-08-20 EU policy shapes all areas of our lives from our money to our food to our welfare Yet we know little about how EU decisions are made and who benefits from them This book is a critical guide to the policies of the EU Raj Chari and Sylvia Kritzinger argue that there is an agenda that underlies EU policy making Some policies those that aim to create a competitive economy are prioritised while others are effectively ignored Setting the EU in a proper economic and theoretical context the authors analyse each of the EU's major policy areas Arguing that traditional accounts of EU integration are inadequate the authors develop an innovative new perspective      *Policy Styles and Policy-Making* Michael Howlett, Jale Tosun, 2018-10-26 Richardson et al's respected and seminal *Policy Styles in Western Europe* 1982 shed valuable light on how countries tend to establish long term and distinctive ways to make policies that transcend short term imperatives and issues This follow up volume updates those arguments and significantly expands the coverage consisting of 16 carefully selected country level case studies from around the world Furthermore it includes different types of political regimes and developmental levels to test more widely the robustness of the patterns and variables highlighted in the original book The case studies covering countries from the United States Canada Germany and the UK to Russia Togo and Vietnam follow a uniform structure combining theoretical considerations and the presentation of empirical material to reveal how the distinct cultural and institutional features of modern states continue to have implications for the making and implementation of public policy decisions within them The book is essential reading for students and scholars of public policy public administration comparative politics and development studies      Policy-making in the European Union Helen Wallace, Mark A. Pollack, Alasdair R.
