Combat Biplanes of World War II Peter C. Smith, 2015-09-30 Aviation and maritime historian Peter C Smith reveals how both Allied and Axis powers used World War I era aircraft in Combat Biplanes of World War II The era of the combat biplane is usually thought to have been between 1914 and 1938 By the outbreak of World War II most of the advanced air forces of the world had moved on to monoplane aircraft for their front line battle forces both in bomber and fighter capacities Yet despite this many biplanes did still survive both in front line service and in numerous subsidiary roles and not just as training machines but as fully operational warplanes Thus in 1939 the majority of major European powers still retained some albeit few biplane aircraft Great Britain had the bulk of such obsolescent machines including the Gladiator Swordfish Walrus Vildebeeste and Audax while the inferior Albacore meant to replace the Swordfish had yet to enter service Germany still managed to conduct missions in which biplanes like the He 50 He 51 and Hs 120 excelled Both France and Italy had active biplanes Mussolini's Regia Aeronautica attaching great importance to the type as a fighter aircraft as late as 1941 while the Soviet Union also retained some machines like the Po 2 in front line service right through the war and beyond By the time Japan and the United States entered the war two years later they had mainly rid themselves of biplanes but even here a few specialized types lingered on

Combat Biplanes of World War II describes many of these gallant old warriors representing the author's own personal selection from a surprisingly large range of aircraft that despite all predictions fought hard and well

Fighter Aces of the Luftwaffe in World War II Philip Kaplan, 2007-03-22 This book examines the reality behind the myths of the legendary German fighter aces of World War II It explains why only a small minority of pilots those in whom the desire for combat overrode everything accounted for so large a proportion of the victories It surveys the skills that a successful fighter pilot must have a natural aptitude for flying marksmanship keen eyesight and the way in which fighter tactics have developed The book examines the history of the classic fighter aircraft that were flown such as the Messerschmitt Bf 109 and the Focke Wulf Fw 190 and examines each type's characteristics advantages and disadvantages in combat The accounts of the experiences of fighter pilots are based on archival research diaries letters published and unpublished memoirs and personal interviews with veterans The pilots included are Werner Molders Gunther Rall Adolf Galland Erich Hartmann and Johannes Steinhoff

MiG-3 Aces of World War 2 Dmitriy Khazanov, Aleksander Medved, 2013-05-20 The MiG 1 3 family of fighters was built to satisfy a Soviet Air Force requirement for an advanced fast high altitude fighter Entering service in the spring of 1941 the problematic MiG 1 had its handling issues rectified with the hasty production of the MiG 3 Many of these were destroyed on the ground when the Germans launched Operation Barbarossa Nevertheless enough examples survived to allow pilots such as Stepan Suprun and

Aleksandr Pokryshkin to claim a number of victories in the type This book tells the complete story of the men who made ace in the first examples of the famous MiG fighter **Red Spies in America** Katherine Amelia Siobhan Sibley,2004 The most detailed study of Soviet military industrial espionage during the 1930s 1940s and 1950s spying aimed specifically at acquiring restricted information and materials relating to American industry technology and science **Aces of the Republic of China Air Force** Raymond Cheung,2015-05-20 The ace pilots of the Republic of China Air Force have long been shrouded in mystery and obscurity as their retreat to Taiwan in 1949 and blanket martial law made records of the RoCAF all but impossible to access Now for the first time the colourful story of these aces can finally be told Using the latest research based on released archival information and full colour illustrations this book charts the history of the top scoring pilots of the RoCAF from the beginning of the gruelling eight year Sino Japanese War to the conclusion of the Civil War against the Chinese Communists Beginning as a ragged and very disparate group of planes and pilots drawn from various provincial air forces the RoCAF gradually became standardised and was brought under American tutelage Altogether it produced 17 aces who scored kills whilst flying a startling variety of aircraft from biplanes to F 86 Sabres **Fighter Over Finland** Eino Astere Luukkanen,1980 **Mussolini and His Generals** John Gooch,2007-12-24 Study of the relationship between the military and foreign policies of Fascist Italy 1922 to 1940 *A6M Zero-sen Aces 1940-42* Nicholas Millman,2019-04-18 The Mitsubishi A6M Zero sen was Japan s Spitfire In continuous development and operational service from the time of the Sino Japanese war in 1940 to the end of the Pacific War in 1945 it is held in almost mythical awe similar to Britain s legendary fighter aircraft At the time of its operational debut the fighter s design features offered the revolutionary combination of an all round vision canopy cannon armament and a jettisonable drop tank giving it phenomenal range Together with the flying and tactical proficiency of superbly trained pilots this made the Zero sen a true strategic fighter spearheading Japan s offensive in the Pacific It was also the mount of a plethora of successful and flamboyant naval aces engaged in both sea and land campaigns This volume covers the use of the A6M2 variant from its debut in China to the Solomons Campaign and also tells the story of the A6M2 fighter aces of the 4th and Tainan Kokutai **Surviving Fighter Aircraft of World War Two** Don Berliner,2011-11-02 This is a guide to the existing WWII aircraft to be found in aviation museums throughout the world Each DPS contains a colour photo of an example of the aircraft as viewed in an aviation museum examples of different marks wartime shots in mono and a textual resume of the type with statistics The aircraft can be viewed in the USA UK France Czechoslovakia USSR Canada Australia Finland Holland Poland Germany Italy Japan Sweden and Spain
