*The Polite Tourist* Adrian Tinniswood, 1998 When people explore country houses they continue a long tradition tourists in Elizabethan England marvelled at royal palaces Jane Austen's contemporaries visited magnificent houses and toured their grounds Victorian sightseers flocked to historic sites Take a grand tour through time in this beautifully illustrated book and see why country house visiting will never go out of style Back cover [Country houses and the British Empire, 1700-1930](#) Stephanie Barczewski, 2017-02-01 Country houses and the British empire 1700 1930 assesses the economic and cultural links between country houses and the Empire between the eighteenth and twentieth centuries Using sources from over fifty British and Irish archives it enables readers to better understand the impact of the empire upon the British metropolis by showing both the geographical variations and its different cultural manifestations Barczewski offers a rare scholarly analysis of the history of country houses that goes beyond an architectural or biographical study and recognises their importance as the physical embodiments of imperial wealth and reflectors of imperial cultural influences In so doing she restores them to their true place of centrality in British culture over the last three centuries and provides fresh insights into the role of the Empire in the British metropolis [Travel and the British country house](#) Jon Stobart, 2017-11-06 Travel and the British country house explores the ways in which travel by owners visitors and material objects shaped country houses during the long eighteenth century It provides a richer and more nuanced understanding of this relationship and how it varied according to the identity of the traveller and the geography of their journeys The essays explore how travel on the Grand Tour and further afield formed an inspiration to build or remodel houses and gardens the importance of country house visiting in shaping taste amongst British and European elites and the practical aspects of travel including the expenditure involved Suitable for a scholarly audience including postgraduate and undergraduate students but also accessible to the general reader Travel and the British country house offers a series of fascinating studies of the country house that serve to animate the country house with flows of people goods and ideas **Consumption and the Country House** Jon Stobart, Mark Rothery, 2016-06-02 This study explores the consumption practices of the landed aristocracy of Georgian England Focussing on three families and drawing on detailed analysis of account books receipted bills household inventories diaries and correspondence Consumption and the Country House charts the spending patterns of this elite group during the so called consumer revolution of the eighteenth century Generally examined through the lens of middling families homes and motivations this book explores the ways in which the aristocracy were engaged in this wider transformation of English society Analysis centres on the goods that the aristocracy purchased both luxurious and mundane the extent to which they pursued fashionable modes and goods the role that family and friends played in shaping notions of taste the influence of gender on taste and refinement the geographical reach of provisioning and the networks that lay behind this consumer activity and the way this all contributed to the construction of the country house The country house thus emerges as much

more than a repository of luxury and splendour it lay at the heart of complex networks of exchange sociability demand and supply Exploring these processes and relationships serves to reanimate the country house making it an active site of consumption rather than simply an expression of power and taste and drawing it into the mainstream of consumption histories At the same time the landed aristocracy are shown to be rounded consumers driven by values of thrift and restraint as much as extravagant desires and valuing the old as well as the new not least as markers of their pedigree and heritage

**Up and Down Stairs** Jeremy Musson, 2009-11-12 Country houses were reliant on an intricate hierarchy of servants each of whom provided an essential skill Up and Down Stairs brings to life this hierarchy and shows how large numbers of people lived together under strict segregation and how sometimes this segregation was broken as with the famous marriage of a squire to his dairymaid at Uppark Jeremy Musson captures the voices of the servants who ran these vast houses and made them work From unpublished memoirs to letters wages newspaper articles he pieces together their daily lives from the Middle Ages through to the twentieth century The story of domestic servants is inseparable from the story of the country house as an icon of power civilisation and luxury This is particularly true with the great estates such as Chatsworth Hatfield Burghley and Wilton Jeremy Musson looks at how these grand houses were for centuries admired and imitated around the world

The Verneys Adrian Tinniswood, 2008-05-06 The remarkable story of one English family during the tumultuous seventeenth century as revealed through their original letters and documents To know the Verneys is to know the seventeenth century Adrian Tinniswood writes in this brilliant book The Verney family's centuries long practice of saving every piece of paper that came into their possession amassing some 100 000 pages of family and estate letters and documents resulted in the largest and most complete private collection of seventeenth century correspondence in the Western world to date They paint an incredibly accurate and detailed picture of life in England Europe and even the American colonies through the everyday lives of one extraordinary family

**Investing in the Early Modern Built Environment** ,2012-08-01 Today the bulk of tangible wealth around the globe resides in buildings and physical infrastructure rather than moveable goods This situation was not always the case *Investing in the Early Modern Built Environment* represents the first attempt to delve into the period s enhanced architectural investment its successes its failures and the conflicts it provoked Not just cultural but clear economic and environmental reasons existed for a rejection of the new architectural agenda Whatever its efficacy or flaws it ultimately served as a model worldwide for cityscapes and housing well into the twentieth century Contributors include Jordan Sand Robin Pearson John Broad Kiyoko Yamaguchi Steven W Hackel Susan E Hough Johnathan Farris Matthew Mulcahy Charles Walker Emma Hart Chad Anderson Ross H Cordy Grace Karskens and Carole Shammas *Italy and the Grand Tour* Jeremy

Black,2003-01-01 For members of the social elite in 18th century England extended travel for pleasure came to be considered part of an ideal education as well as an important symbol of social status Italy and especially Rome a fashionable exciting and comfortable city became the focus of such early tourists interest In this book historian Jeremy Black recreates the actual tourist experiences of those who travelled to Italy on a Grand Tour Relying on the private diaries and personal letters of travellers rather than on the self conscious accounts of literary travellers who wrote for wider audiences the book presents an authentic picture of how British tourists experienced Italy its landscapes women food music Catholicism and more illustrations the book highlights the discrepancy between the idealised view of the Grand Tour and its reality what people were meant to do was not necessarily what they did what the guide books described as splendid was not always so perceived Black quotes British visitors as they reflect on their trips and he discusses what their Italian experiences meant to them And he considers the intriguing effects of tourism on British culture during this most exciting of centuries *The Invention of the English Landscape* Peter Borsay,Rosemary Sweet,2023-07-27 Since at least the Reformation English men and women have been engaged in visiting exploring and portraying in words and images the landscape of their nation *The Invention of the English Landscape* examines these journeys and investigations to explore how the natural and historic

English landscape was reconfigured to become a widely enjoyed cultural and leisure resource Peter Borsay considers the manifold forces behind this transformation such as the rise of consumer culture the media industrial and transport revolutions the Enlightenment Romanticism and the Gothic revival In doing so he reveals the development of a powerful bond between landscape and natural identity against the backdrop of social and political change from the early modern period to the start of the Second World War Borsay's interdisciplinary approach demonstrates how human understandings of the natural world shaped the geography of England and uncovers a wealth of valuable material from novels and poems to paintings that expose historical understandings of the landscape This innovative approach illuminates how the English countryside and historic buildings became cultural icons behind which the nation was rallied during war time and explores the emergence of a post war heritage industry that is now a definitive part of British cultural life **The Private Lives of Pictures** Nicholas Tromans,2022-09-26 A novel art history of England told through the artworks on display in domestic space over hundreds of years The Private Lives of Pictures offers a new history of British art seen from the perspective of the home Focusing on the nineteenth and early twentieth century the book takes the reader on a tour of an imaginary Victorian or Edwardian house stopping in each room to look at the pictures on the walls Nicholas Tromans opens up the intimate history of art in everyday life as he examines a diverse array of issues including how pictures were chosen for each room how they were displayed and what role they played in interior design Superbly illustrated The Private Lives of Pictures will appeal to readers interested in both art and social history as well as the history of interiors **Spectacle and Display: A Modern History of Britain's Roman Mosaic Pavements** Michael Dawson,2021-05-20 Antiquarian interest in the Roman period mosaics of Britain began in the 16th century This book is the first to explore responses and attitudes to mosaics not just at the point of discovery but during their subsequent history It is a field which has received scant attention and provides a compelling insight into the agency of these remains **Luxury and Gender in European Towns, 1700-1914** Deborah Simonton,Marjo Kaartinen,Anne Montenach,2014-09-04 This book conceives the role of the modern town as a crucial place for material and cultural circulations of luxury It concentrates on a critical period of historical change the long eighteenth and nineteenth centuries that was marked by the passage from a society of scarcity to one of expenditure and accumulation from ranks and orders to greater social mobility from traditional aristocratic luxury to a new bourgeois and even democratic form of luxury This volume recognizes the notion that luxury operated as a mechanism of social separation but also that all classes aspired to engage in consumption at some level thus extending the idea of what constituted luxury and blurring the boundaries of class and status often in unsettling ways It moves beyond the moral aspects of luxury and the luxury debates to analyze how the production distribution purchase or display of luxury goods could participate in the creation of autonomous selves and thus challenge gender roles **Garden Tourism** Richard Benfield,2013 Garden visitation has been a tourism motivator for many years and can now be enjoyed in many different forms Private garden visiting historical garden tourism

urban gardens and a myriad of festivals shows and events all allow the green fingered enthusiast to appreciate the natural world This book traces the history of garden visitation and examines tourist motivations to visit gardens Useful for garden managers and tourism students as well as casual readers it also examines management and marketing of gardens for tourism purposes before concluding with a detailed look at the form and tourism based role of gardens in the future **My Dark**

**Room** Julie Park,2023-08-03 Examines spaces of inner life in eighteenth century England to shed new light on interiority in literature and visual and material culture In what kinds of spaces do we become most aware of the thoughts in our own heads In My Dark Room Julie Park explores places of solitude and enclosure that gave eighteenth century subjects closer access to their inner worlds grottos writing closets landscape follies and the camera obscura that beguiling dark room inside which the outside world in all its motion and color is projected The camera obscura and its dreamlike projections within it served as a paradigm for the everyday spaces whether in built environments or in imaginative writing that generated the fleeting states of interiority eighteenth century subjects were compelled to experience and inhabit My Dark Room illuminates the spatial and physical dimensions of inner life in the long eighteenth century by synthesizing material analyses of diverse media from optical devices and landscape architecture to women s intimate dress with close readings of literary texts not traditionally considered together among them Andrew Marvell s country house poem Upon Appleton House Margaret Cavendish s experimental epistolary work Sociable Letters Alexander Pope s heroic verse epistle Eloisa to Abelard and Samuel Richardson s novel Pamela Park also analyzes letters and diaries architectural plans prints drawings paintings and more drawing our attention to the lively interactions between spaces and psyches in private environments Park s innovative method of spatial formalism reveals how physical settings enable psychic interiors to achieve vitality in lives both real and imagined **Travel and Space in Nineteenth-Century Europe** Anna P.H. Geurts,2024-06-27 This detailed study of eighty

European journeys examines the everyday spatial concerns of nineteenth century travelers with a focus on travelers from the Netherlands and North Sea region From common soldiers in revolutionary Belgium to guests of the tsars in Russia many of their travel accounts are here examined for the first time Chapters analyze the different meanings of the home and homeliness travelers desires for socializing but equally their intricate privacy norms their intense attachment to cleanliness order space and light and the discomforts of cold hot wet hard and cramped spaces Author Anna P H Geurts details what spatial characteristics travelers valued what measures they took to ensure them and what sensations emotions and thoughts this resulted in Geurts s careful attention to gender class and individual experience turns existing conceptions of industrial modernity on their head From Napoleonic stagecoaches and sailing boats to the steam powered journeys of the belle poque the continuities in travel experiences are surprising as are the commonalities between travelers of different social classes and genders Significant shifts in their spatial micropolitics should be sought less in the world of administration and industrial machinery and more in travelers increasingly flexible and egalitarian mindset and changing economic relations This book will

be of value to students and researchers of cultural history as well as contemporary planning and design      *Empire of Culture* Waiyee Loh,2024-06-01 *Empire of Culture* brings together contemporary representations of Victorian Britain to reveal how the nation's imperial past inheres in the ways post imperial subjects commodify and consume culture in the late twentieth and early twenty first centuries The globalization of English literature along with British forms of dress etiquette and dining in the nineteenth century presumed and produced the idea that British culture is a universal standard to which everyone should aspire Examining neo Victorian texts and practices from Britain the United States Japan and Singapore from A S Byatt's novel *Possession* and its Hollywood film adaptation to Japanese *Lolita* fashion and the Lady Victorian manga series Waiyee Loh argues that the British heritage industry thrives on the persistence of this idea Yet this industry also competes and collaborates with the US and Japanese cultural industries as they too engage with the legacy of British universalism to carve out their own empires in a global creative economy Unique in its scope *Empire of Culture* centers Britain's engagements with the US and East Asia to illuminate fresh axes of influence and appropriation and further bring Victorian studies into contact with various sites of literary and cultural fandom      **Mourning, Modernism,**
